STAGE ALL SET FOR BIG GAME

Tomorrow Afternoon American Legion Will Play Picked Team of Former University and High School Stars

BRASS BAND AND EVERYTHING

Bombardment Will Commence at Three O'clock on College Gridiron—Every Doctor Present

The stage is all set for the biggest game of foot ball ever played on the local gridiron and interest in the event is at a high pitch. On Thursday afternoon at three o'clock the American Legion will play a picked team made up of former university and high school stars. It is the one big event of the season and promises to attract a record breaking crowd.

Legion members are confident that their team will win but are not as loud in their claims as the members of the "Stay Home" team. From the legion ranks has been picked a team that will be hard to beat, with enough substitutes to back up the shock troop if it is necessary to call for reinforcements. Practice has been indulged in and the regulars are working true to form. The line is strong on defensive and when called into action will put on an offensive that will not require a barrage to put it over the enemies line. The personnel of the team as follows to the Review will be about as follows—Jack Hess, left end; P. Gary, right end; Perry Clay, left tackle; Bill Wearmouth, left tackle; Frank Holland, right guard; B. Ewell, left guard; Ben Brodersen, center; Hugo Sagan, quarter back; Leo Collins, right half; Weberg, full back and B. Boslough, left half. The substitutes—oh well we have decided to withhold their names for fear it may intimidate the "Stay At Homes."

We have not been able to ascertain the lineup of the opposing team for publication as there has been so many shifts during the past few days. The team has been practicing regularly on the pavement near the court house every evening, undergoing a process of hardening. Best of coaches have been giving members of the team all of the tricks in the game until they are boasting that they are invincible even against the entire Rainbow division. Members of the team in years gone by have starred on University and high school eleven. They are confident that they can and will "come back" and enjoy all of the thrills as heroes of the gridiron. It is true that some of them are lame and sore from practice but Sloan's liniment is putting the most of them back into fair condition.

The bombardment will commence promptly at three o'clock on the college gridiron and every doctor in the county as well as the corpsmen and undertakers will be on hand to render first aid. Even the Red Cross nurses will be pressed into service. It will be no shame battle, but a real battle with opposing teams maneuvering and charging to the best of their ability.

Gate receipts will go to the Denison Post of the American Legion regardless of the outcome.

Raleigh will spend the holidays in Harlan.

The majority of the teachers will spend Thanksgiving at their homes.

HEAD OF UNION SAYS STAND FIRM

Charles S. Barrett, President of National Farmers Union, Issues Statement Asking Stand for Prices

PRICES ARE "RUINOUSLY LOW"

Farmers' Answer to Claims of Overproduction Should be "We Will Lessen Production"

A dispatch bearing date of Washington, D. C., November 23d, appearing in the morning papers says that Charles S. Barrett, president of the National Farmers' Union, declares he understands that "federal agents are already going over Kansas, Iowa and other states trying to get evidence necessary to the indictment of men who are asking farmers to hold their crops." Mr. Barrett appeals to members of his organization to stand together and not sell their products at present "ruinous" low prices.

"Show that you have the moral courage to go to jail, if necessary," Mr. Barrett advised members of the farmers' union. "The word seems to have been passed around that farmers were to be taught a lesson—they were getting troublesome." The farmers' answer to claims of overproduction, Mr. Barrett said should be: "We will simply lessen production." This was "no idle threat," he said, adding: "From every part of the country—comes the promise that this policy should be adhered to until the country wakes up to the fact that it is not going on short rations or pay you wages high enough to live on."

"Efforts of the farmers toward co-operation," Mr. Barrett said, "have met with strong opposition from the first." He charged that "deliberate efforts had been made to prevent them from buying collectively."

Mr. Barrett's appeal further stated that the only course left to the farmers was to hold to one another and by raising sufficient money to finance more adequately "our business undertakings."

Orchid More Than Beautiful.

There are more than 12,000 varieties of orchids, and no man has a complete collection. While orchids are known most generally for their beauty of coloring and form, they are also widely known to chemists as a basis for several forms of sedatives, and the extracts from one of the most beautiful varieties is used to cure one of the most ugly of human ailments, epilepsy.

The orchid is putting the most of them back into fair condition.

The bombardment will commence promptly at three o'clock on the college gridiron and every doctor in the county as well as the corpsmen and undertakers will be on hand to render first aid. Formerly the people were told to "Put up or shut up." Now the prophets say "Put up and shut up."

SAGE TEA KEEPS YOUR HAIR DARK

It's Grandmother's Recipe to Bring Back Color, Youthfulness and Lustre—Everybody is Using It Again

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur Compound, which is merely the old time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready to use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.—Adv.
