FLORENCE Oil Cook Stove More Heat---Less Care

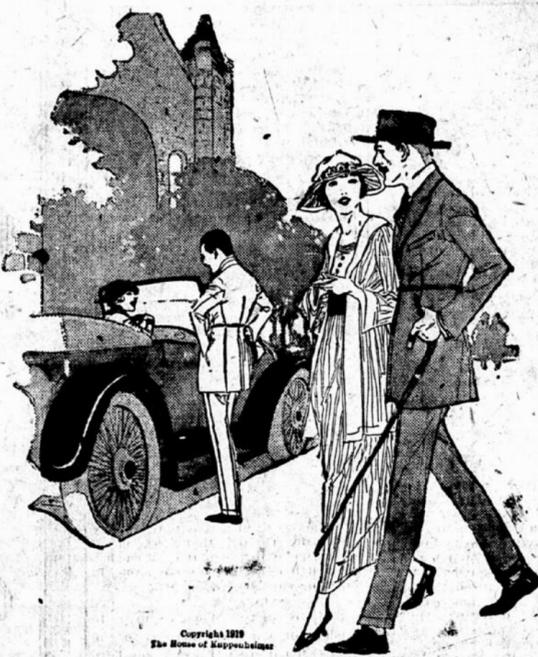

No matter how early you begin your day, your Florence Oil Stove is ready to begin it with you. Just turn a lever to "Light", left the chimney, and touch a match to the asbestos kindler. A clear, blue flame is started and your stove is ready for its work. This simple operation replaces all the back-breaking drudgery of cleaning clogged grates, taking up ashes, bringing in coal and wood. Lever control adapts this ready heat to whatever your cooking or baking task. By turning the lever you can get any necessary degree of heat—the powerful, intense heat for boiling or roasting, the medium heat for baking, or the slow steady heat for simmering. There is no stove task, big or small, which your FLORENCE OIL STOVE will not accomplish with ease and comfort. Your kitchen is always cool and comfortable, for the heat goes directly into the cooking.

The Florence Oil Stove is easy to use and easy to keep clean. The supply of kerosene may be noted through the glass bull's eye in the supply tank. This supply can be easily and quickly replenished at any time. There are no wicks to trim, no valves to leak. Complete directions accompany each stove, and any woman can easily fix any part of her stove and keep it always ready for instant use.

The Florence Portable Oven has a glass paneled door through which you can watch the progress of your baking without risking the draft of an opened door. The Florence Tank Water Heater, burning kerosene, will supply you with ample hot water for kitchen and bathroom.

Call at the Boys store today and ask them to show you the Florence kitchen equipment and how easily it operates.

That \$60 Bonus

"All we do is sign the pay-roll, and we never get a—' but this time we get a real life-size pay check from Uncle Sam and no pay-roll to sign either.

"I just got my li'l old \$60 check yesterday. And since this is Dress Up time I decided to invest the money in a brand new outfit of civies.

"Say, I'm all togged out now with a Spring suit made by that old reliable concern—

THE HOUSE OF KUPPENHEIMER

"It's one of those new waist-seam models—you know, you've heard about 'em. With the balance of the sixty I got a new hat, a new pair of 'kicks,' a couple of good-looking shirts, and a 'doggy' necktie.

"I called on the little girl last night—can't tell you the nice little things she said, that's a secret—but I decided right there that I couldn't have invested that \$60 any better. —N. X.-Soldier.

"P. S. Take a tip from me, if you haven't bought your Spring dress-up outfit yet, it'll pay you to look over the new Kuppenheimer Clothes at
