One Diamond For Every Three Cars In America

MOTORISTS are buying Diamond Tires in such numbers that over 2,000,000 are now in service—easily, one for every three cars in America.

This patronage is significant when you consider that the big demand for Diamonds comes from motorists who have used them in previous years and insist upon Diamond mileage again.

Such demand can be commanded only by tires of super-value.

A Diamond Tube is likely to outwear your car itself. Made in Gray and Red, in sizes to fit any make of tire.
