## GOOD CROWDS AT CHAUTAUQUA

Denison's Sixteenth Annual Chautauqua Under Redpath-Vawter System Opened Sunday—Balance of Week

### GREAT PROGRAM TO FOLLOW

Average Attendance Thus Far Close to Thousand Mark—Many From Other Towns Expected Tomorrow

Denison's sixteenth annual chautauqua, under the auspices of the Redpath Vawter Chautauqua system, opened on Sunday and will continue in session until Saturday evening. It is the general opinion that the program up to date has been the best ever presented, the talent being of the highest order. Denison, which has always been conceded one of the best chautauqua towns in the state, has not fallen down this year and on Monday morning the required number of season tickets which had been guaranteed had been sold. Louie Evers, who had charge of the advance sale of tickets, reported on Monday that the sales amounted to \$2,035.34. Those in charge are of the opinion that the average attendance up to date has been close to the one thousand mark. G. E. Knight, a law student of the University of Illinois, is the superintendent in charge and he has already become popular with the people of the community. While probably the youngest superintendent ever engaged by the Vawter people, he is possessed of a pleasing personality and the ability to look after all details in an efficient manner.

Miss Woodward, teacher in the high school at Marion, is in charge of the ticket booth and in addition has charge of the children's work each morning. L. Durkee, of South Dakota; Paul Grove, of Coe college; Robert Nobel, of Cornell college; and Ray Bryant are the young men of the chautauqua crew.

**Sunday Program**  
The first session of the chautauqua was held Sunday afternoon, the Columbia players furnishing the entertainment. The attendance was exceptionally good for the opening. The company included six young ladies who gave a most delightful musical program made up of songs and orchestral melodies.

One of the best numbers of the course so far was Edwin M. Whitney, interpreter, who read the great play, "Turn to the Right." It was a story filled with human interest and Mr. Whitney impersonated several characters in an impressive manner. While it took Mr. Whitney almost two hours to give the interpretation, he held the rapt attention of the large audience to the close.

**Monday Program**  
The Dorothy Cole and company furnished the program for the afternoon and evening programs. Miss Cole is a graduate of Simpson college and the fact that she had a number of friends in Denison made this number of special

### FIRST PRIZE FOR LAWN

George Naeve Awarded First Prize for Best Kept Lawn and Will Receive \$15 Donated by the Mayor

Mr. Geo. Naeve on Tuesday, was awarded the first prize for the best kept lawn in the city. The prize, \$15 in cash, was donated by Mayor Patterson and the committee making the award was made up of Frank Pfarr, Rev. M. M. Cable and Dr. L. L. Bond. The committee inspected practically every lawn in the city and they unanimously agreed that the Naeve lawn was the best. For years the Naeve property on North Main street has been the show place of Denison and we doubt if any city in this section of the country can boast of a more beautiful lawn. No expense has been spared by Mr. Naeve in improving the property and on several occasions well known landscape gardeners have been engaged to set out trees, plants and foliage. Mr. A. Andersen for the past two years has been employed to care for the yard and he has proved himself a man of ability in every respect.

Interest, Miss Cole has been called the "girl of personality." She delighted her audience with her readings and clever remarks, and it was not until she had given the Denison people a very interesting report that they would finally permit her to leave the platform. Miss Alpha Hefelbower was the pianist and Victor Spedellere, the violinist. He is one of the youngest violinists appearing on the platform. He is a native of France and when the war broke out was a fourteen year old lad in Paris, known among the musical lovers as the boy prodigy on his violin. He is a musician of rare ability and his interpretation of familiar melodies was especially well received. Miss Hefelbower was for a time pianist with the Bohemian orchestra which enjoys an enviable reputation. Denison people were glad of the opportunity to enjoy her playing.

The lecture by W. E. Wenner, child expert, Monday afternoon was fine and one that all parents should have heard. Mr. Wenner is a noted educator and legislator who has made a special study of child welfare and is making a strong appeal that all children be given a "square deal." He emphasized the need of a greater sympathy between parents and children and gave some pointed and valuable advice concerning the boy and his difficult training. It was a good wholesome lecture and one that was enjoyed by both old and young.

In the evening, following the musical prelude, Ralph B. Dennis delivered his interesting lecture, "Russia or America, Which?" He was United States vice consul at Moscow during the revolution and his first hand information, verified by consultation with the records at Washington, enables him to present the true facts concerning bolshevism in Russia. It is a difficult matter for people of the United States to understand the real program of the bolshevik and the steps which have been taken to control the reds, when the reports circulated in this third are exaggerated and contradictory. It is the purpose of Mr. Dennis to present a clear statement of the situation so that understanding and sanity may

(Continued on Page 2)

## KENDALL GIVEN THE NOMINATION

Nate Kendall, of Albia, Receives the Republican Nomination for Governor at State Convention Tuesday

### NOMINATED ON THIRD BALLOT

John Hammill, of Britt, Nominated for Lieutenant Governor—Ben Gibson for Attorney General

For Governor—Nate E. Kendall, of Albia.  
For Lieutenant Governor—John Hammill, of Britt.  
For Auditor—Maj. Glenn C. Hayes, of Mason City.  
For Attorney General—Ben. J. Mason, of Corning.  
For Railroad Commissioner—Capt. Frank P. Woodruff, of Knoxville.

The republican state convention which met in Des Moines Tuesday nominated the above named ticket, and adopted a platform, a synopsis of which will be found in another column. The convention was well attended and proved to be a regular old time get-together convention. It is said that farmer delegates with the assistance of Hayner delegates in the minority helped to nominate Nate Kendall and John Hammill, Lieut. Gov. E. R. Moore, of Cedar Rapids, Kendall's only real opponent, fell by the wayside and went down to defeat on the third ballot. On the first ballot Crawford's eight delegates gave Deems one vote, Havner one, Kendall three and Moore three; on the second ballot four votes went to Kendall and four to Moore, and on the third ballot 4 1/2 votes were given to Kendall and 3 1/2 to Moore.

Hammill defeated W. E. Moore, of Guthrie, for lieutenant governor after both gentlemen had distanced Wallace Arney of Marshalltown and James Wilson of Appanoose.

Major Glenn C. Hayes, of Mason City was nominated for auditor of state by acclamation, after F. J. Alber, E. T. Gose and W. Leland, his rivals, had withdrawn.

Capt. Ben Gibson, of Corning, was nominated for attorney general on the second ballot, defeating his opponents, Sen. W. C. Evans and Herbert Hadley. Capt. Frank P. Woodruff, of Knoxville, was nominated by acclamation for railroad commissioner. At a meeting of the state central committee Charley Rawson was chosen as chairman of the committee. It is understood the campaign is to be a short one, and will not be waged in earnest until about two months prior to the election.

Mr. and Mrs. Ed Watke and Mr. and Mrs. Will Bumann returned home last Thursday from a fifteen days motor trip to Independence, Kansas, where they made a visit with relatives and friends. They report a big crop of wheat in that section of Kansas.

### NEW MOTORCYCLE COP

Gordon Locke Appointed Special Traffic Officer and City Purchases New Motorcycle for Officer

Denison, through the efforts of its mayor and council, is fast becoming a metropolitan city. The new administration is bent on getting Denison out of the back woods class. The latest move in this line is the appointment of a traffic officer who has been provided with a motorcycle of sufficient speed to run down those who delight in burning up the pavement.

Gordon Locke has been appointed special traffic officer and he commenced his duties on Saturday last. The city officials purchased a new Harley-Davidson motorcycle costing \$438.00 plus freight, and Gordon is doing his best to see that the recently passed ordinance governing motor vehicles is enforced. The machine is good for at least sixty miles an hour and speeders are just out of luck if they try to cut up capers on the streets of Denison.

Since Saturday there has been a marked decrease in fast and reckless driving in Denison and the moral effect of having a speed officer is already apparent. No arrests have yet been made by the new city officer but several have already been warned.

Residents of the city are glad that the new administration is making an effort to stop reckless driving even at the expense of a special officer and a motorcycle.

### OPERA HOUSE REOPENS AUG. 4TH

Kott and Limbrecht Doing a Splendid Job of Frescoing and Scene Painting—Colors Harmonize

The Denison opera house has been closed during the month of July, and has been in the hands of painters, frescoers and cleaners, and the patrons are sure to be pleased when they attend the reopening on the evening of August 4th. John Kott and Nick Limbrecht have had the contract for repainting and doing the fresco work, and they will have completed the work by the end of this week. The work this far is most creditable, and the bright, new colors harmonize splendidly. The two scenes that adorn each of the walls of the auditorium is the work of Mr. Limbrecht and they are finished in oil. The one on the right is an oriental scene and the one on the left a Scottish scene. Both are a credit to Mr. Limbrecht, and show his ability as an artist. The stencil work is accurate and of pleasing pattern, and the panels in the lobby are in tiffany and the work executed in a workmanlike manner. All the steam radiators are finished in silver and these will be covered from the top so that the dust arising from the radiators will not disfigure the walls as heretofore. The seats and floors are to be thoroughly cleaned, all woodwork will be revarnished, and when all is done the house will compare favorably with the theaters of the larger cities.

Mr. and Mrs. G. Mullenger and daughter, Mildred, returned last Friday from a four weeks' visit with the former's sister, Mrs. Elbur Johnson, and friends from Crawford county now residing at Wellington, Texas.

## 6-YEAR-OLD BOY KILLED SUNDAY

Marvin Johannsen, Son of Mr. and Mrs. Adolph Johannsen, Killed and Mother Injured Sunday

### AUTO PLUNGES INTO A CREEK

Accident Happens at a Bridge Near Dan Gillette Farm on Lincoln Highway—Nine in the Auto

Glaring headlights were the cause of an automobile accident on the Lincoln highway near the old Dan Gillette farm east of Arion Sunday night, which resulted in the death of a six year old boy and the serious injury of his mother, when the car, in which they were riding plunged into the creek, turning turtle and pinning nearly all of the nine occupants beneath it.

Mr. and Mrs. Adolph Johannsen, their six children and Mrs. Johannsen's sister, who live in the Pretty Prairies district in Washington township, motored to Denison Sunday evening in their Ford car. They decided to return home by way of Arion and took the Lincoln highway out of Denison. Mr. Johannsen only had kerosene headlights and when about a mile this side of Arion a car with glaring headlights approached them from the west. Mr. Johannsen who was driving, decided to pull out to the side of the road until the car had passed, knowing that there was a bridge just ahead of him. He evidently misjudged the distance for the car plunged over the embankment and landed in some three feet of water and mud in the bottom of the creek, pinning most of the occupants under it, the car which turned turtle. Mr. Johannsen managed to extricate himself and rushed to the road to secure help from passing motorists. Two young men in a car were stopped, but when they saw the car was in the mud and water declined to render assistance, stating they had on their Sunday clothes.

Tom McMilline happened along and hearing cries for help jumped out of his car and lost no time in getting down into the creek and assisting to lift the car up so the people might get from under it. The C. L. Rudd and T. K. Coleman families stopped and also gave valuable assistance.

Marvin, the six year old son, lost his life, being drowned, and was found to have sustained a broken leg, besides several ugly cuts and bruises on the body. For three-quarters of an hour every effort was made to bring the boy back to life, but when a physician arrived he stated that without question the little fellow's death had been instantaneous. He was asleep on the lap of his aunt when the accident occurred. Mrs. Johannsen was seriously hurt, the extent of her injuries not being known as yet. She was carried to the Schiltz home nearby, where she was cared for until Monday morning, when she was taken to her home.

The remains of Marvin were taken

### BACK TO FARM MOVEMENT

More Men for Jobs Than Jobs, Says County Agent Quist—Fifteen Applications Saturday

The back to the farm movement is very much in evidence, says County Agent Quist, in discussing the farm labor situation. Last Saturday, said Mr. Quist, was the first time since the farm bureau was organized that there were more men than jobs. At least fifteen men were turned away from the farm bureau office.

Farm wages too are on the decline, reports Mr. Quist, although this is not due directly to the surplus of farm labor. Farm products have declined considerably the past six months and the farmers are refusing to pay more than the investment of a man's labor will yield.

At the monthly meeting of the farm bureau directors held July 3d, the farm bureau resolutions adopted by the Carroll, Harrison and Shelby farm bureaus was also adopted by the Crawford county farm bureau men. The resolution recommended fifty cents per hour as a fair wage for harvesting and haying hands. In considering fifty cents per hour as a fair wage, the farm bureau officials did not want it understood that this should be a fixed price. It is simply a key to what they thought an average hand is worth under present conditions.

### DENISON HOSPITAL NOTES

Alvin Jarl underwent an operation at the hospital on Monday of last week for hernia. The operation was very successful and the patient is getting along as well as can be expected.

The little daughter of Mr. and Mrs. W. R. Grinnell had her tonsils taken out last Wednesday.

Born to Mr. and Mrs. John McGrinn, a daughter on Wednesday, July 14th. Mother and babe are both doing nicely.

Mrs. Geo. Peterson of Vall had one of her toes amputated last Wednesday at the hospital.

Mrs. Wm. Krall had her tonsils removed last Wednesday.

Mrs. Martin Welland and Mrs. Mark Riley, both of Dew City, had their tonsils removed Friday.

The threshermen of the county will hold a meeting at the county agent's office in the court house on next Monday evening, at which time they will discuss the subject of wages, and arrive at what they think will be a fair scale. It is the hope of the county agent that as many of the threshermen as possible be at the meeting.

Sunday night to the Jackson undertaking parlors at Dow City and Monday evening taken to the home. Tuesday morning the little form was shipped to Marshalltown for burial, the family having relatives at that place.

The identity of the driver or occupants of the car with the glaring headlights that was probably directly responsible for the appalling accident, have not been ascertained. It is doubtful whether or not they even know now that it was their headlights that caused the accident.

Mr. and Mrs. Johannsen have the sympathy of the entire community on the terrible calamity which has befallen them.

## AUTO ACCIDENT SUNDAY MORNING

Julius Carstensen Seriously Injured When Ford Car Turns Turtle Near the Perry Brogren Farm

### BURTON JACKSON IS ALSO HURT

Blowing Out of a Front Tire Said to be the Cause of the Accident—Carstensen Now at Sister's Home

Julius Carstensen was seriously injured Sunday morning about 8 o'clock near the Perry Brogren farm between here and Debit, when his Ford car turned turtle as the result of a blowout of one of his front tires. Carstensen's right thigh was badly cut and he was badly scratched and bruised.

Carstensen and his little son had spent Saturday night at the home of his sister, Mrs. Perry Fisher, who resides north of Denison. Sunday morning, in company with his brother-in-law and Burton Jackson, he started for his farm north of Denison and was traveling along at a good rate of speed. At the Brogren farm one of the front tires blew out and his car became unmanageable and in a twinkling of the eye had turned turtle. The little baby was thrown from the car and was slightly bruised and scratched. Fisher escaped with a few scratches. Jackson was unconscious when picked up and it was not until six hours later that he regained consciousness.

All of the injured ones were brought to Denison in a car for medical aid. Carstensen's injuries are of a most serious nature and fears are entertained that blood poisoning may set in. He is now at his sister's home where he is receiving the best of care.

### CANDY KITCHEN SOLD AGAIN

Savery Disposes of Upper Main Street Business to Joe Bonsall, Taking 80-Acre Farm Near Castana.

A deal was consummated Monday whereby Wm. Savery disposed of his candy kitchen located in the Laul block on Main street to Joe Bonsall, taking in trade an 80-acre farm located near Castana, Iowa. Mr. Bonsall in the trade also takes the Savery residence property located on West Chestnut street, which is now occupied by W. W. Wolf.

Mr. Bonsall took possession of the Candy Kitchen Monday afternoon and is operating it with the same employees that were engaged by Mr. Savery. He has made arrangements with Mr. Savery for his supply of ice cream.

This change will not come as a surprise to local people as it was generally known that Mr. Savery desired to dispose of one of the candy kitchens, feeling that two were more than he could give his attention to.

# Complete Clearance of Ready-to-Wear Garments and Shoes

Summer dresses of gingham, highly tailored, sizes 16, 18 and 38. Any dress in our house for final clearance this week at--
