A GREAT CHANGE ENTERS INTO LIFE OF STOREKEEPER

A certain unassuming gentleman in this city who happens to be a prominent merchant and who up to a few weeks ago had become a recluse because of his physical condition tells this remarkable and most interesting tale: "For a number of years," he said, "I have been so closely confined to my business working zealously to make my store representative in every respect that wear and tear finally got me, my face became drawn and haggard and my disposition seemed to urge people to evade me. It was then that I began to despise my own company.

"My bookkeeper one day suggested that I needed a rest and that I should be given attention. She told me that her father had taken Phosphated Iron when in my condition. 'Look at him now,' she said, 'he works ten hours a day and is the happiest man in the world.'

"All this happened less than a month ago. I followed the advice and look at me now. Back in the harness with a smile all the while. I am feeling more fit than ever. When I see a tired looking face the name of Phosphated Iron immediately comes in my mind. I am convinced that it is converting many a worn out body into a life rich in thought, ambition and enthusiasm.
