

# To the Farmers of Crawford County

A RARE OPPORTUNITY

## \$60,000 STOCK of FARM IMPLEMENTS

### TO BE SOLD AT ONCE, AND AT YOUR OWN PRICE

Formerly the Bruce Rogers and Later the W. F. Staller Stock, West Broadway, Denison, Iowa

I WISH to announce to all the farmers of Crawford county that I am again in possession of this great Implement Stock, having traded for it during the past week. Mr. Staller decided that he would rather have land than own the business, therefore we changed. Now I am a farmer, and I am so situated that I cannot move into Denison and run the business, neither can I hire the proper help to run it; therefore I have decided to close the entire stock. It will mean a big sacrifice on my part, but I will be benefitting the farmers of the entire county, because they will have an opportunity to buy *new* machinery at practically their own price, and right at the season of the year when they need machinery the very most.

**The Sale Starts Immediately on Receipt of This Announcement and Will Continue Until Every Piece of the Machinery is Sold**

It is useless to try to itemize each machine or implement because the stock is so large that space will not permit, and besides everyone knows that the stock is here and that it is all of standard make. The business has been conducted for years at this well known stand. Therefore, all I can say is come in today, don't wait—first come, first choice. There will be sufficient salesmen to wait upon you and you can get just what you want by coming early.

**There'll be Plows, Seeders, Cultivators, Discs, Harrows, Spreaders, Wagons, Buggies, Tractors, Corn Planters, Binders, Mowers, Pumps, Wire Fencing—in fact anything ever used on a farm**

If there is a farmer living 25 miles from Denison who needs a piece of machinery it will pay him to come to Denison and attend this sale. He'll save more money than he'll make in a month otherwise. When it comes to buying machinery the High Cost of Living will not enter into the deal here, because you'll get the stock at practically your own price, and maybe less. And that is not idle talk, for I am going to close out the stock, and will make the prices right in order to close as quickly as possible.

COME IN TODAY AND PICK OUT WHAT YOU WANT
