## Peninsular Base Burner Hard Coal Stoves

Our Reflex Peninsular double heating base burner is the greatest value at the price in Crawford county. The all-important factor in base burner construction is to give the greatest amount of heat for the fuel consumed. The flue construction of the Reflex is such that all the smoke and heat is brought in contact with the outside surfaces, which are the only parts of real radiating value in a base burner. This, together with the material, the construction and rigid inspection to which each stove is subjected and the Menagh guarantee is your assurance that the Reflex Peninsular is the best base burner on the market, and a study of its construction will show you that it is strictly up-to-date. Now on display in our Stove department.
