"President Wilson honored himself as well as the state in his appointment of Judge Wade," declares the Eagle Grove Eagle.

"Nobody is excited about it but the publisher of the Homestead and he wants the job," declares the Washington Democrat regarding the campaign against the office of state printer.

"The hand wagon and the water wagon are synonymous terms now and the politician who regards the situation is making a mistake," in the opinion of the Charles City Press.

The Carroll Herald, opposing any anti-tipping legislation, declares that any one who cares to give a tip ought to be allowed to do so.

"The rural members of the legislature don't want the state highway commission telling them how to make roads, but they are famous for telling the cities how they shall run their affairs," observes the Waterloo Times-Tribune.

The Nevada Representative believes some of the red tape could be spared from the present road law, but opposes a return to a system under which road business would be handled as loosely as the most of it used to be handled a few years ago.

"Iowa is rich, and the few millions required for these improvements will not seriously embarrass the tax payers of the state, but there are so many other things that might be done with the money which would do more good for all the people," says the Iowa City Press, discussing proposed capitol improvements.

"There is no more danger of the passage of the Johnson road bill than there is of the sun standing still," asserts the Des Moines Tribune.

"The railroads have never given the 2 cent fare a fair trial and the increase should not be granted until it has been proven under a fair test that the present rate is not remunerative," insists the Odebolt Chronicle.

The Webster City Journal considers Senator Chase "one of the really big men of the Iowa legislature."

ASPIRANTS FOR GOVERNOR (Continued from Page 1.) exact time for dissolution of the assembly will not be decided until some day next week.

The house by an almost unanimous vote has passed the McFarlane bill giving cities and towns in Iowa the right to have their business operated on the general manager plan.

The house by a vote of 64 to 43 adopted the Johnston bill which is a practically entire repeal of the highway commission law enacted by the 35th general assembly.

SUNDAY SCHOOL NOTES Side Lights on Next Sunday's Lesson for Teachers and Pupils Edited by Charles K. Meyers.

March 28—Review of the Last Quarter's Lessons. "Now all these things happened unto them for ensamples, and they are written for our admonition."

Thus spoke the great Apostle Paul when explaining his views as to the reasons why we should study and heed the history of the Children of Israel as set forth in the Old Testament.

Our first lesson brought in full view the great warrior leader of the Jews, Joshua. He was a grand man, full of faith. He it was who was ready to go up into the Promised Land when the greater part of his people were afraid.

Our attention was called to one of the great women of the bible, Deborah. She was one of the "judges" of Israel. She was a wise, sensible woman full of faith.

The selection of Saul as king came in a most recent lesson. We saw the quiet, unassuming country boy have his heart changed by God until he prophesied like one of the prophets, took mastery leadership of his people and remained so until puffed up by power he forgot who made him king and then fell ignominiously in battle.

Certainly we have found the "examples" spoken of by Paul. We have seen right living and faith in God and His promises exalted and sin and selfishness punished; have learned that such persons as Samuel, Deborah, Ruth, Jonathan are worthy of following after; that parents like those of Samson were right in seeking God's help for caring for their child, and that Eli was held responsible for his sons going wrong when he "restrained them not."

J. M. Pierce, publisher of the Iowa Homestead, strikes the Anthon Herald as "one of Iowa's biggest foul flushers."

The house by an almost unanimous vote has passed the McFarlane bill giving cities and towns in Iowa the right to have their business operated on the general manager plan.

by might, nor by power, but by my spirit, saith Jehovah." The birth of Samson is next called to mind. The great point of that lesson was in the anxiety of his parents to bring him up right.

Another great woman comes to view, Ruth. The time came when she must decide whether she would remain at her heathen ancestors or cast her lot and live with the people of God.

The birth of Samuel and the punishment of Eli now come before us. We will remember how the mother of Samuel dedicated his life to God before his birth, and how she kept the vow. We likewise remember how Eli, the head of the Jewish nation, was degraded, fell dead "because his sons made themselves vile, and he restrained them not."

Samuel as the victorious leader presents himself in view. Many of the people had fallen away from following God and there was trouble. In time they saw their condition and came to Samuel asking advice to regain the favor of God.

The selection of Saul as king came in a most recent lesson. HUGHES TALK.

No serious discussion of the political outlook fails to include a reference to the possibility that Justice Charles E. Hughes may be induced to retire from the supreme bench to accept the republican presidential nomination next year.

The telephone charges in Crawford county have been raised by local companies, and patrons are holding meetings over the county to protest against the "extortion."

The Hon. Leslie M. Shaw drops into print to say that he should support Theodore Roosevelt for the presidency, not as a "progressive" but as a republican.
