When a lecturer urges liberal help to the students some quiet people put money in the box while others generously contribute loud and prolonged applause.

A Happy Home (Read What Peruna Did) Mrs. James F. Summitt, No. 1006 East Eighth St., Muscatine, Iowa, writes:

"My health was so miserable for years that I was practically an invalid. We had no family, owing to my ill health. I was induced to give Peruna a trial, and found very quickly that it was helping me.

I am now well and happy. We have a baby boy. He is our first and only child.

"I am now well and happy. We have a baby boy, which we believe is the direct consequence of my improved health. He is our first and only child, and if Peruna had not cured me of my ailments we should never have had him. I hope every suffering woman will give Peruna a trial, the same as I have."

Those who object to liquid medicines can now procure Peruna Tablets.

Description: An ad in the Review at this time telling of your horse, giving stand and amount for services, will result in more business for you.

Certificate of Soundness, 4-11-44

Right here we'll publish the certificate and thus live up to the state laws. The Review reaches the kind of horsemen you want and a good ad published a week or two is worth more than all the bills you might have printed.

THE SEASON OF 1915 will witness the breeding of more horses than ever; the European war is making a great demand on the United States for horses, and as it takes three years to mature a horse there is liable to be a shortage.

Fortified Tires Now in the Light

The supreme test of a tire is to hold top place—the place in the sun—and for years. Goodyear tires have done that. Long they have led, both in sales and prestige.

Men expect much of the top-place tire. They look for a superior tire in it. Any seeming fault, due to mishap or misuse, becomes a defect in this glare.

But Goodyear Fortified Tires, after years in this light, hold higher place than ever. Last year men bought 1,479,883 Goodyear tires of the pleasure-car type alone. That's about one tire for every car in use.

Who Is Wrong? Is it the Goodyear user, whose choice is confirmed by some 400,000 others? Or is it the man who still assumes that another tire is better?

Seed Wheat!

We have received a shipment of the famous Marquis Wheat. The finest spring wheat grown.

THE WHEAT ESPECIALLY ADAPTED FOR IOWA CLIMATE

First. It ripens from ten days to two weeks earlier than any other variety. This is especially important in Iowa as it gets out of the way before the extreme hot weather comes on.

Second. The straw is shorter, making it less likely to lodge.

Third. The wheat tests from sixty to sixty-six pounds and has been known to test seventy pounds to the measured bushel.

Fourth. Marquis wheat took the \$1,000 prize offered for "The Best Wheat in America," by Sir Thomas Shaughnessy; and also the \$3,000 prize for first place at Lethbridge, Canada, in a competition open to the world.

Samples Shown at Our Mill

This wheat has been tried out in Iowa for three consecutive years in the vicinity of Des Moines with very marked success, yielding 30 bushels to the acre.
