## FATAL ACCIDENT ON THE WEST GALLATIN.

### Paul Spiegel Drowned.

A melancholy accident occurred on Monevening last by which Mr. Paul Spiegel, who left Bozeman last week in company with a party of miners for the purpose of prospecting at the head of the West Gallatin, lost his life. It appears that the party, three in number, were crossing the river, about forty miles from Bozeman, and had succeeded in transporting their provisions and baggage across, when two of them mounted the pack horse, he being considered the surest footed animal they had, and proceeded to ford the stream. When about midway across, by some means the horse stumbled and fell, and Mr. Spiegel was carried away by the current, which was very swift, and drowned. The other man succeeded in making his escape to the bank. The man who was on shore at the time of the accident says that the body was car ied away by the current so rapidly that it was impossible to keep up with it, even by running along the bank, and the remains of the unfortunate young man have not yet been recovered. The deceased was a young man, about 21 years of age, and bore an excellent character in this community, who deeply sympathize with his afflicted father in his sad bereavement.

### Notice.

All persons indebted to the undersigned will save costs by settling before the 10th of June, as after that date my accounts will be placed in the hands of a Collector. I will take flour, oats or produce on all due me.

**Livery and Feed**

C. L. CLARK.

PERSONAL.—Capt. Turner, of Cherry Creek, has been spending a few days in the city.

Peter Koch, Esq., has gone to Cherry Creek on surveying business.

Capt. Dasold returned to Helena Tuesday.

John Ericson started for Europe yesterday morning.

Doctor A. J. Hunter, the pioneer farmer of the Lower Yellowstone, and proprietor of the White Sulphur Springs, visited Bozeman this week with his family. The Doctor says he has got the finest and most forward crop in the county, for money, marbles or mocassins. He has planted about forty-five acres on his ranch, and, judging from present appearances, will reap a bountiful harvest. The ruddy countenances of the Doctor and his family speak volumes in favor of the atmosphere at White Sulphur Springs, and there are plenty of chances to secure good farms in that vicinity. He will return to the Yellowstone in a few days.

Mr. Jno. Thomas, of Cherry Creek, left on Saturday for Clark's Fork. He took with him a party of miners to develop his property in that district.

Mr. J. N. Merkle went over to Helena Wednesday.

We were much pleased to receive a friendly visit from our "old particular," "Dad" Jones, yesterday; and to notice that he looks none the worse for wear, yet. Call again "Dad."

### First Shipment of the Season!

**Just Received** at Holzman & Bro's., a Large Assortment of Wall Paper, of New and Elegant Designs. A full line of

**Fancy Stationery,**
**French and American Confections,**
**etc., etc., etc.**

MR. JOHN KELLY, who left for the States Saturday, met with a first-class, sensational adventure the evening preceding his departure. It appears that some blood-thirsty villain, whose individuality is at present unknown, with murder in his heart, and without the fear of the vigilantes and the "slarter pen" before his eyes, called him from his cabin, ostensiby to go and prospect some new mining ground which the would-be Modoc alleged to have been discovered that day. When about half a mile from the cabin, the unknown attempted to play Captain Jack on Mr. Kelly by opening out on him with a six-shooter, but only succeeded in making a hole in the tail of his coat. Mr. Kelly, not being "heeled," struck for the cabin at a 2:40 pace, while his assailant beat a hasty retreat in the opposite direction. It is supposed that the assassin, knowing that Mr. Kelly was going East, naturally concluded that he was possessed of a considerable amount of money, and attacked him with the intention to rob him. It is fair to presume that Mr. Kelly will go to the States with a badly demoralized faith in humanity in general, and prospectors in particular.

### THE KIYUS

has just received a large consignment of the celebrated

**Dan Flowerree Whiskey,**

together with a choice selection of every description of

**Foreign and Domestic Wines and Liquors**

and the finest brands of Cigars.

MOUNTS & WORSHAM,
Proprietors.

CHERRY CREEK.—We learn from Mr. Geo. W. Rea that the new quartz mill now in course of erection at Cherry Creek will, if the weather is favorable, be completed and in running order by the last of this month, and that the boys over there expect to celebrate the "glorious Fourth" by an exhibition of a goodly amount of bullion in addition to the conventional good things to be provided on that auspicious occasion. The developments on the lodes continue to progress favorably, the ore increasing in value as greater depth is attained, and we expect, ere long to be called upon to chronicle, periodically, some fabulous "runs" from that celebrated district.

### NOTICE.

The regular annual meeting of the stockholders of the **First National Bank of Bozeman** for the election of Directors for the ensuing year will take place at the Banking House of said Association on Tuesday, the 14th day of January, 1873, at 10 o'clock a. m.

GEO. W. FOX,
Dec. 14, 1872. Cashier.

☞ The above meeting is postponed till Thursday June 19, 1873.

GEO. W. FOX, Cashier.

ENLARGED RESERVATION.—The military reserve at the head of the Gallatin valley, upon which is located Fort Ellis, is to be enlarged by the addition of two more adjacent sections, or 1,920 acres. Should any settlers be within the limits, the Government will make good to them the value of their improvements, and tell them to seek homes elsewhere. Fort Ellis is being enlarged, as well as the reservation, and there is little doubt but that the post will be continued for years to come.

THE Commissioners of Gallatin county held their regular session this week.

SPRING WAGON for sale cheap. Apply to JNO. P. BRUCE.

RETURNING.—Col. L. M. Black is expected to return to Bozeman about the 10th of this month.

READ, mark, learn, and inwardly digest C. L. Clark's "Notice" in this issue. Business is the word.

AT last we are getting something like spring weather, and "those robins" are making merry music again.

OUR merchants are daily receiving large additions to their stocks, and are offering the same at very low figures.

O'REA'S train rolled through town Monday, laden with Government stores for Fort Ellis, and goods for Holzman & Bro., of this place.

WE are pleased to learn that our young friend, Z. H. Daniels, who has been confined to his room a long time by illness, is convalescent.

Mr. S. N. Meyers has placed us under obligations for a nice lot of red beets, which "beats" anything of the kind we have seen this spring.

"I likes a drop o' good beer, I does," and Dave Carpenter's is where I goes to imbibe. Foaming lager and choice liquors at Dave's "Last Resort."

THE mud to the contrary notwithstanding, Galen's coaches are coming in pretty close on time; but the drivers say its mighty hard on horse-flesh.

SINCE the call for the County convention was issued some of our citizens have taken the precaution of fortifying their buttonholes with buckskin.

HOLZMAN & BRO. have just received a large addition to their extensive stock of fancy goods, confections, etc. Now is the time to get bargains at Holzman's.

A number of Yellowstone boys have been airing themselves in town during the past week, and the quantity of "Jersey lightning" that has disappeared in consequence is marvellous.

THE recent heavy rains have swollen the streams to such an extent that the Clark's Fork expedition could not get started as per programme. They will probably start on Monday.

SCRIMMAGE.—On Sunday quite a little bout of fisticuffs occurred between one of our citizens and one of Uncle Sam's boys in blue, resulting in badly damaged heads for the participants.

THE recent fine weather has raised the belligerent blood of the boys to boiling heat, and the large number of ornamented heads around gives our streets quite a lively appearance.

Those stove-pipe hats that our young (?) bloods purchased a couple of months ago, are again emerging from their seclusion. Our "devil" says they look awful sickly after their confinement.

SUBSIDY or anti-subsidy is the all important question the office seekers are propounding to their consciences just now. Present appearances indicate that before they play for the "pot" they had better "ante."

THAT 'Dan Flowerree' whisky at the Kiyus is the finest article in that line we have tasted in a long while. Messrs. Mounts & Worsham are connoisseurs in liquors, and keep nothing that is not of the best quality.

JOHN ERICSON, who has been spending a week or two at the Mammoth Hot Springs, returned to Bozeman Saturday. Rumor says that John is going to "Vaderland" to hunt up the "pooty leedle Svenska gal vot thinks of me." Das ish goot.

When you want "to take a little for the stomach's sake, you will find the right kind of medicine at Gov. Williams' Exchange.—It is good for the "blues," to go there once in a while, and take one of those "tods" that Frank only knows how to fix up. Those fragrant Havanas are delicious.

PISCATORIAL exercises are all the rage now a-days, and the number of the finny tribe that are daily "hooked" by the anglers is astonishing. We noticed last evening, however, one disconsolate individual, who had been fishing from rosy morn to dewy eve, with only a two-inch "sucker" as the result.

GEN. PERKINS, whose other name is Perk, has commenced operations on the completion and decoration of the handsome suite of offices in his brick building adjoining the COURIER office. Perkins has a good thing in the Bridger Canyon mines, but he is also alive to the importance of improving his town property.

A "young man from the country" made night hideous with discordant yells Saturday by endeavoring to impress upon the minds of our people the fact that he belonged to company G. A collision between his head and a club suddenly reduced his admiration of that gallant company within reasonable bounds.

A jolly young waterman, who was taking a boat ride on McAdow's mill pond the other day, accidentally dropped his coat overboard. An eye witness says that the atmosphere round that boat was full of blue streaks for the space of an hour after the occurrence, and young Aquarius now roams the streets in his shirt sleeves.

ONE of our country cousins, who reads the papers—as he ought to—saw in the COURIER a week or two ago, an article on "Training Heifers," which recommended the buckling of broad strap, or belt, round the animal's girth at milking time. Last week he procured a red surcingle and tried the experiment on a fractious Texan heifer. He is undecided whether it is a bruised stomach or the cholera-morbus.

BRIDGER MINES.—The proprietors of these mines continue to make gravel fly through their flume with good results. The diggings will pay five dollars per day to the hand, even with the present limited facilities for working, and when the new ditch is completed it is expected the yield will more than double that amount. We understand that the company are perfecting arrangements for working the ground all summer, and will work straight into the bar, thus determining the extent of the mines. There is no doubt that with plenty of water, to secure which a ditch is now being constructed, Bridger Canyon will prove to be one of the best and most lasting placer mining camps in the Territory.

## DEMOCRATIC COUNTY CONVENTION.

The Democrats of Gallatin County will meet in delegate convention at Central Park, on Monday, June 30th, 1873, at 11 o'clock a. m. for the purpose of nominating delegates to the Council District Convention and the candidates for the various County offices, and to transact such further business as may be deemed necessary.

The following is the apportionment of delegates to each precinct, as made by the Democratic Central Committee of Gallatin County, to wit:

| | |
|---|---|
| Bozeman Precinct | 10 |
| East Gallatin | 4 |
| West Gallatin | 3 |
| Gallatin City | 3 |
| Willow Creek | 2 |
| Elk Grove | 3 |
| Yellowstone | 1 |
| Total | 34 |

The Democrats of the several precincts are requested to meet at the places appointed for holding elections in the several precincts, on Saturday, June 28, 1873, at one o'clock p. m., for the purpose of electing delegates to the said County Convention, in accordance with the above apportionment.

By order of the Democratic County Central Committee,

S. W. LANGHORNE, Chairman.

Bozeman, May 28, 1873.

## ICE! ICE! ICE!

**One and a Half Cents per Pound**

He hopes by placing it at this low figure to bring it within the reach of all to purchase.

*Leave Orders at*

Walter Cooper's gunsmith shop.

m29-tf WM. CARR.

JUMPING CLAIMS.—We understand that a party of prospectors have been jumping some of the claims at Clark's Fork, and that the original proprietors of the ground have gone there with a large party, determined to recover possession of the ground. As the posse of legal celebrities who are about to visit that district will probably arrive too late to use their influence in behalf of law and order, we may expect to hear of quite a lively time in that vicinity before long. It is said that if the ground is not given up peacably, Plioche will have to take a back page in the history of mining "scrimmages," as it is well-known that both parties are well armed, full of grit and eager for the fray.

## FOR SALE.

A No. 1 improved Ranch, lying three miles north of Bozeman, together with last years crop, consisting of about 600 bushels of grain.

This is one of the best and most desirably located ranches in Gallatin, and will be sold at a bargain. Apply to JOSEPH WRIGHT,
Courier Office.

ACCIDENT IN THE EAST GALLATIN.—The recent rise in the rivers has been the cause of many accidents; and yesterday, as Mr. Fay, the photographer at Fort Ellis, was crossing the East Gallatin, just above the Fort, with a light wagon laden with his apparatus, the current carried the team away, and the horses were drowned. Mr. Fay, however succeeded in making his way to the bank, but, we understand, he lost all his photographing material by the accident. He was on his way to the Mammoth Hot Springs, for the purpose of taking views of objects of interest in that section.

### DISSOLUTION NOTICE.

NOTICE is hereby given that the co-partnership heretofore existing between Fisher and Hardnick has been dissolved by mutual consent. E. G. Fisher will collect all debts due the old firm, and settle all liabilities.

FISHER & HARDNICK.

Bozeman, May 22d, 1873.

Travel to the Mammoth Hot Springs has already commenced, and quite a number of persons have been taking the benefits of these marvellous waters. We are informed, and from reliable sources, that the number of visitors to Wonderland will be something enormous. Tourists, health and pleasure seekers from all parts of the world are expected to visit this wonderful region, the beauty of which can only be appreciated by being seen.

MRS. LIZZIE WILLIAMS requests the "hoodlums," "night-herd," or whatever they call themselves, not to placard their announcements on the front of her house. It is bad enough to be annoyed by their discordant yells, without having property defaced by their mischievous tricks.
