

GREAT EXODUS OF COLORED TROOPS

Several Thousand Negro Troops Leave Camp Dodge for East After Six Months of Training.

PAT CROWE VISITS THE CAMP Soldiers Give Clothing to Belgians—More than 6,000 Suits Having Been Given From Camp Dodge

DIVISION HEADQUARTERS, Camp Dodge, June 10—A call has gone out for the assembling of another increment at Camp Dodge. Something like 12,000 men will be included in this call. Of this number 3,000 are from Iowa and 1,500 from North Dakota, Minnesota and Illinois will furnish a considerable number and Missouri and Nebraska will contribute as many as were rejected in a previous call because of physical disability.

It is noticeable that men are not discharged for defects that disqualify them from active participation on the battlefield as was the case in the beginning. Now, if a man is physically unfit he is assigned other duties and in this way many able bodied men are released for active service because these rejected men can perform the duties previously assigned to them. Unusual activity is noticeable in the training of the recruits. Down town privileges have been practically suspended except on Sundays and the men are given strenuous drilling from morning to night with an hour off for meals and the usual play period from 4 to 5 o'clock in the evening. At this time all kinds of games and sports are featured and the men have lively times. A hundred games of baseball will be on at one time and other sports give further opportunity for relaxation and merriment. In the meantime the men at the remount station are having their fun trying to break some obstreperous horse or mule or set of harness and they always draw a crowd. This phase of the recreation hour delights the Indians and they are always on hand to participate in the sport.

The past week witnessed a great exodus of the colored troops. Several thousand of them were sent eastward but their destination is not known but presumably they are headed for France as their six months of training here has been strenuous and effective. Upon their departure 3,000 other negroes were ordered to report here. Most of these men are from Alabama, but some are from the states in the northland represented at this cantonment. Negroes are already in France in large numbers. It is given out officially that about 157,000 negro soldiers are now in the national army. Of these 1,000 are line officers holding commissions of captain and first and second lieutenants. There are approximately 250 negro medical officers in the medical and dental reserve corps. The army now includes two divisions of negro troops, commanded by Maj. Gen. C. C. Ballou and Brig. Gen. Roy C. Hoffman. These divisions when fully constituted, will embrace practically all branches of military service, including infantry, engineers, artillery, signal corps, medical corps and service battalions with men technically trained in all branches of scientific work.

There are now openings in the veterinary corps of the national army for negroes skilled in veterinary and agricultural work. Two thousand volunteers between the ages of 18 and 40, not subject to the selective draft, are wanted in the veterinary corps. Convicted Soldiers Jump From Train. Sergeant Russel B. Clark and Private Frank P. Gruber, military prisoners enroute from Camp Dodge to Leavenworth penitentiary, jumped through the car window at Knowlton, Iowa, and for several days eluded their pursuers. They were chained together and this prevented them from escaping. A farmer espied them emerging from his hay now early one morning and he immediately rushed to the house, procured his shot gun and soon had the men under his control. He telephoned the sheriff at Creston and the men were brought back to Camp Dodge and were given another escort to Leavenworth. The military police from whom they escaped by jumping from the window in the water closet in the smoking car must now face a court martial. Of the two prisoners Clark came to Camp Dodge from Rockville, Ore., and was sentenced to twenty-five years at hard labor for holding up a taxicab driver. Gruber was from Garrison, N. D., and was sentenced to five years imprisonment when found guilty of opening a soldier's mail and taking a draft from a mail orderly.

Pat Crowe, of Omaha, the confessed kidnapper of Eddy Cuddy some years ago, has been a four minute speaker at the theater the past ten days and he also addressed the men in some of the Y. M. C. A. halls at the camp. While here he appeared before the state board of control Thursday and presented his plan for enlisting the ex-convicts of the United States into an army to fight the Kaiser. He commanded a good hearing and the board of control is reported to be in sympathy with the movement. Crowe's plan would allow all men who are physically fit and worthy to be released if they wished to fight and would also include all men up to fifty years of age who are ex-convicts. This would give the men a chance to do something for their country and a chance to "square" their name before the people.

163 Officers Made. One hundred and sixty-three enlisted men at Camp Dodge, the majority

of who attended the third officers training camp, have received commissions as second lieutenants. It is believed that most of them will be sent to other camps for duty. New Secretary for Dodge Army. Dr. F. W. Barry, pastor of the First Presbyterian church at Monmouth, Ill., has been secured for administrative religious work secretary of the Camp Dodge Army Y. M. C. A. He arrived at Camp Dodge Thursday. Dr. Barry was formerly assistant pastor of the Third Presbyterian church, Chicago, and has had experience as a hospital chaplain.

Clothing for Belgians. The last batch of men from Missouri, Nebraska and Iowa provided the Belgian relief commission here with a fine lot of clothing, over 6,000 suits, besides shoes and socks. Hundreds of these men who contributed their cast-off clothing when they donned their military equipment came to camp wearing their Sunday suits, so this donation is valuable. Division authorities have permitted the army trucks to haul the clothing from the camp on their trips to town. The clothing is collected at the barracks and left at the Y. M. C. A. to be taken up. There still remains truck loads of the civilian clothing at the camp from the last increment, and there will be more from the men who will report for service from June 24th to 26th.

The Belgian relief commission has now received more than 60,000 suits from the men who have reported at this camp. Another Man to Prison. Private Charles V. Haight, Walton, Ind., a member of the 351st field hospital company at Camp Dodge, has been tried by a general court martial and sentenced to two and a half years at hard labor in the government disciplinary barracks at Ft. Leavenworth. Haight was found guilty of not observing the sentence of a summary court martial, which confined him to his company area and of being drunk in uniform.

Colonel Frank B. Watson Here. Representing the general staff at Washington, Col. Frank B. Watson, spent last week here inspecting the training methods being carried on. He visits all of the cantonments and is regarded as an expert in military circles. He expressed satisfaction with the work being done here and said that this cantonment ranks among the best in the country. 5000 Trees Will Be Planted at Camp Dodge. Five thousand Canadian poplar trees are to be used in beautifying the two main highways through Camp Dodge, Main and Des Moines avenue.

These are the gift of the Wraggs Nursery company, of Des Moines, through Ralph Bolton of the Greater Des Moines committee. Work of planting them was started Thursday. The trees are now about one inch in diameter at the base and are just (Continued - Page Four.)

M. J. FARRELLY HOME ENTERED

Burglars Enter Home on Thursday Night Sometime After Eleven and Secure \$80.00.

LEAVE \$2,500 IN LIBERTY BONDS Envelope Containing \$25 Dropped by Burglars Who Seemed to Know The House Well.

A burglar entered the home of Rev. M. J. Farrelly on last Thursday night and rifled the safe in the dining room, securing some \$80 in currency. Entrance to the residence was made through the parlor window. Rev. Farrelly in telling of the robbery to a Review reporter stated that it took place some time after eleven o'clock as the house was locked up at that time. A screen was removed from the north parlor window and the burglar climbed through the window which had been left open. A small safe in the dining room was opened and the money drawer rifled. Some \$80 in currency was taken. Rev. Farrelly had \$2,500 in government bonds in the money drawer and these were left on the dining room table. An envelope containing \$25 was taken from the safe and dropped on the floor. Evidently the robber was familiar with the house as nothing but the safe was molested. No clew has been found that will lead to the apprehension of the thief.

CASWELL ON COMMITTEE. Denison Publisher Member of Editorial Executive Council Elected By Editorial Association

HOT SPRINGS, Ark., June 7—Officers elected by the National Editorial Association at the annual convention here today were: Guy U. Hardy, Canon City, Colo., president; Edwin Albright, Gallatin, Tenn., vice president; George Schloessen, South Dakota, secretary; and J. Bryan, Cain, Kan. treasurer. Executive committee: W. Wilke, Minnesota, chairman. H. A. Bailey, Illinois; Grant L. Caswell, Iowa; E. E. Brodie, Oregon; Frank M. Brumbiecon, Massachusetts.

A program of entertainment is set for tomorrow at the conclusion of which the convention will adjourn. These "work or fight" days are trying times for those philosophers who are never comfortable except on a park bench reserved for ladies and children.

GERMAN GUNNERS TRYING TO LOCATE A CANADIAN BATTERY

Here Heinie is trying to get the range of a battery located near the second line of trenches, which, with wire entanglements, may be seen in the middle ground. In the foreground are three Canadians interested in the shelling.

REVISION OF ALL DRAFT CLASSES

More than 500,000 Expected to be Added to Class One Immediately—Rulings More Strict

SPECIAL WEEK TO EXAMINE Many Who Have Obtained Deferred Classification Will Be Advanced—Orders Sent to Governors

WASHINGTON, D. C., June 7—With the double purpose of increasing the number of men available for military service, and of insuring fair administration of the selective service law, Provost Marshal General Crowder today telegraphed governors of all the states, asking immediate reinvestigation of the draft classification lists everywhere. Class 1, already exhausted in some localities by the repeated calls, contains 28.7 per cent of all the registrants, according to the national average, but percentages in the 4,500 local exemption districts vary most materially both up and down from the average figures.

Many False Claims. By "Slacker marriages" and ungrounded claim of right to industrial or agricultural exemption, General Crowder believes, some registrants have imposed on the local boards to escape service, while in other districts an application of the regulations has been perhaps stricter than is intended. The governors and the appeal agents are asked to investigate and upon evidence, to ask boards to reclassify men. Assistance of the public through information to the boards is also asked. It is said today that with the gradual exhaustion of class 1, unskilled farm laborers whom the boards have been allowed to place at its bottom will have to go to cantonments. There will be no change in this policy and the only relief, it is declared, will come from enforcement of the "work or fight" order generally.

Plans to Move 'Em Up. Thousands of men now in class 4 should be put in classes 1 and 2, the provost marshal said. The instructions also ordered investigations to determine if any men have been erroneously put in the upper classes when they should have been placed in those lower down.

It is expected that the re-arrangement will bring into class 1 more than 500,000 men. Cases where registrants were married after passage of the draft act will be carefully considered and if evidence warrants they will be classified in class 1. Married men whose wives have sustaining incomes probably will be reclassified.

To Examine Doubtful Cases [Local boards, government appeal agents and members of legal advisory boards are directed to pay special attention to the following classes of cases: Class 2, A and B; class 3, A, Band C, and class 4, A. Local boards should set aside a special week in June to be called class revision week to conduct examinations of doubtful cases. Classifications should be scientifically adjusted now so as to avoid the necessity of proceeding to the deferred classes.

Mr. and Mrs. A. F. Boylan have received four letters from their son, Lieut. Paul Boylan, during the past week. Paul is acting as an aeroplane observer and has been making flights north of Montidier where the Germans are now attempting to push forward. He has been flying with a French pilot, but in a letter from him received Sunday he says that he has completed his training and will return to his company. Lieutenant Boylan received his training at Ft. Snelling last year and was commissioned second lieutenant in the regular army and assigned to the artillery branch of the service. He has been in France several months.

FREQUENT QUESTION ANSWERED

Denison, Iowa, June 4, 1918. To the Editor: I am frequently asked why we do not ship other grain to Europe as well as wheat, and I thought that perhaps a report of the shipments for March and April of this year might answer the question and be of interest. During these two months we shipped abroad, 5,949,714 bushels of barley, 16,302,755 bushels of corn, 251,114 pounds of corn meal, 14,475,571 bushels of oats, 75,735,066 pounds of oat meal, 75,913,659 pounds of rice, 1,128,123 bushels of rye, 275,622 barrels of rye flour, 2,711,385 bushels of wheat, 4,857,601 barrels of wheat flour, 160,205,310 pounds of beef, 593,755,515 pounds of pork products. Yours truly, Frank Woolston.

HEAVENLY WATER PAIL EMPTIED

Beginning With May 6th and Ending June 6th, Rainfall Totalled 11.06 Inches at Denison.

MANY WATCH THE ECLIPSE Clear Skies and Atmosphere Were a Great Aid in Getting Good View of Moon Passing the Sun

The following interesting report was furnished by Prof. G. W. Stump, of the commercial department of the Denison high school, who has charge of the local government weather bureau: A total of 11.06 inches of rain fell.

Earlier in the spring it was remarked with reference to the weather that we had experienced an unusually pleasant March. Then April was out of the ordinary because of so many clear days and the almost entire lack of rain during that month. Now May has passed and we need not look far off to find the outstanding weather feature of that month.

There were thirteen stormy days in May and aside from a day of distinct tornadoes and other days of high winds there was a total rainfall of 8.23 inches. There was no rain in that month until the 6th, when just a trace fell and from then on it became increasingly stormy until during the last fifteen days of the month only four were without rainfall in some degree.

The storms ceased on the 5th of June, making just thirty days of bad weather. Nature, however, apparently desired to make the most of the thirty days and on the 5th emptied the heavenly water pail and poured upon us 2.14 inches of rain within a few hours. Beginning with the 6th of May and ending with the same day in June a total of 11.06 inches of rain fell.

The eclipse of the sun was interesting and no doubt was watched by several hundred Crawford county people. Clear skies and a clear atmosphere were a great aid in getting a good view of the passing of the moon across the face of the sun. The peculiar dusk was noticeable, and the crescent shaped shadows cast by the leaves of the trees and other objects was interesting, but those people who noticed their thermometers were able to see just what a direct effect the sun has upon the temperature of the air.

At the time the eclipse began the thermometer stood at about 80 degrees and while the sun darkened the mercury dropped in direct proportion as the sun's rays were cut off. When the eclipse was greatest the temperature had dropped nearly twenty degrees, or a degree every two minutes. Then as the sun became brighter it rose again to within two degrees of where it had stood before the eclipse began, the other two degrees being accounted for by the approaching evening and the cooling of the atmosphere by the shadow which lasted about eighty minutes altogether.

112 TEACHERS HAVE ENROLLED

Summer Session of Iowa State College Extension Opened on Friday Last—Day Devoted to Enrollment.

ESPECIALLY STRONG FACULTY Visiting Teachers and Instructors Being Well Accommodated—Cafeteria Popular.

The summer session of the Iowa State College extension opened in Denison on Friday and promises to be a very successful term. The attendance is less than was anticipated, there being 112 registered up to the present time. Those in charge had been looking forward to an enrollment of 200. Friday was enrollment day and Prof. A. C. Fuller of Cedar Falls, the director, was kept busy the entire day classifying the students. He was assisted in this work by Supt. C. E. Humphrey. On Saturday, the various classes were formed and the regular work commenced. Hereafter, however, school will not be held on Saturday.

The faculty is an exceptionally strong one and the attending students are greatly pleased with the conditions under which they are working. Some of the ablest instructors in the state have been brought to Denison to teach this summer session. Students will receive a thorough instruction in the subjects taken up at this session as they could secure at any college in the state.

Faculty in Charge. Prof. A. C. Fuller, of Cedar Falls, is in charge of the summer school. Prof. Fuller is well known through out the middle west as an instructor of great ability. On several different occasions, he has visited Denison and lectured before our teachers at study center meetings. He has a pleasing personality and already has won the respect and esteem of the students. In addition to supervising the session, he teaches General Methods.

The subjects of Economics, Geography and Algebra are being ably taught by Supt. C. E. Humphrey of our local schools. Supt. Humphrey is at home in the school room and it is needless to say that these branches will be thoroughly handled. Supt. A. W. Graham, superintendent of the Missouri Valley schools, is an instructor in Physics and Arithmetic. He is especially strong in these two subjects and was chosen for this work for that reason.

The subjects of Dialectics and Grammar are being taught by Supt. H. B. Smith of Newton. He has specialized in these subjects and is well prepared to teach them. Miss Martha Hutchinson, of Des Moines, teaches History and Physics and is the advisor of women. Miss Hutchinson comes from West Hill, where she holds a very lucrative position.

Miss Eulalie Turner of Cedar Falls, teaches reading and handwriting, and is the critic instructor. She holds one demonstration class daily which is composed of local children in the grades, whom she teaches for the benefit and instruction of the teachers in training.

Miss Mary A. Searle is an Ames graduate and is well fitted to handle the domestic science and Physiology classes. D. O. Wilson, City Superintendent of Earlham, has charge of the classes in Agriculture and Woodwork. Miss Bessie G. Keith is the principal of the Junior High School of Goldfield, a position which is said to be one of the best in the state and one which she ably fills. Under this recommendation she is in charge of the Music, Orthography and Penmanship classes.

Visitors to be Entertained. The teachers are to be furnished with entertainment in plenty during their twelve weeks visit in Denison. Four high class entertainments are

to be provided during the course by the Cedar Falls management and a number of informal social affairs are already being planned. The residents of Denison will make every effort to make the teachers stay a pleasant one and endeavor to make the Denison Booster spirit prevail.

The first of the entertainments is a musical by John Ross Frampton, who is a professor of Organ and Piano at Cedar Falls. This will be held on Wednesday, June 19th, at the Presbyterian church. In the afternoon, he will give a piano recital and in the evening will dedicate the new pipe organ, recently installed in that church. This entertainment will be free to the public and it is hoped that everyone will avail themselves of the opportunity to hear this musician of rare ability. Other entertainments will be given by the instructors from the voice department and from the public speaking department of Cedar Falls and the closing number will be a community sing which will be in charge of Prof. C. A. Fullerton, of the music department of the State Teachers' College. Prof. Fullerton is a Scotchman and a patriot of the highest order. He will lead in singing all of the patriotic and popular war songs of the time. This will be a rare treat and one the people of Denison may well afford to look forward to.

Among the informal affairs being planned is a reception to be tendered the faculty and students by the Denison Commercial Club at the club rooms in the near future. The entertainment committee is already making plans for this affair. It will be a good opportunity for the visitors to become acquainted with our business men. A brief program consisting of no doubt be furnished and refreshments will be served during the evening.

As a special treat for the visitors, Ringling Bros. circus will give two performances in Denison Tuesday, August 6th. This is an attraction which will no doubt meet with the approval of the entire faculty and students. Teachers Well Accommodated. The residents of Denison responded to the call for accommodations to the extent that as many more visitors could have been taken care of as are enrolled. The college dormitory is filled to capacity while scores of others have found delightful quarters in private homes of the city. Prof. Fuller and family are nicely located in the Patrick Hassett home on East Chestnut street.

One of the attractions of the summer session is the cafeteria, which is being conducted by Mrs. John Silletto in connection with the dormitory. The cafeteria is proving popular with the instructors as well as the students and a number of our citizens are also enjoying the novelty. In the neighborhood of two hundred meals are served every day, but so well is everything arranged that serving is rapid.

DEMONSTRATOR IS KEPT BUSY

Miss Mercer, of Ames, County Demonstrator, visits Many Towns and Townships of the County.

DEMONSTRATION, VAIL, JUNE 17 Plans Also Made for Demonstration at Charter Oak on June 25th.—Many Are Interested.

Miss Blanche Mercer, the home demonstration agent who was sent here from Ames for the summer months, is kept busy daily in the various towns of the county, demonstrating her methods of conservation and giving helpful addresses along various lines of her work. On Tuesday, June 4th, she conducted a meeting at Vail in the Red Cross rooms and explained her work and discussed the use of wheat and sugar substitutes. Plans were made at this time for a demonstration to be held on June 17th.

Wednesday and Thursday, June 5th and 6th, were spent in Charter Oak, but on account of the bad roads the attendance was very small at these meetings. A canning demonstration was given on Wednesday and a house meeting at the home of Mrs. A. F. Barber where the wheat and sugar saving plans were discussed, was held on Thursday. A demonstration luncheon was arranged for to take place on June 26th.

A canning demonstration was conducted in Denison at the Carnegie club room on Friday, June 7th, when the cold pack system and other methods of conserving the food supply were explained. It is regretted that the attendance was so small on this occasion but those present seemed greatly interested in the work.

NEATNESS, SIZE, "NEWSINESS" Will H. Sievers, Formerly of Denison, Compliments the Review for "Neatness, Size, Newsiness."

Placentia, Cal., June 4, 1918. Mr. R. P. Conner, Denison, Iowa.

Dear Sir: Inclosed please find my annual subscription for the Review. I wish to compliment you upon the neatness, size and "newsiness" of your paper. It certainly is a pleasure to pick up the Review and read about the doings of the old home town. Hoping you are meeting with the financial success which you deserve, I remain, Yours very truly, W. H. Sievers.

REGISTRATION BRINGS OUT 166

One Hundred Sixty-Six Young Men Who Reached Age of 21 Registered on Last Wednesday.

THIRTY-SIX CALLED THIS MONTH Local Board Received Call for Thirty-Six Men Who Will Leave Between June 24th and 30th.

One hundred and sixty-six Crawford county young men who have reached the age of 21 since June 5, 1917, registered at the court house last Wednesday, that being the anniversary of the first registration day, when ten million men between the ages of 21 and 31 enrolled their names for service in the army and navy. The registration in Crawford county was somewhat lighter than was anticipated. According to government figures the registrants should have totaled about 235. The fact that so many have enlisted no doubt accounts for the small number registered.

Registration took place in the local board's room on the third floor of the court house. Dr. W. T. Wright acted as chief registrar and H. J. Cummings and E. T. Cochran assisted, as did Alfred Wright, the chief clerk. The office was open from 7 a. m. until 9 p. m. Owing to the bad roads and lateness of the train it was not until a late hour that all had been registered.

Thirty-Six Men Called This Month. The local board has received a call for 36 men who will leave here some time between June 24th and 30th. This call is based, so we understand, according to the new ruling by which quotas are based upon the number of men in the 1 rather than upon the population of the county.

It is probable that this call will take men whose order number reach the eleven hundreds and if this is the case it is evident that over half of the class 1 men have been called into service. Of course the registration of men last Wednesday will swell the ranks of class 1 men as soon as the registrants have been classified. Questionnaires will be sent to the men who registered Wednesday and they will be placed in practically the same manner as the former registrants.

To Revise Draft Lists. The local board has been instructed to commence work immediately on the reclassification of all doubtful registrants in classes below class 1. Orders, however, for registrants will not materially change the status of registrants here. Some counties in the state have as high as 35 per cent of their registrants in class 1, while others are as low as 15 per cent.

Below we print the names of the Crawford county young men who registered on last Wednesday, together with their addresses:

- 1 Thomas John McMinimie, Denison. 2 Fred Herman Kuehl, Dow City. 3 Ferdinand August Pautsch, C. O. 4 Frank Leonard Denison. 5 Albert Carl Neumann, Boyer. 6 Gustave Quade, Boyer. 7 Fredrick Brinkins, Denison. 8 Nickolous W. Boyer. 9 Robert Frederick Wright, D. C. 10 Clarence Lewis Staller, Arion. 11 LeRoy Augustus Craswell, Charter Oak. 12 Arleigh Russell Johnson, Denison. 13 Raymond Alvy Crampton, Denison. 14 Robert Lewis Denison. 15 Bernhard Theodore Boyan, Schles. 16 Frank Julius Johnson, Dow City. 17 George W. Boyer. 18 William Frederick Schmidt, Denison. 19 Ray Frederick North, Denison. 20 Henry William Boyer, Charter Oak. 21 Peter Lockhart McIntosh, Dunlap. 22 Otto Ernest Wm. Masman, W. E. 23 Walter Carl Wendt, Mapleton. 24 Joe Gardner, Vail. 25 Elmer Henry Juergens, Schleswig. 26 Julius August Boyer, Schleswig. 27 Gustav Schrum, Manning. 28 John Stehlik, Jr., Vail. 29 LeRoy Augustus Craswell, Charter Oak. 30 Perry Alois Fisher, Kiron. 31 William H. J. Steckelberg, Manilla. 32 Thomas Homer Johnson, Dow City. 33 William Leonard Denison. 34 Bryan Thomas Dalton, Vail. 35 Joe Hulsebus, Denison. 36 Ernest Hans Wm. Neethan, Arion. 37 Robert John Raeth, Schleswig. 38 Fred Hanson, Jr., Deloit. 39 John Jess Lorenzen, Buck Grove. 40 Louis Herman Carl Heermann, Denison. 41 Ernest Hanson, Jr., Deloit. 42 Leonard Lyman Slechts, Vail. 43 George Peter Herman, Aspinwall. 44 Carl Alvin Taylor, Denison. 45 John Wesley Davis, Charter Oak. 46 Emil Detlef Jensen, Denison. 47 Donald Prentiss Liscomb, Dunlap. 48 Peter Hans F. Sievers, Charter Oak. 49 Frederick Beryl Garrett, Arion. 50 William Carl Wendt, Mapleton. 51 Thomas William Albert, Denison. 52 John Brodersen, Denison. 53 Charles Richard McAfferty, Denison. 54 Glenn Smith, Schleswig. 55 Richard Campbell May, Denison. 56 Joseph Marshall Garrett, Denison. 57 Otto Adolph Boyer, West Side. 58 Claudius Hansen, Manilla. 59 Rudolph Frederick Brandt, Denison. 60 John Frederick Boyer, Charter Oak. 61 George William Savery, Denison. 62 Ernest Edward Schmidt, Schleswig. 63 Wilbur Lewis Boyer, Schleswig. 64 Wilbur Lee McMillen, Manilla. 65 Elmer Edwin Mauritz, Kiron. 66 Ruy E. Denison. 67 Otto Kunze, Charter Oak. 68 Richard Welch, Vail. 69 Fred Hanson, Jr., Deloit. 70 Otto Kunze, Charter Oak. 71 Algot Edgar Taylor, Boyer. 72 George Hill, Dow City. 73 Arch Dewey White, Vail. 74 Arthur William Davidson, Arion. 75 James Lynus Evans, West Side. 76 Joseph Bramley, Arion. 77 Robert Henry Schmidt, Denison. 78 Troy Bender Baker, Schleswig. 81 William Hansen, Aspinwall. 82 Henry Sears Wright, Deloit. 83 Fred Hanson, Jr., Deloit. 84 Adolph Carl Mumm, West Side.
