HON. SAMUEL R. McKELVIE,
Governor of the State of Nebraska, says:
"Thrift and industry are sterling qualities of citizenship. Moreover, they are the surest guarantee of success for the individual.
"There has never been a time when the need for these practices was more necessary than now. 'Work and Save' is the program that will more quickly reduce the cost of living and bring prosperity to the individual than anything else that I know."

The Cheney Violin Resonator shown above is carved from seasoned violin wood and suspended free from cabinet walls. Vibrating freely, as the sound passes through, it adds quality to Cheney Tones just as a violin vibrates when a bow is drawn across its strings.

FORDSON
TRADE MARK
Farm Tractor
More than 100,000 Fordson tractors have been sold to farmers in the United States. They are helping those farmers do more and better work in less time and at less cost. North, East, South, West—everywhere, the Fordson has proven itself a money-maker and a real necessity to the farmer. Besides it is helping mightily to solve the labor problem.
These one hundred thousand and more practical farmers have affirmed the economy—the exceptionally low fuel and operating cost—of the Fordson; its time and labor-saving qualities and its ability to increase production. The Fordson was built to be the most economical tractor; it is compact and devoid of excessive weight. And it is built of the same strong iron and steel as is the Ford car.
Winter or bad weather does not hinder the Fordson's usefulness. Day or night—twenty-four hours a day if you choose—you can utilize the Fordson.
Only so many Fordsons are allotted this territory. Orders are being filled in sequence—first come first served. Let us have yours now.
There's a practical use for the Fordson every day of the year. Let's tell you. Come in and have a tractor talk. Give us the chance to make a demonstration on your own farm.
