Overland Model 80
This announces the latest Overland - Model 80. This season we shall build 75,000 cars. This increased production again places us in the enviable and supreme position of being able to give still more value for still less money than any other manufacturer. Model 80 has a brand-new full stream line body. Its full sweeping lines blend and harmonize perfectly with the balance of the symmetrical design. The new crowned moulded fenders, new rounded radiator, new hood slightly sloped, and flush U doors with disappearing hinges, contributing the additional touches of exterior grace and modishness which distinguish costly imported cars.
The new tonneau is much larger - both in width and depth.
The new cushioned upholstery is also considerably deeper and softer. The new long improved underdrlung springs supply unusual and easy riding qualities. This model is equipped with one of the highest priced electric starting and electric lighting systems.
This model has the left hand drive and center control.
The tires are larger this year, being 34x34 all around. These tires can be quickly detached from the rims which are demountable. One extra rim supplied.
There is a powerful, economical and quiet 35 h. p. motor. The wheel base is 114 inches long.
This car comes complete. Electric starter, electric lights, rain vision, ventilating built-in wind-shield, modair top and boot, demountable rims with extra rim, jeweled magnetic speedometer, electric horn, robe rail, foot rest and curtain box. This new model is now ready for your inspection in practically every city and town in the country. Dealers are now taking orders. Make arrangements for your demonstration immediately.
