

COMMUNITY LOSES ADMIRABLE LADY

The Death of Mrs. Martha Julia Erickson at Kiron Deeply Mourned by Numerous Friends

PASSED AWAY JANUARY 24TH

Funeral Took Place at C. S. Johnson Home and at the Baptist Church—Remains Buried at Kiron

KIRON, Feb. 2.—Special.—Mrs. Martha Julia Erickson, whose death was mentioned last week, was one of the highly respected and prominent pioneers who settled here in an early day. She was born at Sundsvall, Sweden, Dec. 2, 1840, and spent the first twenty-eight years of her life at that place. In the year 1868 she came to America, coming to Kiron, and made her temporary home with our townspeople, Mr. and Mrs. I. Michaelson, until in the fall, when she was united in marriage to John A. Erickson. Mr. Erickson then owned the land on which today the town of Kiron is located and on which they started life together, their first home being a dugout. Some time afterward disposing of this land they moved out on the farm, some southwest of town, where they resided until some sixteen years ago, retiring from active farming and moving to Kiron to enjoy the so well needed and deserved rest. Their peaceful and contented home life during their old age together was marred last March when the devoted husband bade her and the family and happy home good-bye and passed on into the celestial beyond far away from this world of tears and trouble. Mrs. Erickson continued to reside in the home until some three months ago when, owing to infirmities, she was taken to the home of her daughter and son-in-law, Mr. and Mrs. C. S. Johnson, where she was tenderly cared for until in the early hours of January 24th when death closed her long journey in life, in which she had attained the age of 79 years, 1 month and 4 days. She leaves to mourn her death four children, Mrs. Lydia Swartz and Levi Erickson at Boyer, Mrs. C. S. Johnson, in Kiron, and Fred Erickson, who resides on the old homestead; two sons-in-law, two grandchildren and a large circle of friends. The children have sustained a great loss in the death of their splendid mother, and the entire community has lost a most admirable woman. In her own days she was converted to Jesus Christ and joined the Baptist church in her native land and coming to Kiron became a charter member of the Baptist church here. She was organized in the year 1868, and at all times as long as her strength and health permitted was a most devoted and active member and did all she could in various ways to further the cause of the church and Christianity. She not alone professed Christ, but evidenced in her daily walks and life that she had been a true Christian. She was a consistent Christian, a quiet, true hearted, kind woman who never failed a friend and who at all times was ready to aid in any way to further the cause of the church and Christianity. YPRES A BIG SOUVENIR SHOP

Virtually the City's Sole Industry Now is the Getting of Money From Tourists.

The future of Ypres is still uncertain. No one knows at present to what extent the town will be rebuilt as it was. All that is certain is that the former population of some 18,000 souls are now for the most part at Paris-Plage and Blankenberge and that most of them are anxious to return "home."

There are more than a thousand people living in Ypres today, but these are mainly adventurers from Brussels and elsewhere, who have been attracted by the chance of making money out of visitors, says the London Times. A new Ypres is rising among the ruins of the old, but it is a wooden Ypres, of a character altogether repulsive to all who realize that a quarter of a million lives were given to defend the salient which takes its name from the town.

The new Ypres is a place of cafes and restaurants, of mobs of picture postcard hawkers, of pleasure wagons and omnibuses, of souvenir hunters and noise. There is a so-called "British tavern" in the grand palace itself, and the road to the Menin gate is lined with places of refreshment. In the town and its vicinity there are 135 cafes and restaurants, and everywhere among the tumbled heaps of brick and plaster, stone and girders men are eagerly hammering and bulldozing to increase the number.

The Belgian government has shown itself very willing to consider all reasonable proposals in the way of conserving the ruins and of erecting memorials. It has declared that the remains of the Cloth hall, cathedral and adjacent buildings will be left as they are. It has allotted to the Canadians certain sites by the Menin gate. It has promised a site for the erection of an English church. There has been talk of preserving the whole of the remains of the town as a memorial.

GREAT IS FROSTY MORNING

Health-Giving Air Seems to Bring New Life and Hope to Souls of Men and Women.

After gloomy days, the frosty morning comes as a benediction. It seems to put new life and new hope and new aspirations into the souls of men and women, remarks the Columbus Dispatch. Not long ago there was a nasty cold. Clouds and gloom and depression. The sun was all but forgotten. If it showed itself at all it was with a sickly feeble glow. The muscles became flabby from the warm temperature; dispositions took on the nature of the weather. There was no elasticity in the step, no mirth in the voice, a sallow, listless tiredness took hold of people. And then came the frosty morning. One did not have to have a thermometer to know that the sun was shining, nor ears to hear the music of attuned Nature.

A hundred years were saved right here in the city in the quickened pace of the people. A thousand horsepower was added to the strength of the laborers. The food productions that were made would fill a library—and the inspirations that came to those who breathed deeply of the frost-laden air will keep the world a-going for another season. Great are the blessings of God scintillating from every crystal; divine music borne upon the wings of the health-giving air.

Airplane Saves Taxpayers' Money.

The practice of conveying prisoners to jail by airplane was begun in San Francisco recently when Ivan Gates, police aviator of the San Francisco department, flew across the bay to Alameda and returned with James M. Kelley, who had been sentenced to six months in jail. Kelley, who was brought across with no handcuffs, says he enjoyed the trip short—less than five minutes. The airplane went up 5,000 feet. Chief of Police White says: "Think what a saving it will be if we can send a plane to Reno or Los Angeles for a man and have him back in a few hours. Now there must be a long, expensive trip by train, with a stop over night at a hotel."

To Make Potato Flour.

Arrangements have been made in Great Britain for the establishment of mills for the production of potato flour, which it is hoped will be on a large scale. Although this industry has been established on the continent for several years it is a new one in Great Britain. The British ministry of foods has for some time been conducting experiments in potato flour, as there has been an overproduction of potatoes, and the flour will provide a means for the consumption of the over supply.

Postgraduate Course.

A maid-servant in the home of the poet Wordsworth, told a caller who asked to see her master's study, that he studied in the fields. No one can read Wordsworth's poems without realizing that however much he owed to books, he owed more to nature. No matter how many diplomas you may take, your education will not be complete till you have taken a postgraduate course in the open.—Girls' Companion.

The KITCHEN CABINET

Success is the inevitable result of good management, just as failure is the natural outcome of ignorance, carelessness and idleness.

MEALS FOR A DAY.

For the first meal of the day, a little fruit of some kind is a good beginning. If fresh fruits, such as oranges, grapefruit, apples or pears are not at hand, a tablespoonful or two of raisins, steamed and added to the oatmeal

or cooked cereal, or a few dates, figs or stewed prunes are all good and desirable breakfast fruits.

With an almost endless variety of breakfast foods, one may have a different kind every morning. If the family is large enough to practice this method without waste.

For the hot dish, eggs are always good, and may be cooked in as many ways as there are days in the year. Bacon is a breakfast meat, and if liked can be served daily without losing its charm. Sausage, chops and fish of various kinds are other breakfast meats. Mackerel is a great favorite. When the fresh fish cannot be obtained the salted fish makes a fairly good substitute. Soak the fish over night, or until much of the salt is removed, then bake in the oven for 20 minutes, covered with thin cream. Serve hot with bits of butter.

For luncheon, one hot dish, which may be scalloped fish, vegetables, rice or macaroni, codfish with baked potatoes, or a cream soup, of which there are a large number from which to choose; a salad, some kind of bread, a cupful of chocolate, cocoa or tea, and a small cake, with or without fruit, such as marmalade or jelly, canned or preserved fruit.

For dinner, a clear soup, if followed by a heavy dinner, a cream soup if a light dinner follows; one vegetable besides potatoes, a roast or meat loaf, a simple dessert, with coffee.

For a course dinner, the cocktail is served as a stimulant; on this account the clam and oyster, the various fruit cocktails and those with appetizing herbs, are used, their object being to stimulate, not cloy the appetite.

Pineapple Cocktail.—For each glass take a tablespoonful each of pineapple and lemon or orange, one-half tablespoonful of grated orange peel. Sweeten to taste, pour over a little chilled ice and fill the glass with iced water.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts Before Breakfast If You Have Burts or Head-ache is Troubling You

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood; then we get sick. Nearly all rheumatism, headache, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.
