WALL LAKE ITEMS A full house greeted A. H. O'Connor on Monday evening and he swayed each one to do their own share in his experiences at the front, told with no attempt at oratory, and remarkably free from any appeal to prejudice, as his definition of an American excludes no race and includes all who love liberty, justice and freedom. His plea for each one to do their own share in the great conflict and to feel that it was essential, whether it was work, time money or fighting, seemed to strike a responsive chord in his audience. At the close, the work of the Y. M. C. A. was given ten minutes to present their claims in the present drive for the disappointment caused when the Y. M. C. A. lacked stores at the front, and Wall Lake went over the top, subscribing more than enough to bring up the quota given them. Part of the proceeds of the lecture go to the local Red Cross. NEMO HEALTH HELPS For Better Style What happens when you take a deep breath? Your lungs fill with air and the pure, red blood races through your body, building up tissues and nerves and making you strong and well. If a corset causes any constriction over the diaphragm, you cannot breathe deeply, and your general health is soon seriously affected. That's why we know you will be interested in learning about the Nemo "bridge," the particular feature of the Nemo construction that causes the top of every Nemo corset to spring away from the body and give plenty of room for the ribs to expand when the diaphragm pushes downward. Nemo front steels also bridge over the waist-line and prevent pressure over the gastric region. A corset that helps you breathe healthfully—that's the Nemo We carry a full line of Nemo Wonderlift, Self-Reducing and Back-Resting Corsets.
