

THE REVIEW'S SPECIAL FARM NEWS DEPARTMENT

John H. D. Gray Editor

Live News About Crawford County Farms and Farmers

(Continued from Page Six.)

his live stock, but intends to put in a water system which will afford him all the water desired. A cistern will be placed on a hill near the residence and water will be piped from it to the residence and barns. The old buildings now used to house the cattle will soon be replaced by a large, new cattle barn. His farm is located two and a half miles south of Vail.

J. H. Carr, who lives about three miles northwest of Vail, was complaining of a lack of wind to run the wind mill when I called at the farm last week Wednesday. I had not been on the farm ten minutes when the windmill started.

I have noticed a shortage in the spring pig crop in the county. I have also noticed that owing to the high prices of feed, and also the high price of pork, that many have been tempted to dispose of their brood sows. I believe this was a serious mistake. If the brood sows were kept until they were two or three years old there would not be so many complaints of small litters.

A steel tower windmill was erected for W. N. Herrington, Jr., one and a half miles southeast of Vail last week.

I was recently prevailed upon to eat chicken soup at a certain farm home. The good wife said: "We haven't anything but chicken soup for dinner, but you are welcome if you will be satisfied with that." Nothing but chicken soup! Nothing but chicken soup! Nothing but chicken soup! I am glad to say that I have you are welcome to, she might have said I reluctantly accepted the invitation, but lost no time in placing my feet under the table. How many helpings I had I would be ashamed to tell.

Schleswig Leader—On Monday Ed. Kastner threshed oats and his yield went 50 bushels to the acre. Cras, Ernst has the highest average of threshing yield that we have heard of this year and his average of oats was 90 bushels to the acre. He hauled away 36 loads from 27 acres. Two loads made 143 bushels. The oats brought 58¢ per bushel.

Ed. Kral, one of the many progressive farmers living in the vicinity of Vail, has just completed a new hot low tile sile 14x32, on his farm one mile south of town.

A new residence is being built on the farm of Geo. Roberts about one mile south of Vail. The main part of the building is 30x30, two stories high. A basement, which is under the entire dwelling, has been divided into rooms that will be convenient. The first story will be finished in oak and the second in yellow pine. Every modern convenience will be included to make this a modern residence. Frank Pop is the contractor and he is doing a first class job for Mr. Roberts.

On the farm of Mr. Stehlik, three miles northwest of Vail, a fine and sturdy chicken house has been built. It is built entirely of lumber, except the foundation. The side walls are of drop siding, which by the way, makes very good side walls, if lumber is used. The roosts are slanting, but are hinged to the side walls. This permits raising of roosts when droppings are removed from the floor. A new combination granary and corn crib with driveway through the center has just been built. It will be one of the best investments Mr. Stehlik has made on the farm and after he has used it a year he would not farm without such a building, I am sure.

Clarence Hutchinson will erect a combination corn crib and granary on his farm, three miles east of Deloit. It will be forty feet long and thirty feet wide with a driveway through the center fourteen feet wide. This will give plenty of room to place an elevator in the driveway.

A. C. White, who lives five miles northwest of Vail, died a year ago last fall that he wanted to raise pure bred Poland China swine. At that time he purchased one brood sow, but had added to his herd since. He has a thirty pound of young stuff and they seem to be of a strain of easy keepers who do remarkably well on a light feed of grain and plenty of pasture. I have not seen a lot that looked better in the county and big and little are as quiet as kittens. Perhaps that is one of the reasons they thrive so well on a short ration of grain. He has the big type Poland China. A new arrival on the farm is a yearling boar, which will head his herd. He is certainly a big type for he now weighs 500 pounds and is in poor flesh. He could very nicely carry 200 pounds more. He has another boar which has had the honor of heading his herd which will be sold. His brood sows are all looking very good and I pick this young man to have a state reputation as a breeder of Poland China swine in a very few years.

Frank Kee has the contract to build a new residence for J. R. Deiter, three miles north of Vail. The house will represent all that is best and most convenient in modern home construction and I hope this young couple may have great happiness in its occupancy. The residence will be 28x

30 and the outside flush will be stucco. It will be finished in oak on the first floor. An electric lighting plant will be installed to furnish light for the residence and other buildings. Last fall a large sile was erected and a water tank built on the top of same. The tank holds eighty barrels of water.

Never in the history of the world has the dairy cow been called upon to perform such an enormous task as she is today. From every reliable source comes the warning that the supply of milk and its products must not only be maintained, but greatly increased to meet the national demands. This fact, coupled with more than a 1200 per cent increase in the exports of condensed milk and a doubling of the tripling of other dairy products places a vital duty upon the shoulders of American dairymen.

Mike Malony, Jr., does not raise pure bred hogs, but he has a hog house much better than many hog houses where pure bred stock is raised. The house was built early last spring. It is 16x40 and the side walls are made of drop siding. It sets up high and dry on a solid cement foundation. It has a board floor and is well looked after in the way of sunlight and ventilation. An alley runs through the center and the interior is divided off in pens by movable partitions and is one grand hog house. You fellows who are going to build one this fall had better make a few dollars for yourself by visiting this farm which is located five miles south of Denison. There is one thing lacking, however. When he builds a cement feeding floor along the south side of this house, I will be satisfied, and so will he. Now don't think this is the only up to the minute building on this farm. He has a building which is not near so large but, oh man, you should see what a busy little place it is. It is the power house and in this building is located a small gasoline engine which furnishes power to operate the cream separator, pump water—but he assured me that none of it gets into the cream—churns butter, turns grind stone and runs the washing machine. In a large and nearly new barn I found a part of it devoted to the comfort of his milk cows. It is equipped with the latest improved steel stanchions and the barn has plenty of light. Stalls are provided for ten cows and the barn is nicely located to provide ample drainage.

A new arrival, a boy, came to the home of Mr. and Mrs. Frank Pacholke last Sunday. While the family consists of five children, this is the only boy. I extend congratulations. The family reside on one of the many good Crawford county farms. It is located two and one half miles northwest of West Side.

Storm Lake Pilot-Tribune—Many readers of this newspaper will be interested in knowing that John H. D. Gray, who did such excellent work in this department for the Pilot-Tribune last year, has this week started such a department in the Denison Review. The people of Crawford county will

TOO DANGEROUS TO OVERLOOK Denison People Will Do Well To Heed the Warning. To have good health, the digestion, heart, lungs, and kidneys must work perfectly. When there is anything wrong with the digestion, heart or lungs, a very noticeable pain or distress gives prompt warning. Kidney trouble is more easily overlooked, however, and too often gains a long start. But kidney trouble does give early signs, and backaches, headaches, dizzy spells, rheumatic pains, too frequent, scanty or painful urinations should not be neglected. When these warnings appear use Doan's Kidney Pills, the reliable, successful, strongly recommended kidney remedy. Assist the medicine by taking things easier, reducing the diet and the use of liquors. A severe attack of kidney disease may be avoided. Doan's Kidney Pills have won the praise of Denison people. Read this Denison resident's endorsement.

Anna Fisher, 223 Vine St., Denison, says: "I had been complaining of my back and kidneys. I took a box of Doan's Kidney Pills, procured at the Schlumberger Drug Store and they helped me at once. Recently I again used them and found them just as good. My back got strong at once, the lameness left, and my kidneys gave me no more cause to complain. There is no question about Doan's Kidney Pills being a good medicine." Price 60¢ at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Anna Fisher had. Foster-Milburn Co., Props., Buffalo, N. Y.

To Seventeen-Year-Old Boys

If the war continues until you are 21 years old, you will be subject to conscription and service as a private. If you take up the study of VETERINARY MEDICINE now, you can graduate by that time and enter the service of your country as a professional man with rank and pay of an officer, and will be able to render far better service than you could as a private. For particulars write department 9.

St. Joseph Veterinary College ST. JOSEPH, MISSOURI

recognize that it is one of the obligations of life to turn over to them the soil which you have used in at least a good condition as when it came into your hands. Go and form a partnership with your renter. You furnish the land and he the labor, paying you a stipulated price for the use of the land. Show him that you are interested in his welfare sufficiently to rent him the farm for three years and if he is the right sort, and I know there are many of them who are, he will show you that he too, is interested in your financial success and will keep the old farm up to a high state of cultivation, not trying to take every thing from the soil in one year without placing back the life-giving fertility.

Miss Rosa Meyer, of Denison, has been visiting the past week at the home of Louis Miller, seven miles east of Charter Oak.

August Prouss threshed his oats last week Friday. He got 900 bushels from seventeen acres. He is located six miles southwest of Schleswig. The family left last Sunday for a week's visit at Walnut.

The Schultz brothers, Fred, Carl, Herman, and Louis reside in the same neighborhood about four miles south of Schleswig. These gentlemen own in partnership, a threshing machine outfit and they do their own threshing, also thresh for a few of the neighbors, who assist in the work for the entire party. This has been a satisfactory arrangement. I was told last Saturday. They were then on the last job for this year. I have visited the homes of these gentlemen and found they are wide awake, industrious, and progressive farmers. Their farms are a model of neatness and everything around them gives evidence of their thrift.

I caught Wm. Henningsen busy at his home last Saturday building a fence around a meadow, preparatory to turning the cattle into the same. He is feeding a few head of cattle which he intends to ship soon. His farm is three and a half miles southwest of Schleswig.

Hans Wilkens had three cars of fat cattle on the Chicago market Monday. He accompanied the shipment and I understand his cattle made him some money. Mr. Wilken is recognized as being a very successful feeder and no one who knows him is surprised that he made money on this shipment. He has a habit of doing it. He will soon have three cars of fat hogs for shipment. His farm is known as Valley Stock Farm and it is located five miles northeast of West Side.

AS OTHERS SEE US Storm Lake Pilot-Tribune—Many readers of this newspaper will be interested in knowing that John H. D. Gray, who did such excellent work in this department for the Pilot-Tribune last year, has this week started such a department in the Denison Review. The people of Crawford county will

MR FARMER—Dear Sir: Have you heard about your hog powder for worms? We have been selling it to farmers within a radius of eighteen or twenty miles of Denison. Ask your friends and neighbors about the results, then come in and let us put you up enough for your own hogs. Very truly yours, PH. A. SCHLUMBERGER. 332t.

It does seem as if ten Russians should be able to stand up against one German, but they seem to think it is safer to run.

find that Mr. Gray will be able to give them a very interesting page from week to week and that he is worthy of their confidence.

Schleswig Leader—John H. D. Gray, the new farm editor of the Denison Review, was in town Friday getting acquainted with the citizens and farmers in this part of the county. Mr. Gray is a country editor of many years' experience and of late years has specialized on farm news, having been connected with the Storm Lake Pilot-Tribune, the Odebolt Chronicle, and other prominent papers of north-west Iowa. He is a gentleman and scholar, also is a glib writer, using his own originality, which has caused people who are not farmers to read every line he writes. While in town The Leader acknowledges a fraternal visit from Mr. Gray.

Manning Monitor—Jno. H. D. Gray is on the staff of the Denison Review and is helping make that newspaper one of the best weeklies in Iowa.

Wall Lake Blade—John H. D. Gray has accepted a position on the Denison Review, at Denison. Mr. Gray will have charge of the farm department and will, no doubt, make the Review one of the best farm papers in this part of the country.

West Side Journal—John Gray, editor of the farm department of the Denison Review, paid us a pleasant visit this past Monday. Mr. Gray is an old hand at the newspaper game and having nursed the hobby to write editorial pertaining to farm life he, no doubt, will fill the position well for the Denison Review. We wish him success in his new field of labor.

Odebolt Chronicle—John H. D. Gray, formerly an employee of this office, is giving the Denison Review a farm department edition that will compare favorably with any in the state. John is an artist when it comes to handling a farm department. The Review could not have put a better man in charge of that important department.

MR FARMER—Dear Sir: Have you heard about your hog powder for worms? We have been selling it to farmers within a radius of eighteen or twenty miles of Denison. Ask your friends and neighbors about the results, then come in and let us put you up enough for your own hogs. Very truly yours, PH. A. SCHLUMBERGER. 332t.

It does seem as if ten Russians should be able to stand up against one German, but they seem to think it is safer to run.

After visiting the shoe store at the present prices, the consumer decides it will be cheaper to have his old shoes repaired, and after visiting the cobbler he decides that it is cheaper to have new shoes.

A large number of young men of wealth wish to be exempted because their wives are dependent on them for the labor of cutting off coupons.

Fortunately the congressional obstructionists can't hold up army organization by the revenue bill, as Uncle Sam's credit is excellent.

Darken your hair to the shade desired with MILDREDA Hair Remedy. This new preparation is far superior to any dye; gives a glossy appearance to the hair.

There is no danger of an itching or poisonous scalp when you use Mildreda for this simple preparation positively contains no mercury, silver, zinc, antine, coal-tar products or their derivatives. You just brush or comb it into the hair and presto—your gray hairs instantly disappear—your hair is beautiful and uniform color throughout—the ends are as dark as the balance and you have any shade desired from a light brown to a black. Just a moment's "touching up" once a week and no one can ever detect it. No rubbing, or washing off—no fading. Mildreda Hair Remedy is not a dye. We will send free samples if you enclose 10c to cover postage and packing to convince you just how much superior it is to all so-called dyes, stains, etc. The Mildreda Louise Co., Boston, Mass.

Don't Stay Gray

It is noticeable that a lot of these aliens who drew the fatal number 258 aren't spending much time figuring out how they can get exemption on account of their sore toe or the tooth-ache they had last week.

An Easy Way to Reduce Flesh

Drink Hot Water and Take Tassco. Haven't you often wished for a medicine to reduce your flesh? Something that does not require dieting or calisthenics? Well, right here you have it in Tassco Tablets which you may secure at any good druggist. They are pleasant to take, perfectly harmless and cause no restrictions of habit or eating, and reduce the flesh, little by little, until you are down to the number of pounds you wish to weigh. Too much flesh is undesirable, as most stout people will readily admit, and it detracts from one's good appearance; makes one clumsy and short of breath. There isn't any reason why anyone should be too stout, when there's this much-tried, perfectly satisfactory remedy at any good druggist. Tassco Tablets (don't forget the name) are recommended by physicians and are guaranteed to be perfectly harmless. Refuse substitutes, if you can not come to our store, we will mail Tassco to you. —50c BOX FREE—

If you are suffering from nervous and physical debility, call to see Dr. Stockdale.

Blood and Skin Diseases and diseases of women. Consultation free and confidential.

Address, DR. B. A. STOCKDALE Utica Building, Des Moines, Iowa.

IOWA STATE FAIR AND EXPOSITION DES MOINES, AUGUST 22-31 Recreation is Essential to a People Who Do Things Worth While The Iowa State Fair management has given much earnest thought and expended much good money in the effort to provide a program of entertainment that shall be in harmony and accord with the educative features of the fair and make it a perfectly balanced institution. MUSIC ENTITLED TO FIRST PLACE No less than eight or nine musical organizations of one kind and another have been engaged to entertain State Fair visitors. The famous Thaviu Band of Chicago, the T. Fred Henry Band of Des Moines, the Fisher Band of Burlington, the Royal Hawaiian Orchestra, the Graham Orchestra, the Veterans' Drum Corps and several others will contribute to the joy of the occasion. GRAND OPERA AND DANCING The Thaviu Band of Chicago will be accompanied by a full chorus of Grand Opera singers and dancers. Operas, old and new, will be sung, also the popular song hits of the day. Dancers in native costume will present the characteristic dances of different nations. This is one of the most popular musical organizations before the American public, very much in demand, and the state fair management was fortunate in getting a contract with Signor Thaviu. MODERN WARFARE OR AN ATTACK ON THE TRENCHES, is the title of a spectacular open-air production staged each night in front of the amphitheatre. Depicting WAR as it is being carried on today; showing an attack on the trenches, blowing up of forts, bombardment of a city, destruction of ammunition plants in the most realistic manner. It shows the massive war machinery, the monstrous siege guns, the terrible tanks and the scenic features of war waged in air. All actors in the pageant correctly costumed to represent soldiers of the different nations. Will give the visitor a better, truer and more adequate idea of modern war methods than acres of reading matter. TWO DAYS OF AUTO RACING In which many of the noted race drivers of the country will compete with their splendid big machines. It will be a carnival of speed, for these dare-devil drivers appear to think less of life than they do of making new speed records. FIVE FULL DAYS OF HORSE RACING The best speed program offered anywhere in the Middle West. Not less than three harness races and two running races every afternoon, with numerous special classes and events, such as trotting under saddle, team race for 2:12 trotters, team race for free-for-all pacers, etc., etc. BRILLIANT EVENING HORSE SHOWS A series of brilliant horse shows, stock parades and animal tableaux every night in the Stock Pavilion. All the fancy hitches popular in the horse show world; four-in-hands, tandems, pairs and singles of the beautiful high steppers. Thrilling stunts over the bars by the hunters and high jumpers. OPEN AIR VAUDEVILLE The newest, funniest and most extraordinary acts in the world of circus and vaudeville every afternoon in connection with the race programs; novel acts that will stir your sensational feasts that will thrill you, and foot stunts that will tickle you to the limit. HANKINSON'S AUTO POLO The game that is too fast for the movies—that is when played by the Hankinson bunch. Every afternoon and evening in front of the Grandstand. The Whole to Conclude With a Display of Fireworks Beautiful, Brilliant and Patriotic
