ARION ITEMS

A tree was also planted in honor of our great American, Theo. Roosevelt. Rev. Iona Erosius presided at the dedication. The school children sang "Plant from the Trees" and "Star Spangled Banner". DON'T DELAY

Some Denison People Have Learned That Neglect is Dangerous

The slightest symptom of kidney trouble is far too serious to be overlooked. It's the small, neglected troubles that so often lead to serious kidney ailments. That pain in the "small" of your back; that urinary irregularity; those headaches and dizzy spells; that weak, weary, worn-out feeling, may be nature's warning of kidney weakness. Why risk your life by neglecting these symptoms? Reach the cause of the trouble while there is yet time—begin treating your kidneys at once with a tried and proven kidney remedy. No need to experiment—Doan's Kidney Pills have been successfully used in thousands of cases of kidney trouble for over 50 years. Doan's Kidney Pills are used and recommended throughout the civilized world. Endorsed at home. Read Denison testimony.

Mrs. Peter Graves, 619 E. Vine St., says: "About three years ago I was suffering with kidney trouble and back

ache. My back hurt me all the time and I often got dizzy, especially when getting up after stooping. My limbs and hands were swollen and puffy sacs appeared beneath my eyes. I had heard of Doan's Kidney Pills and I got some at Lamborn's Drug Store. They helped me at once. My back got strong, the pain stopped, my kidneys became normal and the swelling went away."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Graves had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

SPRING IMPROVEMENTS

The difference between a bright, cheerful looking town and a discouraged, seedy appearing one is largely house paint. A town may be built of expensive houses and business structures. But if the paint becomes worn and dirty the town has an air of decayed and has-been elegance. Where buildings are kept painted the town looks like a place where confidence and enterprise exist.
Of course many people feel that the cost of labor and materials for painting is so high that they can't afford it. But many good authorities say that prices of all kinds have moved permanently to a higher level including of course painting materials and labor. The man who postpones a needed painting job on the hope of getting a

lower price is likely to wait some time. And while he is waiting he is encouraging his neighbors and the community to give a constant impression of shabbiness and dilapidation. Also buildings deteriorate fast when worn paint fails to give protection from weather.
A good many people, in these days of daylight saving will find time to paint their own buildings. They may handle the brush awkwardly but they will find the improvement of their property an ample compensation for their effort.
It is poor economy to use cheap paints. These soon show wear and the owner is tempted to allow his buildings to become chronically shabby. Any painter will say that unad-

terated leads and oils are cheapest in the long run.
People who contemplate painting should give thought to questions of color and taste. Too vivid colors give a building a loud and bold appearance that is not homelike for a dwelling nor dignified for a business building. But when well selected colors have been applied the building looks enough better to a purchaser to secure an additional price twice the cost of the painting.
