More than half of the twenty dancing beauties with The Graces of Musical Comedy have beautiful Titian hair. The management declares that the hue is come by naturally. The attendance at the circus proper was between 15,000 and 18,000. Fred Nelson and wife returned last week from an extended visit in Sweden and report they were only too glad to set foot on American soil again. They had intended to remain in Sweden for a more extended visit, but on account of the European war they decided to cut their visit short and return while they could. Mr. Nelson received the Review regularly while abroad and tells us that he was able to keep posted on Crawford county news in this way. There are three members of The Graces of Musical Comedy company whom the public never sees, but if some town Johnnie attempts to get fresh with any of the score of dancing beauties he will soon find these inconspicuous persons very much in evidence. They are the chaperons engaged by Moore, Alvord, Schuster and Davis to guard the pretty misses from fresh mashers. Many of the young women are from wealthy families and are acting in The Graces chorus as a stepping stone to bigger things. By providing chaperons the management is enabled to secure a higher class, both in appearance and ability of girls than is usually the case in musical comedy. The Graces of Musical Comedy will be seen at the Germania opera house for three days, starting on September 7th. On this page of this issue he found a large shoe advertisement of The Boys' store, to which attention of the school children is called. The Boys' shoe department is brim full of new fall footwear for gentlemen, ladies, misses and boys. Mr. Fiedler, the gentleman in charge of the shoe department, has had years of experience in the shoe business, and is a most accommodating and trustworthy gentleman. When a Review representative called upon Mr. Fiedler, that gentleman was very enthusiastic about the new fall styles—especially the shoes for boys and girls, laying special stress upon the wearing qualities, but not overlooking the stylish appearance of the shoes. A particular feature of the boys' and girls' shoes for this fall's wear is that they do not have the cut-off vamps so common in most of the shoes. The Boys' have a very large and well assorted stock of shoes. Crawford county is doing some splendid work in the building of roads throughout the county. Permanent bridges are taking the place of old wooden structures, waterways along the highways are being opened and for the most part the weeds and underbrush are being cut. Someone, however, is responsible for the very poor temporary crossings that are built to be used while the main structures are being erected, and this is particularly true of the approaches to the crossings. No attempt at a roadway is made and automobile drivers find difficulty and danger when approaching the crossings. Some one in authority should see that these conditions are eliminated. In Denison there are a number of street crossings that should be attended to, where the dirt to the approaches has washed away. In most cases two or three loads of dirt would be sufficient to overcome the "jump off" and would probably save some automobile springs.

SEVENTY-SEVEN TEACHERS PASS All But 17 Passed the July Teachers' Examinations, Report Received Monday by Supt. Olry. Of the ninety-six who took the teachers' examination at the county superintendent's office in the court house July 28-29-30, seventy-six received grades which will entitle them to teach in the rural schools this fall. Superintendent Olry is greatly elated over the report which was received Monday from the state superintendent at Des Moines who, who corrected the examination papers. He had thought that there would be a shortage of teachers this fall and that it would be a difficult matter to secure a teacher for every district in the county but with this large number receiving satisfactory grades, every school will be supplied with a teacher. Seven of those who took the examination received first grade certificates, 39 second grade certificates and 22 were given third grade certificates. Eleven were given provisional certificates. Supt. Olry informs us that the July examinations proved more satisfactory than any other examination which has been held since he has been county superintendent—that is, a larger number received passing grades than ever before. All of the schools will be supplied with competent teachers and only seven or eight holding provisional certificates will be given positions where heretofore as many as eighteen have been allowed to teach. HUBBELL BUYS LAKE RESORT. Denison Man Forecloses Mortgage on Lake Property Sold to Mordhorst, Who Has Year to Redeem. Cottage Grove, the resort at the east end of the lake, was sold at sheriff sale last Thursday, August 6th, at the Sac county court house, in default of the payment of a note of \$5,000 and accruing interest, given by J. P. Mordhorst, proprietor of the resort, to Jen. Denison. The property was bid in by Mr. Hubbell. Mordhorst has a year in which to redeem the same. The resort which, according to the government survey, consists of 107 acres, more or less, was sold to Mordhorst on Jan. 12, 1912, for the sum of \$27,911.50, Hubbell reserving eight cottages and their lots. A payment of \$8,000 was made, and the balance secured by notes at 5 per cent interest. —Lake View Resort. Back in 1879. Doubtless some of our readers can remember when Ivory soap was introduced and what a curiosity the floating cake was at that time. Its manufacturers, however, realized that Ivory soap would have to appeal in other ways than this to hold its customers, so the floating quality was but one of the many distinctive qualities which since have made it famous. At that time, genuine imported Castile soap was practically the only mild, pure cleanser to be had, Ivory, equally mild and pure and as pleasing to the eye, seemed an unusual value for so few cents per cake. And so it was, and is. In genius advertising induced the people to try it and the soap itself did the rest. In a few years Ivory was enjoying a greater sale than any of the older brands of soap and its growth has been steady ever since. Ivory soap is just one of the many examples of what can be done by making a good product, and letting the people know how good it is through equally good advertising. And this applies not only to industries in the great manufacturing centers, but to the manufacturers and merchants in the small towns as well. Moore, Alvord, Schuster and Davis are good business men. They realize that a large organization such as The Graces of Musical Comedy must play to packed houses everywhere in order to make money. To do this they must make an appeal to the many and not the few. So the shows are clean and absolutely devoid of the vulgar. The fact that the Graces enjoy enormous business everywhere is ample proof that there are more clean minded people in the world than vulgarians. The Graces of Musical Comedy will be seen at the Germania for three days, starting September 7th. To prove that they are standing at Armageddon and battling for the Lord, the European powers are now killing off the Lord's children at the rate of some 10,000 a day.

Can You Find the \$50,000 Photographs?

Here's how thirty feet of celluloid cost \$50,000. When the moving picture action for Louis Joseph Vance's new and sensational novel, "The Trey O' Hearts," was being outlined something happened. The producer pointed out seven places in the novel that he claimed could not be portrayed in pictures. But they were. It only took thirty feet of film to do it, but it cost \$50,000 to get the negatives! See if you can find these situations in the pictures. They are just one of the many things worth looking for in—

The Trey O' Hearts

It is the most extraordinary picture production ever made, and will probably never be beaten and seldom if ever equaled. It cost the Universal Film Co. \$200,000 to produce the reels showing the hundreds of sensational adventures, and depicting in detail the action in this remarkable story. The best, biggest and most interesting of the motion picture productions to be seen weekly at Germania Opera House, Thursday, Sept. 10, and every Wednesday thereafter for fifteen installments. The first installment will appear in next Review

Advertisement for Ivory Soap featuring an illustration of a man in a hat and a box of soap. Text: WHEN men go camping, they travel light. Each of the few things taken has its part to do and must be depended upon to do it. Therefore, the fact that they take Ivory Soap to do the cleansing has the following significance: It means that Ivory fulfills every soap requirement. That it can be used for the toilet and for washing clothes and utensils equally well. That it can be used conveniently under any and all conditions. Ivory Soap fulfills the trust placed in it because it is of extraordinary quality, because it is mild and pure and because it floats. IVORY SOAP 99 1/2% PURE
