

Calendar table for March 1877 showing days of the week and dates.

RELIGIOUS.

Services at the M. E. Church each Sunday at 11 a. m. and 7 p. m. Sunday school at 2:30 p. m. Prayer meeting each Thursday evening.

St. James' Church. Services each Sunday morning and evening at the usual hours. Sunday School immediately after morning services.

Local Matters.

Agent For Courier. David Boeman is authorized to receive subscriptions and to receipt for same.

Courier Clubs. Any person sending us five cash subscriptions will receive the Courier one year gratis.

Railroad Convention. At Odell Hall, Bozeman, at 2 p. m., Saturday, March 17th.

Hay and oats continue to go in at the Post.

New Advertisement. We call attention to the advertisement of the Proprietary Medicines of Dr. Chandler. They are so well recommended that they must possess virtue of no mean order.

Good, Dry Cord Wood—Pine and Quakingasp—delivered on short notice. T. BRUNETT.

Returning. Who of Gallatin will follow the example of H. M. Hill, of Clancy, who has filed, says the Independent, his intention in the office of the Territorial Auditor, to build a woolen factory under the act of the late Legislature to exempt such factory from taxation for the term of six years.

The supply of Bolts, Butts, and Screws at Locky's will not last forever; secure your supply before all are sold. 16-1f.

Brick. We hear of the early arrival of a firm of brick makers, who, seeing the school house in the distance, smell profits in bricks. We presume Mr. Tracey and Mr. Crowell will resume the manufacture in the early summer.

A good quality of Seasoned Lumber of all kinds, in quantities to suit purchasers. T. BRUNETT.

Arrival. A young merchant arrived at the house of Mr. Louis Strasburger on Tuesday last, and the party entertained at the M. E. Church until this Thursday evening. It is a fine boy to start with, and when we last saw "Lewis" his face was lit up with radiant smiles while mentally singing—"It's nice to be a father."

Locky has everything for everybody, and will buy or swap any time. 16-1f.

The Railroad. The narrow gauge advocates are getting in some out here. They live too wide apart for sociability, and look as though they were contemplating an indefinitely long visit to Franklin or some other congenial spot. We advise prudence. The overwhelming opposition to the Bill will not, we hope, degenerate into personalities.

Two Rain Wagons, almost new, with Double Trees, Lead-bars, Chains, &c. complete, for sale by T. BRUNETT. 13f.

Render unto Caesar. The Missoulian of the 21st. ult. appropriates our personal and official report of Miles' fight on the Tongue river, but don't give us credit. Is that fair? That report cost us a ride of 19 miles and a stable bill, and the Missoulian hasn't "done us proud," a bit.

Whips, Boots, Camp stoves, Hard-tack and other necessities at Locky's. 16-1f.

The Courier. We continue to receive such flattering letters and words of encouragement that we think we see our way to success. From farmers, particularly, we have good words in commendation of our agricultural and stock department—which portion of the paper we shall at an early day very materially improve by the introduction of original, contributed and other matter. We invite farming correspondence. Subscribers who fail to receive their papers are requested to notify us.

Tinware reduced in price at Locky's. 16-1f.

M. E. Church Entertainment. We intended alluding at length to the excellence of the Entertainment of last week, but the press of Agency news forced curtailment. We hear nothing but praise of the efforts of all concerned.

This (Thursday) evening the third and last entertainment will be given, with a very fine programme. We hope to see a full house—the object and the artists deserve it. Go on; go all.

Great closing out sale of Dry Goods, Hardware, and Notions, at Locky's. 16-1f.

Daily Mail. WASHINGTON, D. C., Feb. 26, 1877. To the Editor of the Madisonian: The Department has ordered a daily mail from Virginia City to Bozeman, also a daily service to Pony.

MARTIN MAGINNIS. Good! Long looked for, come at last. In thanking our Delegate we must not forget our obligations to the Governor, who has worked for the measure now secured.

New Office. The alterations required will delay occupation of the new Courier building until the last of the month, when we shall permanently install ourselves in our future quarters.

Personal.

V. E. Cline, who has lately returned from the East, assures us of the sale of half of his Yellowstone collection and the deposit of the remainder in the Chicago Exposition.

Geo. J. Reichelder, of Emigrant, is in town to see who is President and to arrange for extensive mining operations the coming season.

C. L. Clark arrived in Deadwood from Cheyenne on the 8th ult. with four loads of general merchandise.

The Missoulian states: "Lieut. Schofield passed through here last week to go on duty with Lieut. Fuller, at the agency. They say that the Lieut. is a 'rattling' good officer."

Messrs. Atkins and Gilmore were lately in town—the latter on Mr. & Co.'s business, and the former on freight matters. We understand he made several large contracts.

Mr. Fred Kiesel, of the firm of Kiesel & Co., Forwarding and Commission merchants of Corinne, Utah, arrived in town last week on business, and gave us a pleasant call. The firm is one of the most reliable in the north-west, and gives universal satisfaction to Montana shippers.

An Independent item states that "Messrs. Morrill and Sacy, of Bozeman, have opened up a rich quartz lode in the Black Hills. The quartz is decomposed, and they are panning out enough to pay the labor of ten men who are developing it. Mr. Morrill is a former resident of Bozeman."

The Hokan (Minn) Blade has the following: "Prof. Matt. W. Alderson, a Phenologist, lectures at the Presbyterian Church, in Hokan, on Monday, Tuesday, Wednesday, Thursday and Friday evenings of next week. Mr. A. comes well recommended and his lectures will be interesting and well worth attending. He is a graduate of the American Institute of Phenology, of New York, and is highly spoken of as a lecturer."

A party was given, says the Herald, by Col. Sanders and his estimable wife at her commodious and elegant mansion on Ewing Street, in honor of our Fort Ellis visitors, Capt. Wheeler, Capt. Marshall, Dr. Paulding, Miss Bogert, and Miss Wheeler. The invited guests, numbering about thirty, were entertained by the accomplished hostess and her talented sister, Miss Sanders, in a manner that reflected great credit on these ladies. It was the most brilliant and enjoyable social event that has transpired in Helena during the winter.

The following from the San Diego (Cal.) Union, is of local interest, Mr. Hugh having been the founder of Montana Methodist and the first Superintendent of Montana Missions. Mrs. Hough's sister is Jay Gould: "The course of lectures delivered during the past week by Rev. A. M. Hough were quite well attended and proved not only instructive but highly instructive and profitable. The pictures given of life in Palestine, the customs and manners of the natives, and their mighty 'talking ways' were strikingly graphic; while the descriptions of scenes and impressions upon holy ground in and around Jerusalem were well wrought and eloquent. In fact the entire course throughout was so uniformly good that it is difficult to say which part pleased us most, but we venture to say could the reality come to us, not the least pleasing would be the young sister-in-law who first smoked the amber-stemmed pipe and then passed it around. The vividness and power with which these delightful 'talks' are given render them thoroughly enjoyable, and to those throughout the state who may be so fortunate as to be able to attend we heartily recommend them."

"Grub Machine." That is what we've got in Bozeman, in full blast, and Mr. Richard Locky has done it himself. The opens, which are the largest in the Territory, were heated and the crack-machine set in motion two days ago, when the good people of Bozeman were kindly invited by the proprietor to the exhibition, admittance free. This is a splendid full house and all witnessed the performance with evident satisfaction, testifying to the excellent quality of the "hard tack," the first, and of course the best, ever manufactured in the town of Bozeman.

The first run, being only an experimental one for the purpose of testing the new ovens, vats, troughs, &c., the best quality of flour had not been secured. True, the flour was branched—doubtless so, or what is the same thing, it was branched without bran and without—was rather a low grade for the brand but probably a high price for the grade (this being the way that things are equalized occasionally in these parts).

The manipulation (we are speaking now of the bread process) and the machinery must be excellent, for the "hard tack" appeared to be superior to the flour.

We tasted the bread (after it was baked) and it around, filled our pockets for eight babies at home, witnessed several faturchins picking the squares hot slabs out of the baskets and thereon making a "square meal."

This institution is a "fat take" for the "boys" and no doubt will be extensively patronized by them. It will be a rich bonanza for hungry Lo. the poor Indian, and it will prove of incalculable benefit to this community, especially to the farmers and flour dealers, as it will require 20 to 30 sacks of flour per day to satisfy its voracious appetite, and last but not least, (original) it will be courted and patronized by all the old unmarketable bachelors in the country, and, perhaps by many of the fickle Beauties, as it can do what no dry do household was ever known to do, viz. make good bread from inferior flour.

"Rah for Locky" is his steam bakery. P. S. Since the above was written, Mr. Locky has secured a supply of good family flour from the millers McA low & Bro. from which he is turning out as good quality of hard bread as can be found in any eastern market.

Yellowstone Survey. The New North-West mentions that "D. L. Farland, Surveyor, having completed his Beaverhead survey, expects in about three weeks, with Frank Marsh, to commence a small contract on the Yellowstone about Shield's river, near Butte."

This survey is loudly called for and badly needed, as settlers are constantly enquiring for plats of the section mentioned, that they may properly locate their claims.

National Park.

The writer of the following letter misunderstands us, and Gen. Strong as well. The Park is established by law, and the wholesale slaughter of game and removal of specimens is illegal. Killing for personal consumption is permissible only. We have but one objection in view—the protection of the Park and its contents from vandalism, that its value to the Territory may not be lessened. The associate editor of the Courier (who wrote the article complained of) has been active in the protection of personal vested rights in the Park, and cannot be justly accused of attempting to place anything in the way of legitimate acts within its borders:

BEAR GULCH, Wyoming Terr., February 16, 1877.

EDITOR AVANT COURIER: You state that time and again attention has been called to the fact that men are hunting on the National Park. Now permit me to state, in the first place, that the National Park is no National Park. Secondly: If it was there is no game on it in the winter as the snow falls so deep that game could not winter there. Thirdly: There has not been any hunting on the Park this winter. There are only two men there this winter—G. W. Rolin and H. Miller. They, with other gentlemen, were building a bridge across the Yellowstone river to enable them to get mineral water from Clark's Forks. The Messrs. Huston and Dewing and the other gentlemen stopped work on their bridge until Spring, leaving Mr. Rolin and Mr. Miller to look after their bridge until that time.

Work Horses, Mares, Mules, and Harness, at low figures, for sale by T. BRUNETT. 10-1f.

Busiest place in Bozeman, Locky's. 10-1f.

Yellowstone Road. This important measure is before the Board of County Commissioners as we go to press. H. J. Hoppy has appeared before it urging the needed appropriation, and agreeing to obtain private subscriptions to double the county gift. We hope to report success next week.

Since writing we learn that Judge Duke suggests an appropriation of \$1000—county bonds to issue at 10 per cent, due in 18 months, and a commission to be appointed to superintend the work. A suitable and business-like idea.

The Weather. The first week in March has been making ferocious efforts to roar and storm like the king of beasts but without success. The snow storm on Tuesday was beautiful, after a fashion, yesterday looked a little lazy, but the sleigh still strikes the bare ground on Main st.

Transportation Contract. We are informed that the wagon contract has been awarded Mr. Pratt of Camp Baker—Corinne road 900 on Yellowstone 1.12. Eddy and Peck were lowest Missouri river bidders, but the bid of Foster for the Yellowstone was rejected, we learn from the Independent, which says the Government will build two easements for that river. These boats will also be used in improvement of both streams.

Who Next. We have just received a letter from Mr. Carl Stanley, Pueblo, Col., in which he says: "We think of selling out here next summer, or fall and coming to Montana. A large number of sheep have been lost this winter in southern Colorado. Two parties in this country have lost 1200 head each."

The "boys" will find out after awhile what is good for themselves. "Let them alone and they will come home, &c."

The School House. We are informed that, up to this date, no definite action has been taken by the Trustees of this District, looking toward the erection of the new school house. One of the trustees—Mr. Matthews—we regret to learn, has been confined to his house by illness for some time. Mr. Graham has moved out of the District at Dr. Mendenhall's, we infer, is so engrossed with his mercantile pursuits, county commissioner's and other duties that he has but little time that he can devote to the important and present urgent need of the District. We have no disposition to criticize the action or non-action of the Board in this matter, but simply to call attention to the fact that the people are getting anxious for something to be done.

Second-Hand Wagons and Harness FOR SALE!

A quantity of second hand Wagons and Harness for sale—cheap for cash—and two or three spurs of good serviceable Mules, that we will sell cheap for cash, or exchange for grain. RICH & WILLSON. 16-1f.

Miles' Fight. The Cheyenne Leader contains the following account of this hotly contested battle:

In the Tongue river battle between 900 and 1000 of the Northern Cheyennes were pitched against Gen. Miles' command. Gen. Miles' troops had been attacked by Indians the previous day, but managed to get to the brush and then worked their way to the command during the night. Next morning at daylight the Indians surrounded the command and charged in a solid body, with the intention of having another massacre. Gen. Miles opened on them with artillery, and mowed a swath twenty feet wide through them, which checked their advance. Gen. Miles then charged a hill which the Indians held, and drove them from it. The Indians then charged on foot, meeting with heavy loss, but they actually dared the soldiers to "come on" and get "plenty fight." Three soldiers were killed and nine wounded; a number of Indians were carried from the field. All the different Sioux nations are supposed to be camped together, and they number about 1,100 lodges. The 5th and 23d infantry were engaged, and acquitted themselves gallantly.

NOTICE TO THE PUBLIC.

Selling Out at Cost. I am selling out at cost my stock of California Blankets, Overcoats and Clothing of all kinds. Also my large stock of Hats, Caps, Home-made Buck Gloves, &c., &c., of which I will sell strictly at cost. Call and satisfy yourselves before purchasing elsewhere. [17f] T. BRUNETT.

MINING ITEMS.

Phillipsburg is thus noticed by the Missoulian: "The efforts to secure a joint stock association with sufficient capital to complete the Merrill mill, have been ably seconded by local capitalists, and now the completion of the works is considered a certainty."

The Algonquin mine, owned by the Pardee Company, is developing splendidly, and the Sharktown Tunnel mine, owned by the same company, shows several feet of rich ore, said to be equal to anything in the country.

The Missoulian records the sale of six town lots, the erection of ten buildings, the extra-time running of two lumber mills, the starting up of the Millory mill on the Strawberry lode ore, the survey by Mr. Knight of the town site and the general prosperity and promise of the location at Pony.

It also says of Norwegian gulch: "Messrs. Harty & Co., on Norwegian, are at a depth of 50 feet on their lode, with levels from bottom to shaft on each side—one of 50 feet and the other of 20—with a three foot crevice the entire distance, which, it is thought, will average \$30 per ton."

The Helena Herald says: Thirteen \$1,000 silver bars, product of the Dexter Mill, were shipped East on Monday last.

C. B. Vaughan has struck a body of ore in the Peerless Jenny that exceeds any discovery yet made in the mine. The present development is a "chimney" of ore struck in the tunnel on the vein. The class of ore is known as "Pawletts," and assays very high. It is claimed there is \$30,000 in sight.

Cheering news comes from the Montana Co.'s concentrating works at Jefferson City. They are successfully working, and all hands at Jefferson city have a broad grin upon their faces.

The Independent states that the Pedro Company is taking out a large quantity of very rich ore and the lode is more promising than ever. McNeil & Co., are working on a mine adjoining the Pedro, and Tatem is also opening a mine adjoining it. Mr. Tatem had made a rich and important strike. When the lode was reached it was found fully four feet thick, and the whole body will yield \$30 per ton on an average. What renders the above strike of more than ordinary significance is the fact that it was found at a much greater depth than has heretofore been attained on the lode, proving that it is a true vein.

Also, that it was wrongly informed relative to the suspension of work by the National Mining Company. Some thirty men were discharged from the company's employ because that part of the mine in which they were employed could not now be worked to advantage. Operations are conducted as usual in other parts of the mine.

Messrs. Myers & Embury are taking out good pay from their claim in White's gulch.

The husbandman learns that Avalanche gulch bids fair to be as wealthy a mining camp as has ever been in Meagher county. There are four or five new drains being put down, all of which are bearing brick. The Houck Bros., who got their drain down a short time since, have found splendid pay. These gentlemen have been very successful since their arrival in this gulch, having taken out considerable money last summer and fall.

The developments on the Peerless Jenny are even more favorable than at first report. The ore is very rich and there is plenty of it.

The New North-West says that Mr. J. M. Sweeney of Silver Lake has sold his interest in the placer mines near Virginia and bought in with Mr. E. T. Eason at Georgetown. They will continue working the ground this season.

BOZEMAN, March 6th. LOCKY'S CRACKER FACTORY is in full blast, grinding out hard tack for the suffering Crows, and the larger stock of goods are being rapidly disposed of. This is authentic.

St. Louis Imperial at Odell's Hall. Sour mash whisky at Odell's Hall.

The Territory.

Deer Lodge. The Butte Miner says: Messrs. H. D. Hauser and L. W. Knight, both of Helena, and the latter Cashier of the First National Bank of that city, arrived in Butte last week. Mr. Knight informs us that arrangements have all been perfected and their firm will open a banking house at this place in a few days.

Capt. James H. Mills, the "old man" of the New North-West, accompanied by wife and daughter, paid Butte a visit of several days last week. Pleasure on the pursuit of knowledge were the motives.

The Episcopal Society of Deer Lodge have \$1,500 cash in hand, and are now trying to get enough by subscription to erect a church edifice, and are in a fair way of securing the necessary amount.

The New North-West reports the arrival at Deer Lodge of Mr. M. A. McYendorff, the accomplished Superintendent of the Assay Office at Helena, and states that the charge for melting and refining is only one-tenth of one per cent, on bullion in any quantity, and for making assays of ores \$3 for each assay. It is a great convenience to our people, if not very profitable to the Government.

Missoula. The Missoulian says: Lieutenant Fuller came in from the Agency Saturday and reports everything quiet at that place. The detachment of men already there will, without doubt, before long be superseded by a company of infantry, and the work of constructing the military post be pushed forward as rapidly as possible.

Chouteau. I. G. Baker & Co., are collecting fifty head of beef cattle for the Mounted Police at Fort McLeod.

The grasshoppers have made their appearance in large numbers, but future cold weather will undoubtedly fix their flint.

The Benton Record says: From what we can learn, the reported fight between the Sioux and the Assinaboins is not true, and there is no danger whatever to the outlying settlements or ranches. The story was probably originated by some of the Indians now camped on the Marias river, for the purpose of procuring ammunition.

Snell & Co. are preparing to fire their last brick kiln at Sun River. The firm will then depart for Ben'on.

Madison. The Madisonian says: J. B. Snapp, of Home Park Ranch, brought in on last Thursday 87 pounds of butter, the result of churning from twenty-three cows in twelve days. A good yield from cows fed on hay straight.

We call the attention of stock men to the card of Raymond Bos, offering a lot of young stallions for sale.

Lewis and Clarke. The Independent assures us that the wool crop of Montana for the present year promises to be quite large. The scab, that was so prevalent the past year, has nearly disappeared, and there has been no loss by storms. These causes combined will swell the amount as compared with former years, about one half.

Meagher. Mr. Thomas Jefferson Fleming a few days since, presented the Husbandman with a live, full-grown grasshopper which he found hopping around on the valley. It, however, proves to be a peculiar short, dumpy species of the native "hopper" which passes the winter in a mature condition, sheltering in meadows and under tufts of grass, and becomes active when the weather is mild. It differs generally from the much dreaded migratory variety which hibernates in the egg state.

"By their Works ye Shall Know Them." The Irishman who thought the druggist stingy because the emetic was so small, is only surpassed in his parsimonious drollery by those who persistently adhere to the use of those nauseating, disgustingly large and drastic pills, while Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than salt seeds, will, by their steady and gentle action on the liver, correct all torpidity, thus permanently overcoming constipation. In South America they have almost entirely superseded all other pills, and are relied on fully by the people, and often used as a preventive of the various affections of the stomach, liver and bowels, so prevalent in that climate. Pierce's Pocket Memorandum Books are given away at drug stores.

There is no Article Like it to Cleanse and Restore.

Wood's Improved Hair Restorative is unlike any other, and has no equal. The Improved has new vegetable tonic properties; restores grey hair to a glossy, natural color; restores faded, dry, harsh and falling hair; restores, dresses, gives vigor to the hair; restores hair to prematurely bald heads; removes dandruff, humors, scaly eruptions; removes irritation, itching and scaly dryness. No article produces such wonderful effects. Try it; call for Wood's Improved Hair Restorative, and don't be put off with any other article. Sold by all druggists in this place, and dealers everywhere. Trade supplied at manufacturers' prices by C. A. Cook & Co., Chicago, Sole Agents for the United States and Canada, and by all Wholesale Druggists. 35-1f.

BORN.

In Bozeman, March 6th, 1877, to the wife of Louis Strasburger, a son.

NOTICE.

BOZEMAN, Montana, Feb. 14, 1877.

The undersigned hereby gives notice that all notes, accounts and demands made payable or due to the recent firm of J. B. & J. V. Bogert, of Bozeman, are in my hands for adjustment and collection, and such indebtedness must be paid to myself or agent at the First National Bank of Bozeman forthwith or suit will be instituted. GEO. W. FOX.

PROPOSALS.

Sealed Proposals will be received at the office of the Secretary of the Eastern Montana Mining and Smelting Company, on the 14th day of March, 1877, for 25,000 Bushels of Charcoal, (Government standard, 2,500 inches to the bushel.)

The Company reserve the right to increase or diminish this amount 25 per cent. Also to reject bids. On the award of contract, a good and sufficient bond shall be given for the fulfillment of the same. [15-3f]

Bozeman Market Report.

SUGAR, \$22; COFFEE, 40 cts.; Bacon, 20c; Ham, 25c; Shoulders, 2c; States Sugar, 97; Peaches, 20c; Dried Currants, 20; Dried Grapes, 20; Dried Peas, 22c; Beans, 8c; Fresh Corn Meal, 9c; Oat Meal, 15c; Hominy, 11c; Bright Navy tobacco, 68c; Black, 55c; Tea—Japn 68c; Young Hyson 60c; Imperial 95c; Gunpowder 11c; Salt 6c; Brooms \$5.50; Pickles, 5 gallon keg, \$4.10; Rope, 17c; Syrup, 5 gallon kegs, \$7.00; Candles, 10 50 per box; Soap, \$5 50 per box of 50 lbs.
