METHODIST CHURCH NOTES

The Woman's Foreign Missionary society met Monday afternoon with Mrs. W. H. Loub, Mrs. Cable having charge of the program, introducing interesting features demonstrating and emphasizing the financial side of missionary matters. Mrs. R. A. S. was present and addressed the society briefly, expressing herself as going into missionary work from a desire extending from childhood. She expects to sail in November and interests and prayers not only of the full auxiliary, but of entire Council Bluffs district will follow her in her service over there. This being the last meeting of the missionary year reports discussed the interesting facts that 101 members have been secured, thus attaining and going beyond the goal, and about \$750 will have been sent to the work. Election of officers for 1920-21 resulted as follows: President, Mrs. E. W. Pierce; first vice president, Mrs. M. A. Penney; second vice president, Mrs. L. L. Bond; corresponding secretary,

Here it is at Last Your Opportunity to Purchase the Paulsen & Iwen Inc. Stock We are placing upon the market 400 shares of common stock to be sold at \$100 a share. We are putting \$10,000 of our own cash into the business making a capital stock of \$50,000. Under this arrangement we are owning only 1-5 of the stock and only have 1-5 of the voting power. The directors and office holders will be chosen by the stockholders, each stockholder being entitled to one vote for each share of stock held. We are to receive only a small royalty for the use of our patents, otherwise we are to share alike with the other stockholders. There is a good profit to be made in this line of work and the best examples are the successes made by other concerns who are at this time in this line of work. We do not guarantee any 20 or 25 per cent profits the first six months or at any time, but we feel that we will be able to pay a good dividend at the end of the year. We are confident of this because of our last year's showing and of our start on this year's business. We are in need of additional capital for a number of reasons, mainly as follows: to extend our plant, to open new territory, to buy material in larger quantities and to add new articles to our lines. We are of the opinion that there are many people here and in the surrounding country who want to invest some money in a good going concern which is run by the stockholders for the stockholders. There is nothing about this stock selling campaign that is not absolutely on the square and we are here to show any one as to what we have done, should they be interested enough to ask. This is to be and will be a 100 per cent investment for every \$1.00 invested. No Misrepresentation, No Bunk, No Graft. A Legitimate, Honest and Safe Investment for Any One. PAULSEN & IWEN, (Inc.)
