JUDGE FOR YOURSELF Which is Better—Try An Experiment or Profit by a Denison Citizen's Experience. Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now supposing you had a bad back. A lame, weak or aching one. Would you experiment on it? You will read of many so-called cures. Endorsed by strangers from far-away places. It's different when the endorsement comes from home. Easy to prove local testimony. Read this Denison case: M. L. McElwain, 223 E. Vine St. says: "About five years ago I had trouble from too frequent passages of the kidney secretions especially at night. Several boxes of Doan's Kidney Pills, procured at the Lamborn Drug Co., permanently removed the trouble. My kidneys and bladder are now in good condition. I advise all who have any kidney trouble to use Doan's Kidney Pills." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McElwain had. Chautauqua a Present Day Necessity

President Wilson Says:

"The work the Chautauqua is doing has not lost importance because of the war, but has rather gained opportunities for new service. Let me express my hope that you will let no discouragement weaken your activities, and that the people will not fail in the support of a patriotic institution that may be said to be an integral part of the national defense."

Secretary of War Baker Says

"I am constantly facing the splendid results of the work done by the Chautauquas in this country in creating and sustaining a sound patriotic feeling, and in carrying forward the great national enterprises which the government is necessarily bringing to the attention of our people." The Chautauqua is unsurpassed as a means of placing before the people reliable first hand information not only on the state and progress of the nation in the great war, but on all subjects of vital interest to people who desire to make progress. It is also the ideal means of relaxation from the routine of daily work and ordinary cares. Where could you hope to get so much at so very low cost?

Keep the Home Fires Burning

Till the boys come home what better thing can we do than maintain at home the high ideals of the Chautauqua? These boys and girls at home must be given the highest culture to enable them to perform the responsible

tasks the future will impose upon them. And every man and woman, boy and girl will be stronger, happier, more patriotic and more determined, when they have reaped the benefits the Chautauqua affords.

Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilled, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.

Swift & Company, U.S.A.
