Mrs. Conner who has been making a visit with Mrs. H. H. Van Brunt accompanied her husband home Monday evening. Dr. L. L. Bond returned home Friday morning from Chicago where he spent several days in attendance at the republican convention. The intense heat at Chicago was too much for the doctor and he decided to return home. Dr. Carl Bretthauer returned to Iowa City last Wednesday after a pleasant visit here with his parents, Mr. and Mrs. Wm. Bretthauer. He has completed his course in the medical department of the State University and is serving an internship in one of the hospitals at that place. Frank Kramer, pressman at the Review office, returned to Denison Monday from LaSalle, Ill., where he was called on account of the illness of his wife. He left his wife much improved in health and she expects to come to Denison in the near future. The Denison Bottling Works gave a demonstration at the Broadway Grocery Saturday afternoon, the booth being in charge of Mrs. James Mitchell who served a variety of various flavors. Nectar is fast becoming a popular drink in this territory and is but one of the many fine soft drinks prepared by the local bottling concern.

HAVE PUT UP BRAVE FIGHT
Sumatra Natives for Centuries Carried on Warfare With Their Conquerors, the Dutch. Sumatra's war-declimated population amounts to less than 3,200,000 most of which is not available for labor, the island, therefore, barely beginning to attract attention, despite its riches in natural resources. Sumatra is immense in area and between its different sections there is little inland communication, that which exists being of a treacherous and warlike character. Much of the island remains unexplored. Other parts such as the whole of Achin, are still in a state of warfare, which seems destined to end only with the eventual extermination of the resisting tribes. The first hostilities of the Achinese date back to 1500, but for the last forty years fighting has been continuous, costing more than 200,000 lives in the Achinese war alone. A guerrilla warfare of surprises and ambushes has been going on in the jungles, the determined resistance of the Achinese continuing undiscouraged, although their government has been deposed, and all their towns and strategic positions occupied by Dutch troops.

KIRON MOURNS A GOOD CITIZEN

P. M. Sjogren, Another Pioneer of Kiron, Passes Into the Great Beyond Last Friday.

WAS SEVENTY-SIX YEARS OF AGE

Funeral Held Sunday Afternoon and Was Largely Attended—Burial in Kiron Cemetery.

KIRON, June 16—Special—Early Friday morning another old resident in this locality passed into eternity after a lengthy voyage through life. P. M. Sjogren, at the age of 76 years, 9 months and 16 days, bade farewell to life and earthly scenes at his home in Kiron and shortly after mid-night, he passed away. Mr. Sjogren was born in Misterhult, Kalmar Lan, Sweden, Aug. 25, 1843. After reaching manhood in his native land, he entered the service of his country in the navy, and for several years rode the ocean from shore to shore in other lands. In the year 1870, he united in marriage, and his wife passed away some eight years ago at the then family home two miles southeast of Kiron. To their union was born eight children of which four survive: Maurics, Charley, Robert, residing in this locality, and one daughter, Mrs. Lottia Remy, residing at Savannah, Ill. In the year 1881, the family left the old country for America and on reaching this country, located in Kiron. During his active years since coming here, deceased followed the carpenter trade with the exception of two years devoted to farming. A number of years ago he moved to town and during this time his two sons, Charley and Robert lived with him and cared for him in a most devoted way during his illness. For some time past, his health kept failing him but he was able to be up and around until last February when he grew worse and most of the time since then, he has been confined to his bed and required constant care, which was ably and cheerfully given him by loving and devoted hands. Besides the children, he leaves 16 grand-children and a host of friends to mourn him. In the year 1887, he was converted, and on January 6th, the same year, was baptized and joined the Baptist church, which he has been a respected and esteemed member. Mr. Sjogren was highly respected among his acquaintances whose respect and esteem he truly won by his cheerful, upright life and dealings with his neighbors and friends. Of highest integrity and pleasant, open ways, he merited the confidence of all. As a model neighbor, he lived the life of a Christian in both deed and action. As a father, he was a companion, and a most devoted father to his children, who have sustained a great loss. The entire community mourns the taking of a peaceful, desirable citizen and the church a splendid member. The funeral took place from the Baptist church on Sunday afternoon, attended by many friends. Services were conducted by the pastor, Rev. C. I. Peterson. Interment was made in the Kiron cemetery.

IOWA K. C.'S TO GO TO EUROPE

Charles Reynolds, of Carroll, and Harry McFarland, of Davenport, to Represent Iowa K. C's.

WILL SAIL ON AUGUST SEVENTH

Stops Will Be Made at Paris, Chateau-Thierry, the Argonne, Verdun, St. Mihiel, and Other Points.

Iowa will be well represented at the unveiling of the Bartlett statue of La Fayette at Metz, August 20, 21, and 22, according to inquiries regarding the event which have been received here by Joe McCormick, state secretary of the Knights of Columbus. The knights throughout the country are raising a fund of \$50,000 for the presentation of a minimum contribution of 25 cents from each member of the order being asked. Iowa's share on this basis will be \$6,250. The pilgrimage, which is to be limited to 500 men, will leave New York on August 7th, at the conclusion of the K. C. Supreme Convention, arriving in Paris August 15th. Stops have been arranged at Chateau-Thierry, the Argonne, Verdun, St. Mihiel and many other places of interest, including Genoa, the birthplace of Columbus. In Rome, where the party will remain for four days, a special audience has been promised with the Pope. All expenses in connection with the journey will be about \$950. The tourists will return to New York September 19th. Those who already have secured reservations include Harry J. McFarland of Davenport, state deputy of the K. C., and Charles E. Reynolds, of Carroll, one of the district deputies of the order. Mr. McFarland is recovering from a recent operation for appendicitis and his physician has recommended the sea voyage. The statue of Lafayette has been done in bronze, commemorative of the boys who sleep in Flanders Field and also to attest the gratitude of America for the aid given by France in America's struggle for liberty under Washington and Lafayette. The registration lists are to be closed by July 1st, but it is believed a good sized delegation will have been organized in Iowa by that date. At the present time the vacancies number less than 200.

Composition of Pennies. Pennies are made of 95 per cent copper and 5 per cent nickel and zinc. The material which goes into them costs about 22 cents a pound and this pound makes up into 120 one-cent pieces. They are distributed to banks at their face value, so the profit is \$1 a pound, less the cost of manufacture, which is not great.

First Examine Good Qualities. We are firm believers in the maxim that for all right judgment for any man or thing it is useful, nay essential, to see his good qualities before pronouncing judgment on his bad.—Carlyle.

The Man. Balzac left in manuscript a chapter which he called "Theorie de la Demarche," in which he says, "The look, the voice, the respiration and the attitude or walk are identical. But as it has not been given to man the power to stand guard at once over these four different simultaneous expressions of his thought, watch that one which speaks out the truth, and you will know the whole man."—Life of Balzac.

A True Sport. Women have been accused of lack of sportsmanship; yet was a woman ever known to heat a carpet when it was down?

ALL HIS FRIENDS WERE SURPRISED

Many of Them Start Talking Tanlac When They See How It Helped Des Moines Man

"My friends were all surprised when they saw what Tanlac did for me, and now several of them have started talking it and are getting fine results," said H. W. Olson, for fifteen years an employee of the Cutter Plumbing Co., living at 1256 East 23d street, Des Moines, Iowa.

"I was in an awful fix before I began taking 'Tanlac,'" he continued, "and it looked like I was down and out. My kidneys were all out of order and my back hurt so bad that if I stooped over

I could hardly straighten up again. At times I was so dizzy I could not see and would have to catch hold of the nearest thing to keep from falling. My stomach was so upset that it was almost impossible for me to eat anything that agreed with me. My appetite left me and I hardly ate enough to keep alive. Nerve was all that pulled me through, for everything I did was forced, for I felt so weak and worn out I had to force myself to do my work.

"A friend of mine recommended Tanlac to me and after the first few doses I commenced to feel better. Well, sir, Tanlac has now made a clean sweep of my troubles and I am in the best kind of health. My kidneys and back are both in fine condition and I can bend over and straighten up without any trouble whatever. And eat? Why, I can hardly get enough to satisfy me and everything agrees with me perfect-

ly. The dizziness has left me and I am never troubled in any way at all now. My strength has come back and I am feeling like my old self again. No, sir, I can't say too much for Tanlac." Tanlac is sold in Denison by R. Knaut, in Kiron by O. E. Clauson, in Manilla by J. F. Chryman, in Buck Grove by Mrs. A. F. Bondy, in West Side by West Side Drug Co., in Vail by A. B. Patterson.—Adv.

Paper Resists Fire. Wrap up a very smooth piece of lead in a piece of paper, then hold it over the flame of a taper; the lead will be melted without burning the paper, providing there are no wrinkles in the paper and that it is in contact with the lead everywhere.—Electrical Experimenter.
