JOHN F. POTTER DEPARTS LIFE

Well Known Resident of Dow City Passes Away June 22d, Aged 62 Years and 23 ays

REMAINS TAKEN TO ATLANTIC
Was a Practicing Physician at Time of His Death—Resident of Dow City for the Past Seven Years

DOW CITY, June 20—(Special to the Review)—John Francis Potter was born May 29, 1857, at Mohawk, N. Y., and departed this life at his home in Dow City, Iowa, June 22, 1919, having reached the age of 62 years and 23 days. In the year of 1867 he moved with his parents to Muscatine, Iowa, and from there to Atlantic in 1876, where he lived with his parents until the age of 23. At this time he entered the Iowa City academy and graduated June 13, 1883, being admitted to the bar in 1884. For a period of three years, from 1887 to 1890, he was with the United States railway mail service. On the 28th day of March, 1893, he graduated from the Physicians and Surgeons college at St. Louis. He became affiliated with the Masonic lodge in the year 1913, of which organization he was a much valued member. He practiced his profession of medicine for twenty-six years, the last seven of which were spent in Dow City. He was married to Clara Louise Hoper at Solon, Iowa, Oct. 13, 1886. To this union eight children were born, seven of whom survive him, namely: Mrs. Helen Thompson, of Newhall; David Potter, of Anawan, Ill.; Frances Potter, of Dow City; Mrs. Mary Smith, of Clarke, S. D.; and Balbina, Adelaide and Clara Potter, of Dow City. He also leaves two brothers, James, of Omaha, and David, of Atlantic, and three sisters, Mary and Ellen Potter, of Atlantic, and Mrs. Anna McFadden, of Phoenix, Ariz.; four grandchildren, Francis and Woodrow Thompson, of Newhall, and Helen and Grace Potter, of Anawan, Ill., besides other relatives and numerous friends. His first serious illness occurred about ten years ago, since which time he has not been in the best of health, though nothing approached the suffering borne during the illness which ended in his death. He had been ill only some eight hours when he passed away. The funeral services were held at 11 o'clock, in charge of Rev. W. T. Rink, of the Methodist church. The remains were then taken by train to Atlantic and laid to rest. The surviving children, brothers and sisters were present at the funeral excepting his sister, Mrs. Anna McFadden. Dr. Potter will be greatly missed in this vicinity where his friends include all who knew him. The sincerest sympathy of the whole community is extended to the grief stricken family.

THE AMERICAN LEGION
Sturdy All Wool and a Yard Wide Americanism the Slogan of Legion —No Place for Hyphenates

The recent formation in Denison of a strong post of the American Legion gives interest to the following concerning the aims and purposes of this great organization:

Minneapolis Journal: From all that can be gathered the American Legion promises to be a super-American affair. It stands to reason that the organization will exert great influence the next thirty or forty years, as did the Grand Army of the Republic throughout a like period after the civil war.

The legion is all American, nothing but American and intolerant of everything here that is not wholly and enthusiastically American.

A radical, aggressive Americanism is what we need. The legion is going to help furnish it. Americanism has sat back and let the non-Americans, anti-Americans and something else-Americans have their innings. That complaisance, indifference, patience,

or whatever it may be is over. The legion goes to bat present and it will deliver. Come on in!

Why? Because the legion will comprise 4,000,000 young Americans who have been under the flag. They have seen the glory of the republic. They have realized that the United States is literally "God's country." They do not want any other in theirs.

The soldiers of the United States are young, their patriotism has been quickened. They have burned with a great passion. They are "annealed Americans." Their legion will run over and scatter to particles anything not American, or tainted with un-Americanism. The legion, like the G. A. R. before it, will guard the Ark of the Covenant. The legion will keep faith will conserve the republic, will hand down to the generation after them unimpaired what the founders of '76 and '87 and what the preservers of '61 and '65 bequeathed.

There are pro-Germans here still, and they are again finding voice. There are pro-anarchists and pro-other things. But the legion will see to them all.

William S. McNutt, a reporter of insight, observed the American Legion meeting in St. Louis. He writes about it in Collier's. And he believes it to be plain American, all American, devoutly and devoutly American.

"For the first time in the history of the experiment of democracy undertaken in North America and as a direct return from our investment of life, time and money in the great war, we have, as a living, sane, healthy fact in a world of mad new theories and exposed old lies, the United States of America." Such is the pronouncement of the soldiers, according to Mr. McNutt. As a corollary he adds: "And if I were a bolshevist and had been to St. Louis and seen what I have seen, I'd change either my mind or my residence."

When the legion gets to operating there is going to be mighty little perpetuation of anything but simon-pure Americanism in this United States. Leave it to the soldiers of the legion—they will solve all doubts.

One land, one loyalty, one language—the legion will make it that.

Here Comes the Goshawk.
A warning to sportsmen and others that a dangerous migration is in progress from the arctic regions has been issued by the Iowa fish and game commissioners.

The present invasion is said to be the most serious since that of eleven years ago, when the birds driven southward by a scarcity of hare and ptarmigan, came to this state and devoured grouse by the wholesale.

The goshawk, which, unlike other hawks, flies straightaway, instead of in circles, is somewhat larger than a pigeon.—Exchange.

Save 1,000 Steps a Day

Farm help is scarce, hard to get and high-priced. So why use the hired hands for lugging water? Why do it yourself? Why let the women folks do it? All you can use your time to better advantage.

Put in a MILWAUKEE AIR POWER WATER SYSTEM. It will save you 1,000 steps a day—and a lot of hard work. This system is as simple and reliable as any other farm machinery.

You consider it good business to mow, reap and seed by machinery, though you use these machines only a few weeks in the year. Yet a water system works every day of the year.

The MILWAUKEE is a "Direct from the Well" system—no water storage tank. It supplies water for the house and for the stock, and is the best investment any farmer can make.
