Methodist Episcopal Church Notes. The new bulletin board is in place, and when it is not used for the purpose of making announcements, the pastor utilizes it for the preaching of sermons. Last week this bulletin board, the words of Joseph Hillings appeared: "If you would train up a child in the way he should go, you must walk once or twice in the way yourself." This week it carries the message: "All experience goes to show no mud can soil, but the mud we throw."

Object of the Trust Artists. It would appear to be the object of the trust artists to give permanence to images such as we should always desire to behold, and might behold without agitation; while the interior branches of design are concerned with the acuter passions which depend on the turn of a narrative, or the course of an emotion.—Ruskin. A Concept of Duty. There are at the present day but too many who imagine they have perfectly done their duty, because they are kind toward their friends, affectionate toward their families, inoffensive toward the rest of the world.—Maz-zini. Japs Uniform in Size. The striking uniformity of size among the Japanese is illustrated by the fact that measurements taken of an infantry regiment showed no variations exceeding two inches in height or twenty pounds in weight.
