

# Shop Early for Christmas

**P**UTTING off Christmas shopping until tomorrow when it might better be done today is one of the most un-patriotic things an American can do.

And there is this feature to add to the benefits of Christmas shopping being done early: If we should not have the very thing you may want, it gives us time to obtain it for you.

Everyone will want a few Records for their Talking Machines, and Records are hard to obtain; so do not delay it to the last. Come early and get good service.

We are doing our best to stock the kind of Talking Machines that you will like to have in your home, and think that we are going to succeed very nicely. We will have machines to show you that play all types of Records and have tonal quality to satisfy the most exacting taste.

A good Talking Machine is a joy forever, but a poor one is a disgrace to any home. Let us show you what we have. You will be pleased with the results.

You will find some good bargains in Diamonds, Rings and Lavalliers of very dainty designs. The fact is, we have a complete line of high quality goods to select from.

**Quality will be remembered long after the price is forgotten**

That is the reason we want you to investigate our line, because we dwell on *Quality*. We wish to call your attention to the fact that the jewelers of Denison have not raised the price of a single article that we have not been compelled to do so. We truly hope you will appreciate this fact; and also to remember to stop at the Corner Jewelry Store for your Xmas shopping as well as to have your eyes fitted with Glasses.

**It's to Your Interest to do Your Christmas Shopping Early**
