OBITUARY

Mrs. Anna Weber Fisher passed away at her home in Denison on Friday morning at 8:20 o'clock, following a prolonged illness. The deceased was born on the 20th day of March, 1859, in the state of Ohio, and was the third oldest of twelve children, eight boys and four girls, four of whom are now deceased. When the children were young the family moved to Washington county, Iowa, and some thirty-six years ago moved to Audubon county. She was married thirty years ago to Mr. Jas. M. Fisher at Audubon and this union was blessed with five children, one of whom died in infancy. The children surviving are Ollie, Mrs. John Meserbrink, Edna and Mae.

The family resided on a farm eight miles south of Manning until the death of Mr. Fisher, which occurred in 1906, when Mrs. Fisher and the children moved to Denison to be near her brothers who were then engaged in business here.

Mrs. Fisher always enjoyed good health until last January, when she began to complain and consulted her home doctor and being advised that she was suffering from a cancer decided to go to Rochester, Minn. The physicians there did not operate upon her and she returned home, being confined to her bed for eight weeks. In February she went to Cherokee and while there underwent two operations which failed to bring the relief hoped for. During her long illness she never complained of her lot, but was always patient and had a smile for everyone. She was prominent in church and was always willing to make every sacrifice for the happiness and welfare of her children. For several weeks Mrs. Fisher realized that she could not hope to recover and was resigned to God's will. During this time she made all arrangements for the disposition of her property and even arranged for her funeral service.

Funeral services were held at the St. Rose of Lima church Sunday morning at 10:30 o'clock, Rev. Father Farrelly officiating, after which the remains were taken to the Douglas Center cemetery, located about twelve miles southeast of Manning, where she was laid to rest beside her husband.

Besides her children she leaves to mourn her death six brothers and two sisters.

The Review joins with the friends of the bereaved family in extending sympathy in this, their hour of sorrow.

Some of these fellows who had teeth pulled to escape army service will feel fine some day when they learn they have enough heart and lung trouble to let them out anyway.

Microbes of Two Sexes.

The department of agriculture has investigated the life history of several varieties of microbes, and finds that these microscopic creatures are more highly organized than we have suspected in the past. They pass through several stages of growth, which has often been mistaken in the past for distinct varieties. They were found to be divided into two sexes, while in the past the microbe has been considered sexless organism.

Keep Cheerful.

Be cheerful in the struggle to measure up your ideal. Fight your faults with sunshine. Self-improvement is the big business of life, it is true, but you will succeed all the better if you mix song and laughter with your efforts. If you are really trying to be good, you are bound to be successful, and that is a reason for going at it with bright faces and light hearts.—Exchange.

Game in Mexico.

Mexico cannot be said to offer a field for hunters of big game, and the term, "a sportsman's paradise," which is sometimes applied to it, is an exaggeration. Among animals may be enumerated the peccaries or javelinas, deer, rabbits, hares, the reptiles include alligators, turtles and iguanas. Whales, seals and sea lions are encountered on the Pacific coast.—New York Telegram.

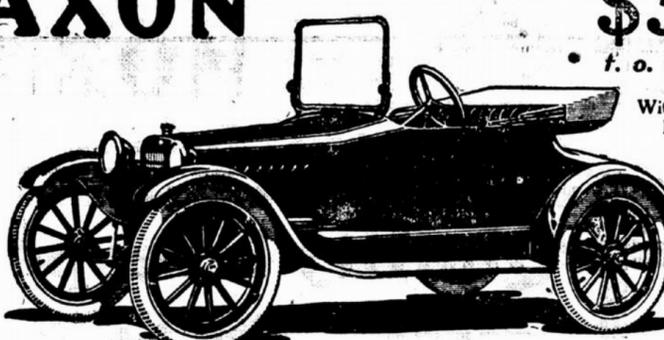

Military Discipline.

Pay attention to the discipline of your army. One month's relaxation will cause mischief which can be repaired only by six months of incessant cure. It is not by placing your forces everywhere, but by making them move about that you will guard all points. This manner of dispersing the army is fatal to discipline and order.—Napoleon.

SAXON **\$395**
f. o. b. Detroit

With Full Electric Equipment

Note These Fine-Car Features on Saxon Roadster at \$395

Electric starting and lighting system, two unit type, built by Wagner.	High-speed Saxon Continental Motor.	Streamline body.
Demountable rims.	Schebler carburetor.	Fedders radiator.
30-inch by 3-inch tires.	3-speed transmission.	Atwater-Kent ignition.
	Dry plate clutch.	Extra long vanadium steel springs, cantilever type.
	Hyatt Quiet Bearings.	

Check those features one by one.

Think of the convenience of merely stepping on a button to start your motor.

Think of the added smoothness, the greater economy, the finer performance given by the 3-speed transmission.

Consider the fact that the tires are 30 inch by 3 inch. That means that Saxon Roadster has more tire surface in proportion to car weight than any other car in the world.

So you are practically immune to tire trouble.

Every feature of Saxon Roadster is a feature of high-quality and known reputation.

No other car within \$300 of the price of Saxon Roadster has all these features.

And Saxon Roadster is a wonderfully able car. The Continental motor is unusually powerful and flexible.

It pulls smoothly and quietly "on high" or "in low."

You note instant power-response to the least pressure on the accelerator.

And above all else, Saxon Roadster is the world's lowest cost car to drive. It has established a grand average of 30 miles per gallon of gasoline.

10,000 miles to the set of tires is its tire-average. And a complete two-year record of total operating costs on thousands of Saxon Roadsters shows an average of 3c per mile. Price is \$395, f. o. b. Detroit.

Saxon "Six", \$395; Saxon "Six" Sedan, \$1395; Saxon "Six" Chummy Roadster, \$935. F.o.b. Detroit.

It is safe to predict that these people who are charging double prices to the soldiers will never be able like Henry Ford to turn over a factory to the government.

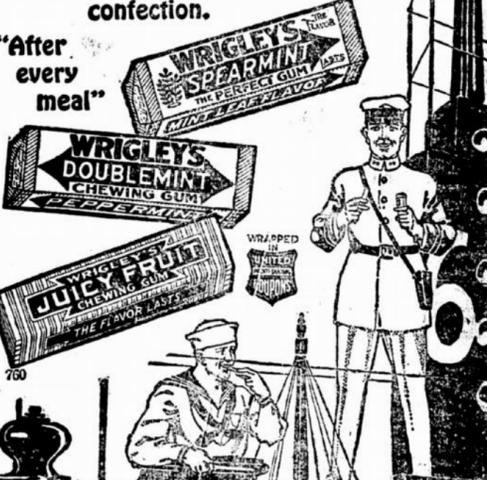

Crowded school houses is the report from many places, but the usual attitude of the heavy taxpayers in their childless homes is "I should worry."
