The competitive examination for the West Point Cadetship took place in Helena, on the 11th inst., being conducted by Mr. C. Hedges and Prof. Wheeler.

County Road.

Mr. S. Buford, wood contractor at Fort Ellis, has had eight men working on the County Road the other side of the Fort the last ten or twelve days. It was almost impassable, and before he could fulfill his contract, or any amount of travel be made over the road it had to be graded, strewn with brush and new passes cut through the timber of the canyon. This improvement was greatly needed, and if Mr. Buford had not expended this amount of labor on it, the county would certainly be in a worse state than it is at present.

An anonymous writer sends us the generations from Adam to Noah. We are just now more deeply interested in the present generation, particularly of the Sioux persuasion. We shall therefore let those who have gone before take care of themselves. They are safe in sacred history.

Baso Ball. About half the male population of Bozeman may be seen almost any evening, engaging in this healthful and exciting exercise.

The Centennial and Young American games have played several social games recently, the Y. A.'s coming out victors on every occasion. It is proper to state that the "Centens" are learning fast, and may yet give the boys a close game ere the season is over.

Miss May Baker, the accomplished daughter of I. G. Baker, of Fort Benton, who spent several months in Bozeman two years ago as the guest of her uncle Mr. T. J. Daves, was married in St. Louis, on 11th inst., to Mr. A. W. Allen, of that city.

Mr. Ralston, Sheriff of Gallatin county, authorizes us to say that there is no doubt that an expedition will leave Bozeman about the first of August for Deadwood, Whitewood and other places in the Black Hills.

Mr. Givens, who went to Benton several weeks since to meet his family from Missouri, returned Tuesday evening. Mr. G. came out about a year ago, and has since been engaged at his trade, carpentering, in Bozeman. He sent for his family with the view of permanently locating here.

Answers to Correspondents. W. V. S.—Yours of the 8th was a little too late, as W. A. D's communication was in advance of yours. Come again.

F. L. X. Hogem.—Your letters on this subject bore us. We are not at liberty to tell you "Laura's". Read her last communication in this issue and then jump in to the "Big Muddy."

J. A. M.—You will have to consult a physician in regard to what you call "corns." Printer's ink may be good, but it is too scarce and expensive in this Territory to experiment with, especially so when you have three "corns" averaging a peck a piece in size.

SPECIE PAYMENT RESUMED. T. Brunett is selling family groceries, dry goods, cigars and tobacco, wines, etc., at the very lowest prices.

Rumored Killing of Ed. Onok and Five Passengers by the Sioux. It is rumored on the streets that a party (whose names we failed to learn) was in receipt of a letter containing the startling intelligence that Ed Cook, and five passengers, in his coach, were murdered recently by the Indians while en route from Fort Pierre to Deadwood. We do not credit the news, and sincerely hope it may prove a mere rumor.

Since the above was in type, we learn that Mrs. Weispaugh, of this place, returned a letter from her husband, now in St. Louis, who had just arrived in that city from the Hills, stating that the following named parties were reported killed while he was in the country: Ed. Cook, Lorenz, Keiser, and three other whose names we could not obtain, as Mrs. W. had not retained the letter.

Many of our merchants have received new goods, and are daily expecting more.

Our Agent's Trip to Emigrant Gulch.

This was no "fof de ROL" trip, nor was it in search of bear or strange adventure. It was simply a visit to Emigrant for the purpose of seeing and interviewing the friends and patrons of the AVANT COURIER. On arriving at the Gulch, the first was an agreeable and the latter a very short and easy task; after which the conversation turned to the manner in which the boys showed their patriotism on the Centennial Fourth. John Caldwell said the day was an extremely warm one, and they were all dressed up in their nice clean "biled" clothes, and all had fans except himself, and that toward night the boys made it pretty hot for him, but before the next Centennial dawn on Emigrant it will be even up fans.

The Gulch has a population of fifty or sixty; there are four families; Dr. Dox L. Byam is the resident physician; Mr. John Coane, P. M., and Mr. Aylesworth keeps the store of the Gulch, and is doing a first class business. Many of the claims are paying well, and it is thought that in less than two weeks all the claim owners will be taking out plenty of pay from bed rock.

Although comparatively isolated from the outside world they have a weekly mail, and to see the amount of newspapers from almost every quarter of the globe received at that burg is proof positive that they are well informed in the leading topics of the day, and that they are judges of journalists.

Having an invitation and it being convenient the agent had the pleasure of "hanging up" over night with Mr. S. V. Wheeler, (nephew of the Republican nominee for Vice President), who is the butcher at the Gulch, and early Monday morning the miners from all parts of the camp came and took him down to their cabins and gave him a substantial advance in greenbacks and dust on subscription to the COURIER. They said they liked the AVANT COURIER for its local and general news qualities, and that they were willing to disgorge to the extent of a V yearly for the pleasure of reading it every Friday evening, for which flattering and encouraging words he felt highly pleased, and promised them that he would do all in his power to accomplish their desire.

There are no spirituous liquors used in Emigrant. "Sobriety, industry and big boulders" is their motto, and if these honest, hardy miners who have stuck to their motto and Emigrant for years and years do not deserve success we don't know who does, and give it up.

Lecture. Rev. Henry Skewes, pastor of the M. E. Church in Virginia City, will visit Bozeman on his way to attend the Conference at Helena on the 25th, and by request will deliver a lecture at the M. E. Church in this place on Friday evening, the 21st, and preach on Sunday, the 23d. Mr. Skewes has the reputation of being a fluent, pleasant speaker and an eloquent divine. He has delivered a series of lectures in Virginia City, which were highly appreciated.

For Sale. A Noedham Silver Tongue Organ, catalogue price, \$200; will be sold at a bargain. Also a Wheeler & Wilson Sewing Machine, manufacturer's price, \$85, will be sold at a discount.

JOS. WRIGHT. Mr. George Reese, who went from this place to the Black Hills, writes to Messrs. Huston, Farrell and other friends on the Yellowstone River, from Deadwood city recently, that the country is infested with white horse thieves as well as red ones; that he has to watch his stock day and night, and that many have had their horses stolen, among whom are Mr. Ed. Mendenhall and John Werk, of this place. Mr. Reese says he is coming back to Montana if he can, and advises his friends to stay here. There are but few Montana miners at work, and very little paying ground opened. Mr. Frank Grounds with promise a group of the boys work after he gets his ground opened if it pays, wages to be \$4 per day.

"Homes and Fortunes for All." We direct attention to the advertisement of the Kansas Land and Immigrant Association, in this paper. A grand distribution of cash, farms, brick blocks, residences, &c., will be made to shareholders on the 26th day of August, aggregating in value to \$1,000,000. The price of shares is \$5 each. It is conducted by leading citizens of Kansas for the purpose of encouraging immigration and affording comfortable homes to immigrants. It is no swindling lottery, but a legally authorized enterprise, the charter extending for twenty-one years. Parties in Bozeman or the valley desiring to purchase shares can do so by applying at this office.

Mr. Randall, of Emigrant Gulch, had new potatoes for table use weeks ago. His garden is situated at the hot springs near that place, and has hot houses arranged so that the warm water runs under the vegetables which keeps a continual sufficiency of moisture and warmth for growing purposes. After using the potatoes he set tomatoes in their place and they are now in bloom. He has the houses built in such a manner that he can prevent hail storm or grasshoppers from injuring the plants by drawing a canvas covering over them. This year's crops were merely an experiment. He intends enlarging his buildings and raising enough early garden "seeds" to supply all living in that vicinity another year.

Montana Militia. Under the ruling of the War Department the militia of this Territory cannot be enrolled in the United States service; but there is no good reason why they should not be organized under the Territorial law. The condition of the frontier requires that we should have some other reliance than the protection afforded by the United States forces, and the Governor strongly urges upon all the counties to take steps looking to a state of defense. This can be done by the citizens, and the Governor has given personal assurance that he will co-operate with the people to that end.—Independent.

Warranty Deeds. We have for sale in quantities to suit purchasers, nicely printed Warranty Deeds.

Prospecting on Mill Creek.

DEAR CAPTAIN: I am still prospecting on Mill creek but have not found bed-rock yet, but have obtained fair prospects and shall continue to work on until I find bed-rock which I think will be in the course of a month. Times in this place are good and every one seems contented and happy. The Fourth passed off pleasantly; two horse-races and a foot-race comprised the most interesting features of the day's entertainments. The party in the evening given by Mr. and Mrs. Mulhron, was another of those pleasant social gatherings that strengthens our friendships and adds so much to the brightness of the duller scenes in life. I will write you again and give you what items of interest that occur. Respectfully yours, W. A. DAVIS.

Some of the best ranches to be seen in Montana are located on Trail creek in the Yellowstone valley. There are but few taken up and now being cultivated. One of these few is that of Mr. James A. Farrell, twenty-five miles from Bozeman, where he has by good management and an excellent supply of water succeeded in growing the grasshoppers and raising good average crops of corn, peas, potatoes, oats and wheat, and likewise an abundance of cabbage, radishes, onions and other vegetables, too numerous to mention. With plenty of stock raising hill and valley the year round, and everything comfortable and homelike at the house, it is a sight that should induce others to do as Mr. Farrell has done, i. e. take up a farm on Trail creek and stay by it.

A Large Stock of Genuine Key West Cigars Just Received and For Sale at BASINSKTS.

The grasshoppers have destroyed the whole of Mr. D. M. Allen's crop on the Yellowstone.

The Fort Garry prisoners, Hughes, Vogle and Bell, have been acquitted. There are two more indictments against them, but they have been released on their own recognizance. The two remaining indictments are for killing an Indian woman and an unknown Indian.

Tremble in your boots, ye of unsteady habits and crooked ways. We have a "Junius" among us, and although lacking in all the essential qualities to make the "Junius" of old famous, the "Bozeman Brief-Doer" of the Madisonian has his sphere, and its altitude is indexed by the machine he reports for. One has to descend mighty low to reach it, and to be able to properly appreciate the surrounding conditions is equivalent to attaining a degree of total depravity from which there is no saving grace.

Rich & Willson's mule train is expected here in about two days.

A few good miners can get constant work and the highest wages going at Emigrant Gulch.

Brewer's Hot Springs are becoming a favorite resort. They have just completed a course of four days racing there, each day winding up with a dance.

Mr. Sol. Star, who had shipped a large invoice of queensware to Helena and designed opening a store, has taken the Black Hills fever, shipped his goods back from Benton to Bismarck, and has departed for the new El Dorado himself.

The time for the distribution of the prizes of the Kansas Land and Immigrant Association is drawing near. On the 25th of August the drawing will certainly take place. We have a few more tickets left which those who consider themselves lucky enough to draw one of the many large prizes can have at the price set by the Association—\$5.

"The Bald-Headed Club." A Bozeman friend informs us that the "Bald-Headed Club" in that place now numbers but two members. Jake O. is President and Ed. H. Vice President, with Jake O. as Secretary and Ed. H. as Treasurer. No quorum has been had for several weeks, owing to the Vice President and Treasurer being absent on a trip to an Eastern Montana bar.—(Herald.)

The old chief of the B. H. C. has forgotten his reckoning. C. B. F., S. W. L., and several other "shining patens" of the honorable order are still around.

Patriotic Demonstrations on the West Side. Should the services of the volunteers offering from this Territory not be accepted by the Government, it would be advantageous to the community, and would serve as a protection against any possible danger, in case a raid should be made by the Sioux, and of their entering the settled portion of the Territory, if citizens of Butte and the various towns, would organize a company or battalion of energetic men. Let Butte take the initiative, and at once organize a company to be ready to move at a moment's warning, should the border be invaded.

Immediately on the receipt of the news of the disaster sustained by Ouster's command at the hands of Sitting Bull's forces, Chas. B. Warren, of this town, wrote to Gov. Potts, asking of him permission to raise a company of one hundred men to serve during the present Indian war. Should this request be granted the required number, we are assured, will volunteer, and within twenty-four hours will report mounted, ready to take the field, equipped with the exception of necessary arms and ammunition which will be required of the Government. Attention, Butte Guards! Forward, double-quick, march.—Butte Miner.

FROM THE VALLEY.

GALLATIN VALLEY, July 8, 1876. DEAR COURIER: Since my first and last letter to you the Fourth has passed with its roaring cannon, fire-works, picnics, dancing, etc., and the 100th anniversary of America's independence appropriately observed throughout the "land of the free and the home of the brave." All have returned to their wonted avocations—the farmer to his grain field, the merchant to his counting room and mechanic to his workshop. But amidst it all, news of a bloody Indian war is abroad in the land, giving the sickening details of the work of the tomahawk and scalping knife; of the many homes made desolate and loved ones separated forever on earth. At a time when peace and good will toward men should reign in our land, the war-whoop of the savage Sioux is heard and his terrible presence felt. Next to the Indians the grasshoppers are our worst pests in this country. The crops in some portions of our community have been seriously damaged, and I fear the worst has not yet come. There is a fine crop of hay ready for the sickle, and farmers have commenced mowing it. I believe county fairs, so far as Gallatin is concerned, are things that were. It seems so. No preparations are being made to have any this year. I suppose hard times accounts for this lack of enterprise on the part of our citizens.

The health of the people of the Valley is very good at present, better than usual at this season of the year.

I learn that my letter, published a few weeks ago, caused some little gossip among a few over-curious persons, more particularly by a young gentleman hailing from Jefferson county, or some other place. I haven't had an opportunity of meeting the young man, but from hear-say I understand he is quite a lady's man, or at least thinks he is; and that he is looking for "Laura"; and seems to think every young lady he gets acquainted with is this mysterious personage. He is, as I am informed, very devoted, and might be considered "gushing." It is a wonder to me he hasn't married some one ere this. No doubt he would propose marriage to me on our first meeting, but as "Laura" is already engaged to another it would be "wasting his sweetness on the desert air," and may as well give up his search.

Thanking you, Mr. Editor, for your kind indulgence in allowing space in your paper for my letters, I bid you and your many readers adieu, wishing you and them a prosperous life, full of happiness and joy. "LAURA."

Dr. Sage's Catarrh Remedy. IS NO PATENT MEDICINE HUMBLED got up to dupe the ignorant and credulous nor is it represented as being "composed of rare and precious substances," brought from the four corners of the earth, carried seven times across the Great Desert of Sahara on the backs of fourteen camels, and brought across the Atlantic ocean on two ships." It is a simple, mild, soothing remedy, a perfect specific for CATARRH and "COLD IN THE HEAD;" also for Offensive Breath, Loss or Impairment of the Sense of Smell, Taste, or Hearing, Watery or Weak Eyes, Pain or Pressure in the Head, when caused, as they are not infrequently are, by the violence of Catarrh.
