VOL. 51

DENISON, IOWA, WEDNESDAY, MAY 17, 1916.

No. 20

DEMONSTRATION WAS BIG SUCCESS

Despite Rainy Weather the Demonstration Given Saturday at Bottling Works Was Big Affair

MANY PEOPLE IN ATTENDANCE

Nicholson Ice & Produce Company, Doud Milling Company and Bottling Works to Be Congratulated

The formal opening and demonstration of the Denison bottling works, held last Saturday, was attended by fifteen hundred people, notwithstanding the fact that the weather was anything but desirable. People not only from Denison, but from surrounding towns, visited the fine new building on South Main street where they had an opportunity of seeing soda water and in fact all kinds of soft drinks manufactured. In addition to inspecting the new plant there were different booths arranged throughout the building where representatives from factories demonstrated goods which are handled by the Denison bottling works.

A special invitation was extended to the children to attend the opening between the hours of 9 and 11 in the forenoon, and it is estimated that over 250 little folks availed themselves of the privilege. They were royally entertained while at the plant and the method of manufacturing soda water was explained and all showed keen interest in the machines which are used. Every child was given an ice cream cone, the ice cream being manufactured by the Nicholson Ice & Produce company, and they were allowed to sample the different flavored soda waters. A whistle was presented to all as a souvenir of the occasion.

The entire afternoon and evening was devoted to the grownups who visited the plant in a steady stream from 1:30 o'clock until after 9 o'clock in the evening. Many of those present had never before visited a bottling works and were surprised at the magnitude of the Denison plant. Competent guides were on hand to escort them through the fine new building and explain in detail every department of the business.

The show room on the ground floor was artistically decorated for the occasion and the beautiful soda fountain was fitted up with all of the soda water sundries wholesaled by Messrs. Savory & Mitchell. At small tables in this room guests were served with ice cream manufactured by the Nicholson Ice & Produce company. Many interesting booths were arranged in

the building where visitors had an opportunity of having experts explain to them the wares displayed. The Crystal refrigerator display attracted considerable attention and Mr. D. M. Potter of Lincoln, Neb., who was sent here especially from the factory, demonstrated the different styles on display. These refrigerators are made entirely of metal and enameled in white. Messrs. Savory & Mitchell are the local agents for this well known make of refrigerator and wholesale them in this territory as well. We are told that several orders were booked during the day. Mrs. DeWitt, of Colfax was present and gave out samples of the Colfax mineral water from a prettily decorated booth. Fifty-five gallons of mineral water were given out during the day. Another interesting booth was that of the Welch Grape Juice company, who sent their representative, Mr. C. L. Potter, of Des Moines, to Denison to demonstrate at the opening day. Ice cold grape juice was given to each visitor. Mr. C. Smith, of Chicago, assisted by Viola Savory, Blanche Lorenzen and Margaret Plahive, was in charge of the soda water booth, where samples of the different extracts used in its manufacture were displayed. Mr. A. Penrith, of Minneapolis, was in charge of a booth where samples of tame and wild cherry ads were dispensed. The Cherry Blossom booth, in charge of Earl Baum, proved one of the main attractions at the opening.

Hot biscuits, served in a booth located on the second floor, proved to be the main attraction for the ladies present and over 1500 were given out during the day. The biscuits were made from Fidelity flour, manufactured by the Doud Milling company here in Denison. S. & M. maple syrup was served with the biscuits and the butter used was manufactured in the plant of the Nicholson Ice & Produce company. Sample 3 pound sacks of Fidelity flour were given to the visitors.

In addition to the demonstration at the bottling works, invitations were extended by the Nicholson Ice & Produce company and the Doud Milling company to visit their plants, and scores of people availed themselves of this privilege.

At the Nicholson plant special guides were on hand and guests were taken through the immense plant. They were shown how the artificial ice is manufactured from distilled water in a room that was actually so war that it would seem an impossibility. The butter-making department, cold storage rooms, etc. packing department, etc., were thrown open to the public.

Mr. F. L. Fitch, local manager of the Doud Milling company, estimated

SUDDEN DEATH OF MRS. A. E. MEYERS

Entire Community Greatly Shocked at Sudden Death Which Came on Tuesday Afternoon

REMAINS TAKEN TO OSKALOOSA

Healthy Baby Boy Born to Mrs. Meyers Shortly Before Her Death—Particularly Sad Affair

The sudden death of Mrs. A. E. Meyers, which occurred at the family residence on East Broadway on Tuesday afternoon, has cast a gloom over the entire community. Mrs. Meyers, who has been in a delicate condition for the past few months, was taken ill Sunday and the premature birth of a fine little baby boy caused her death. Last week she was able to be up town and only last Saturday assisted her husband at the bakery, where she chatted with the customers and seemingly was in the best of health. Sunday morning she attended to the minor household duties as usual and was in the best of spirits, laughing and joking with her husband while they were preparing the noonday meal. She stepped out of the room and it was only a few minutes later when Mr. Meyers heard her fall and found her lying on the floor unconscious. Supposing that she had fainted he tenderly carried her to a bed, where he endeavored to revive her, but failing in this he summoned a physician, but she never regained consciousness. A doctor and two trained nurses were in constant attendance and everything possible was done to save her, but all to no avail, and she passed peacefully away yesterday forenoon. The death of Mrs. Meyers is particularly sad, inasmuch as she leaves a bright healthy baby boy.

Ethel Maud Barrowman was born June 26, 1889, at Oskaloosa, Iowa, being at the time of her death 26 years, 11 months and 16 days of age. When only three years of age her father died and three years later she, together with her mother and sister, moved to Colorado, where they resided until the death of Mrs. Barrowman, which occurred in August, 1907. Ethel returned to Iowa after the death of her mother and on June 1, 1913, was united in marriage to Mr. A. E. Meyers, the wedding being solemnized at Carroll. As a bride and groom the happy young couple moved to Denison shortly afterward. Mr. Meyers purchasing the bakery of Mr. J. Blui Jones. During her short residence in Denison Mrs. Meyers made many friends who were attract-

ed by her bright and pleasant disposition. Besides her devoted husband and infant son, she leaves one sister, Mrs. C. M. Hazard, of Arlington, Iowa, to mourn her death. The sympathy of the entire community goes out to Mr. Meyers in his bereavement.

The remains were taken to Oskaloosa this morning, where they will be laid to rest in the cemetery beside her father and mother.

NEW TEACHERS ELECTED

Miss Pearl Wilson Elected Teacher in Grades—Charles Helsley and Miss Gray Also Elected

At a special meeting of the school board held one day last week several teachers were elected to fill vacancies in the grades and high school for the coming school year. Miss Pearl Wilson, daughter of Mr. and Mrs. A. D. Wilson, former residents of Denison, now residing at Ainsworth, Neb., was elected to a position in the grades. Miss Wilson has been teaching for the past few years and is especially well fitted for the position here in Denison. Her many friends will be glad to learn that she has accepted the position. Miss Dorothy Gray, of Omaha, formerly of Denison, was also elected to a position in the grades, and Charles Helsley, son of Mr. and Mrs. Albert Helsley, has been tendered a position on the high school faculty. Prof. E. Tourtellote, of Plymouth, was elected to fill the vacancy of Prof. Albert Weiss, who has resigned, and will move to his farm southeast of Denison next month. There are still two or three more vacancies to be filled, but the board expects to have these filled within the near future.

The Beutel Hardware Store opened for business last week in the old McCarthy building on Center Street and already the new store is enjoying a fine patronage. Mr. Robert Beutel, who formerly had charge of the Boys hardware department is the proprietor of the new business enterprise and doubtless he will make a success of his undertaking. He purchased the O'Meara stock of hardware at Dow City two weeks ago and this was all brought to Denison. The store is modern in every respect, with fine cabinets for everything in the builder's line of hardware and the other stock is nicely displayed so that customers will have no difficulty in finding anything they may desire. The formal opening of this new store will take place on Saturday of this week and Mr. Beutel is announcing this fact in the paper this week, inviting everyone to pay the store a visit.

GERMAN FLEET MAY HAVE SAILED

Strong Offensive Reported Begun by the Germans on Russian Army—Save Outwit the Turks.

GRAND DUKE'S DRIVE SURPRISE

Bombardment of French Position in the Avocourt Wood and About Hill 304 Still Continues

Paris, May 16—The bombardment of the French position in the Avocourt wood and about Hill 304 still continues, according to today's French official report. A weak German attack with grenades northwest of Thiaumont farm was repulsed. In the Woivreu shellings is proceeding along the sector at Eix and Moulainville. On the rest of the front there is quiet.

The text of the statement follows: "On the left bank of the Meuse there was a lively bombardment of our positions in the woods of Avocourt and near Hill 304. On the right bank a small German hand grenade attack northwest of Thiaumont farm was completely repulsed.

"In the Avocourt there was artillery fighting in the sectors of Eix and Moulainville.

"The night on the rest of the front was relatively calm."

News is awaited as to further movements of the fleet of German battleships reported last night to have left Kiel for Riga. Petrograd recently has indicated expectation of a powerful offensive by the Germans against the Riga-Drinsk frontier.

Petrograd, May 16—Developing a swift offensive movement in the extreme south, the Russians have crossed the Persian frontier southwest of Lake Urumiah and are now within 80 miles of the main line of communication of the Turkish army south of Bagdad.

The Slavs have reached the region of Rowanduz, several miles inside the Turkish frontier. They are marching westward toward the ruins of ancient Nineveh and the Mesopotamian city of Mosul. Unless speedily checked by the Turks they will be threatening to cut off the Turkish forces holding back the British at Kut-el-Amara within a fortnight.

silent on the progress of the Russian force operating in the Lake Urumiah district of Persia. When the curtain of secrecy was lifted the Russian army was disclosed well across the Turkish frontier and moving westward, apparently without effective resistance.

That the grand duke has outwitted the Turks and their German tutors is the belief here.

SAINTS' CHURCH DEDICATED

New Place of Worship Dedicated on Sunday Last, Elled J. A. Gillen of Council Bluffs, Officiating

The new church edifice of the Latter Day Saints was dedicated last Sunday, services being held both in the afternoon and evening. Elder J. A. Gillen, of Council Bluffs, was present and preached at both services and a goodly number were present.

The new church has only recently been completed and is located on an ideal site on East Tremont street. Bishop Charles Hunt, together with local members of the church, raised the necessary funds with which to build the church, people of Denison and surrounding country donating liberally towards it.

JOHNSONS SELL MARKET

Economy Meat Market Into New Hands, Messrs. Flinn & Roberts Now in Possession

The Economy meat market, which has been conducted for the past year by W. E. Johnson and son, Phillip, was sold the first of the week to Mr. Wilbur Roberts, of Dunlap, and Mr. P. T. Flinn, of this city, the purchasers taking possession of the same on Tuesday.

Mr. Roberts has been engaged in the butcher business for a number of years, first at Dunlap and for several years was employed by Mr. C. M. Jensen in the Economy market in Denison. He will have complete charge of the market and is busy this week renovating the shop and getting everything in the best possible condition. Mr. Roberts is not a stranger in Denison and doubtless the market under his management will enjoy a large patronage.

The Johnsons have not decided in what business they will engage in the future.

Mr. George Naevre reports the sale of the W. J. Dwyer homestead of 169 acres, located on the outskirts of Medina, S. D., which was owned by himself and Mr. Carl Gronau. The land was sold to W. P. Andres for a consideration of \$7,000. Messrs. Naevre and Gronau reserved 15 acres in which is located a fine gravel pit.

AREOPLANE EXHIBITION PLANNED

Charter Oak Enthusiasts Arranging for Fine Exhibition on Sunday, May 28th, at Charter Oak

A BIG BASEBALL GAME ALSO

Charter Oak Will Cross Bats With Fast Team From Dunlap—Airship Flight After Game

Charter Oak, May 17—(Special to the Review)—Arrangements are being completed for the first exhibition flight of Charter Oak's new aeroplane and according to present plans it will be made a gala event in the history of Charter Oak. The exhibition flight will be made on Sunday, May 28th, at the ball park on the outskirts of the town.

A big ball game is scheduled for the afternoon of May 28th with Dunlap's fast team, the game to be called promptly at 3 o'clock. Dunlap has a fast team this year and the game with Charter Oak promises to be a speedy one. Immediately after the ball game Lloyd Williams will make a flight in the new aeroplane. Lloyd is now at Eagle Grove, where he is being instructed by Mr. Weeks, who manufactured the machine, in handling it. He writes Charter Oak friends that he has made numerous flights and that the machine works perfectly.

The aeroplane was purchased by a stock company of Charter Oak people from Mr. Weeks at a cost of \$4,300, and will be used for exhibition purposes only. It is expected that the aeroplane will be driven to Charter Oak by Mr. Weeks and Lloyd Williams the fore part of next week. The aeroplane is no toy affair, being capable of carrying two passengers and has an eight cylinder motor, which develops ninety horse power and will be capable of traveling over sixty miles an hour.

The Denison friends of Mrs. Olivette Carr will be sorry to learn that she was painfully injured in an automobile accident at Champaign, Ill., last week. She has been visiting there with her son, Vernon, who is a student at the State University of Illinois. Mrs. Carr was riding in a taxicab and a heavy touring car, driven by one of the students, crashed into the vehicle in which she was riding. Broken glass from the windshield struck Mrs. Carr about the head and face, inflicting many bad cuts and bruises.

\$1.00 Thursday, Friday, Saturday \$1.00

\$1.00 Days in Your Store
