REUBEN JOHNSON RETURNS

Had Been in Far Away Alaska and Also Served During Spanish American War Since Leaving Home

F. L. Johnson, a lifelong subscriber of the Review, who lives near what was at one time called "Johnsonville" in Stockholm township, sends us the following relative to a homecoming celebrated by himself and his brothers and other relatives. The homecoming was given for Reuben Johnson, who left home many years ago and served in the Spanish-American war and later went to Alaska. The wish of the mother was also carried out in the homecoming. It had been her earnest wish that she might see her son before being called home, but her wish could not be realized, for at the time of her death, more than twelve years ago, Reuben was in far away Alaska. Following is Mr. Johnson's letter:

Sunday, Oct. 19, 1919, was a great day at the old D. L. Johnson homestead in the home of Oscar and Joseph Johnson in Stockholm township. There was a lingering desire in the heart of the mother of Reuben Johnson to see her son before she departed hence some twelve years ago. This desire could not be realized as Reuben was then in Alaska. She, however, left the desire that when some day he would arrive at home a homecoming of all his relatives should take place at the old home. This, her last desire, was cheerfully carried out by over forty relatives.

After an absence of seventeen years Reuben arrived home two weeks ago. He volunteered his services in the Spanish-American and also the world war over Sunday with his brother, Louis Jensen near Sac City.

Art Allen was at Sac City last Friday evening.

Mrs. Lulu Newby visited last week Friday at Lake View with her mother, Mr. and Mrs. Jay Williams and son were over Sunday visitors at the Finley home.

Mrs. Ernest Wicker entertained a number of her friends last Friday afternoon.

Mr. Shook has removed from the town, and James Waldron has moved into the house they vacated.

Mrs. C. Dewey, Mrs. Maurice Maroney and Miss Maria Maroney were at Lake View last Friday.

A. F. P. Schmitz and family were down from Odebolt to visit at the E. C. Sherwood home on Sunday.

Chas. W. Honey and family moved here from Auburn last week and have located in the Law house. Their son, Sidney and family will move from Ida Grove here the latter part of the week and will live in Mrs. Carrie Dean's house on Second street. They are painters and locate here on account of railroad facilities that enable them to work in other places easily.

Mr. and Mrs. E. C. Sherwood went to Carroll on Tuesday.

The Brunswick

FOR THE SEVEN AGES OF MAN

—“Then the School Boy”

MORE and more is the Brunswick Phonograph becoming recognized as a capable assistant in teaching school children. Studies, otherwise dry and uninteresting, are given zest and color by the aid of good music.

History becomes present day realism. Biography is revitalized. Calisthenics is given a real stimulus. And for giving the native tongue of a foreign language there is no better teacher.

Method of Reproduction

For all of these uses and for its exquisite tone is The Brunswick favored—everywhere. The essential reasons for its success are embodied in the Brunswick Method of Reproduction, comprising the Ultona and the Tone Amplifier.

The Ultona

The Ultona—a scientific creation—is instantly adapted to any make record. It presents the correct weight, precise diaphragm and proper needle.

The Tone Amplifier

The Tone Amplifier is an acoustical accomplishment. Free from metal and built entirely of moulded hollywood, it gives a resiliency, beauty and richness of tone that is unequalled.

Come in today. Ask to hear your favorite record demonstrated. One recital will convince you of the superiority of the Brunswick Phonograph.

For Economy and Satisfaction We Recommend the

“VORTEX” HIGH-OVEN RANGE

The only high-oven range with the double down draft for soft coal, slack or wood. For the home that needs a combined heating and cooking stove, we can think of none that will give more complete and enduring satisfaction than the “Vortex.” Because of its great heating capacity and wonderful economy of fuel, it is especially valuable this winter when coal is scarce and expensive.

The “Vortex” double down draft, used only in this stove, assures perfect combination, gives three times the amount of heat from a given amount of fuel, than other stoves, with imperfect air supply can give. The “Vortex” has an ash pan—a convenience not usually found in a stove of this type. Its other exclusive features make it the best stove to buy.

“Estate” Oak Heaters

Get the Genuine From Us.

We have sold it for many years. It is so good that it is widely imitated in name. You cannot hope to secure the positive economy and durability of the original “Estate” unless you get the genuine. If you will examine closely you will discover the original always has the name “Estate” on the leg. The ash pit is a seamless one-piece construction, the fire pot is double and the coldrolled, refined boiler body is extra heavy.

There are so many advantages in the genuine, that we welcome the opportunity of showing you this stove of proved merit.

“Gets-It” Peels Off Corns Painlessly

Off They Come Like Banana Skin, 2 or 3 Drops, That's All.

There's a murderous, painful way to get rid of corns, and then there's the peaceful, glorious “gets-it-off” way. After you have tried “Gets-It” you will say “never again!” to all other methods. This is because “Gets-It” is the only corn-remover on earth that makes corns peel off just like a banana skin. Two or three drops will do the work, without fussing or trouble. You apply it in 2 or 3 seconds. It dries immediately. “Gets-It” does the rest, without bandages, plasters, blood-bringing knives or razors. Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use “Gets-It.” It never fails.

“Gets-It” the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Made by E. C. Lamborn & Co., Chicago, Ill. Lamborn Drug Co., R. Knaut.
