Nine public auction sales are advertised in this week's issue of the Review and farmers should by all means read over these sale notices. Farmers who expect to have successful sales are using liberal space in the Review to advertise them for they know that the Review has the largest circulation of any newspaper in Crawford county and that it is the best medium through which they can inform the public of what they are going to sell. No matter how good the auctioneer it is necessary to have the crowd present on sale day if the sale is to be successful, and that is where the Review comes in. Farmers in Crawford county and nearby territory look to the Review for sale news, for nearly all of the sales held in this locality for the past fifty years have been advertised in this paper. Mr. Farmer, if you are going to hold a sale, by all means arrange for a liberal amount of space in this paper. It will be the best investment you ever made.
