Appointments of Bishop Tuttle.

August 9-Thursday, 8 p. m., Bear Creek. 12-XI S. after Trinity, 11 a. m. and 8 p. m., Bozeman.

Episcopal Visitation.

The following is the plan for Episcopal visitations, to be made by Bishop Bowman, of the M. E. Church:

Bozeman Items.

One hundred men have enrolled for the Gallatin County Militia. Dr. Marsella has decided to remain here in the practice of his profession.

A party of 25 Nebraska emigrants are camped near town and in the valley—they need and wish employment.

Black & Daniels will commence business here by Sept. 1st. Mr. Black now being in town arranging preliminaries.

The Main Bros. opened the Metropolitan Hotel on Monday, at the LaCade Hotel. Their table is the talk of the town.

Messrs. Ralston, Dickson and Eyestone, of Madison county, passed through here yesterday bound for Clark's Fork settlement.

Major Bruce lost a straw stack, barn, etc., last week by fire. It is said a pipe or a chimney caused it. Insured to some extent, we understand.

Messrs. Chesnut and Beall are sub-contracting for erection of the school house, having secured bricks of Mr. Tracey at \$9.50. The contract figure is \$11,000.

Messrs. John Alderson and King have sold their best load of lumber at Tongue river at \$50 per 1000 feet, but had not succeeded in disposing of the invoice of doors and sashes.

The Madisonian says: Messrs. Martin & Myers, of Bozeman, have purchased of H. M. Thomas a band of 300 cattle, consisting of cows, calves, one two, and three-year-olds. The price paid was \$13 per head.

The Nez Perce Indian, whose confinement we mentioned last week, has been sent to Virginia City in lieu of \$1000 bail. His defense was mainly, "I steal from white man—I steal ponies from Indians, and that, you know, is all right."

Dr. Monroe. By reference to the card of Dr. Monroe, on first page, it will be seen that the Doctor has been appointed Post Surgeon at Fort Ellis, but we are pleased to know this will not materially interfere with his professional patrons in Bozeman and vicinity. He can be consulted daily from 10 a. m. to 4 p. m. at his office, in S. W. Langhorne's drug store.

Big Horn Scout. We are indebted to Geo. Herenden for the following found posted on the field: Custer Field, June 27th, 1877.

Company I, 5th Cavalry, visited this spot today, on a scout from the foot of Big Horn Mountains, from camp on Clear Fork, of Powder river. We return immediately up this river. No Indians seen.

Bosco. Prof. Carl Bosco, the illusionist, gave two performances here last week, and proved without exception the most accomplished wizard we have ever seen here—and, we assert, the equal of the most noted exponent of the art diabolic. Working without machinery, and without apparent concealment, his experiments are not only superior, but are performed in a masterly manner. Being a gentleman and an able performer, we bespeak for him large audiences in his Montana tour.

Gen. Sherman's Visit. As announced last week, Gen. Sherman's party reached Ellis on the 1st, and after a short visit, left for the Park on Saturday, his instructions having been so modified that he will carry out his original programme and visit Missoula, and, perhaps, proceed to Walla Walla.

On Friday the General held a reception at the Northern Pacific hotel, being called upon by most of our citizens. On Friday evening a reception was given at the Post, the quarters of Capt. Wheeler and Lieut. Wright being thrown open for the occasion.

The party will, if possible, return to Ellis within three weeks, and then proceed to Helena, Missoula, &c. Dispatches from Gen. Miles reached here on Sunday and were forwarded to Gen. Sherman by special courier the same day.

Fort Custer Tradership. Our Fort Custer correspondent advises us that the council met July 30th and after a day's session elected T. C. Borup, of the wealthy St. Paul grocery house of Borup & Co. There were 25 applicants, and the choice seems to have lain between W. B. Cutter and Mr. Borup. The latter was fortified with elegant plans of his proposed buildings, and two other applicants not only certified to possession of \$100,000 each, but offered to put a light draft steamer upon the Big Horn to operate between the Post and Bismarck.

Among the applicants were Messrs. Benjamin, Sumner and ex-Colonel Deane.

If you want a drink of good Beer, try Pilsener's St. Louis Bottled Lager. [25-1]

Personal.

Archie McKinley, after a year in the Black Hills, has returned. Wants no more of them, we hear.

Seth Bullock and John Hildebrand are organizing a Black Hills Cavalry company for protection against Indians.

The Messrs. Story, Chas. Rich and J. S. Mendenhall have gone upon the Yellowstone tour, the Story Rich party guided by John Werk.

Rev. Clark Wright delivered a temperance lecture at the M. E. Church on Tuesday night to a full house.

Marshal Wheeler left for Virginia City yesterday, taking his Nez Perce prisoner with him. He was obliged by official duties to abandon his Geyser trip.

The Black Hills Pioneer says: T. F. Hanley and Pat Hyde were on a collecting tour yesterday among the Montana friends of "Old Man Benson," of Benson's Landing, on the Yellowstone. The old gentleman, who is almost universally well liked by those who know him, met the misfortune of losing his hand some time ago, and his friends wish to assist him. Some \$300 were subscribed up to last evening.

INDIAN SITUATION.

L. Company, 2d Cavalry, to the Front—Gibbon to March for the Jefferson with 125 Men.

Latest from Gen. McDowell. We give elsewhere full details of the Indian situation to date. The rumor in circulation, that troops had been killed in the Bitter Root, is not supported by any dispatches yet received at Ellis. As will appear in our command news, the order upon the 2d Cavalry at Glendive probably did not reach there in time, and the return of the Ellis Cavalry must of course be delayed, while the transfer to Missoula be rendered unnecessary.

As Gen. Sherman's order regarding L. Company left it subject to Gen. Gibbon's orders, Capt. Norwood remained here until yesterday. On Tuesday he was instructed by the General to investigate the matter of the Nez Perce escape and to make such movement as he might consider best. Consequently, he concluded to march to Virginia City, and there investigate and report and operate as circumstances might dictate.

At 9 a. m., yesterday the company moved that way in light marching order, and would as rapidly as possible march to its present destination. Gen. Gibbon estimates the Nez Perce strength at 200, and 1200 horses, 60 miles from the Missoula Post on the 2d, and was preparing to march upon the Jefferson with 125 men.

Gen. Howard and Col. Wheaton, with 1100 men, should now be at Missoula—in fact, they were reported there on the 4th. Well-informed men predict an attempt on the part of the coming Nez Perces to contaminate the Crows—the latter having an exalted idea of the former, and the dissatisfaction of the Crows having shown itself of late with more than usual emphasis.

The following telegram was received at Ellis on Tuesday night:

SAN FRANCISCO, Aug. 6. Howard, with artillery, infantry and cavalry, is marching to Missoula via Lo-Lo trail and is sending Whaton with 25 infantrymen and a force of cavalry and volunteers to the same place, via Spokane and Coeur d'Alene Mission. They left about the 30th, but Joseph is reported to have already gone beyond Missoula a week before Howard's double column started.

McDOWELL.

Bishop Tuttle reached here on Sunday, and preached at St. James Church in the evening. The chancel was elegantly decorated with flowers, the gift of Mrs. Ruffner and Miss Bogert, and the choir was composed of Mrs. Taylor, (organ) Mrs. Willson, Miss Bogert, and Mr. Taylor. The Bishop preached a powerful sermon upon the authenticity of the Bible, and was assisted in the service by Rev. Messrs. Toy and Dickey.

On Monday the Church Committee met. The Bishop in business Conference, when it was decided to maintain the Parish school under charge of Miss Sweet for the ensuing year. The finances of the Parish are in good condition, and no debt will remain upon departure of Rev. Mr. Dickey, who takes his leave on Saturday next. The Bishop will preach next Sunday at 11 a. m. and 8 p. m., and at the Post at 3:30 p. m. There will be no service at the M. E. Church during the day.

A meeting of the Ladies' Aid Society is called 8 p. m. to-day at Mrs. L. S. Willson's.

Perhaps Fatal Affrays. Thomas O'Brien, a well-known mine-Emigrant Gulch, was on Monday placed under \$3000 bonds to appear for trial. A dispute having occurred between him and Witkowski, another miner, regarding the location of the latter's flume boxes, the evidence appears to prove them on his part—that on the 12th ult. O'Brien visited Bozeman and Hamilton, seeking to place Witkowski under bonds to keep the peace, but not succeeding, returned to the Gulch—that on the morning of the 2d, the parties met, and the words ensuing, Witkowski repeated his threats and armed himself with stones—that finally O'Brien shot at him, missing him, and repeating it, sent a ball through his shoulder, inflicting a dangerous, but not necessarily fatal, wound. Narrowly escaping lynching (so the report states), he came to town, and was placed under arrest. O'Brien had armed himself, it is claimed, in consequence of the threats made—but as the versions of the matter are various and contradictory, and as the case will come to trial, we defer comment.

John McDonald was brought in from below by Capt. Norwood, charged with deadly assault upon his ranch-partner Wm. Bramble. A dispute having arisen regarding hay ownership, McDonald claimed he was attacked and obliged to use a knife in self-defense. Bramble was badly cut in several places, one wound being very severe and dangerous. He now lies at the ranche almost alone, but was improving at last accounts. McDonald was held in the sum of \$1,200. Both have been considered peaceable men and good citizens, and the affray caused general surprise.

All persons indebted to me are requested to call and settle as soon as possible. I need the money in my business. T. BRUNETT. 12-12.

Methodist Episcopal Conference.

The first session of the Montana Conference of the M. E. Church closed its exercises on Sabbath evening. The session opened on Thursday morning last, and occupied the forenoon of each day until its close, with religious services and preaching by the various members every evening. There was very little business to transact, and the session partook very much of a social character. It will be memorable in the history of this branch of the Christian Church in Montana, principally as its first session; that here in Bozeman was laid its foundation and corner-stone, and from whence a new and grand forward movement is hoped to have been commenced. Certainly, the zeal which the eloquence and piety of Bishop Bowman were enabled to inspire in the hearts of the members, who, separating and going into every town and valley of our Territory, can but impress upon it something of its character and warmth; and "a little leaven leaveneth the whole lump." If its fruits shall reach the common toiler and the man of care, refresh and sweeten home, and make purer our social life, the blessings will be localities to this young and growing Territory.

Bishop Bowman, who is one of the eleven bishops now living, having charge of the temporal and spiritual welfare of this great organization, and who was for two years chaplain of the Senate of the United States, preached on the Sabbath two powerful sermons that will be treasured in the hearts of many listeners, not for the "wise" and "smart" things he uttered, but for the comfort and hope he inspired, and the reasonableness and assurance of such hope his earnestness gave. The morning's discourse was a model of pulpit eloquence. There was no display of learning, or striving after rhetorical effect or elocution. It was a simple talk throughout, brought down to the comprehension of the young and the simple, and lifted as well to the interest and edification of the wise. There is an eloquence in the humility itself with which a cultured man seeks to make known in the plainest words the things he "hath both seen and heard." This man's eloquence consisted in the simplest narration possible of the grandest of themes and the burning realization of its truth in his own breast. The rhetoric was perfect, not so much because of art, but because of nature; and the spontaneous utterance of heart to heart. May we not add in the language of Paul, that his "speech" and his "teaching" are "not with enticing words of man's wisdom," but that "it is the power of God."

Conference convened at 9:30 a. m., Aug. 2, in the M. E. Church, Bishop Bowman in the chair, after prayer by Rev. Hugh Duncan, and the 70th hymn, the Holy Sacrament was administered. Rev. L. W. B. Long was elected secretary and Rev. H. Duncan assistant. The following members were present: Presiding Elders—Rev. W. C. Shippen and F. A. Riggis; Revs. Messrs. Long, Duncan, Wright, Van Orsdel, Woodman and Alderson. Committees were appointed as follows: On missions, Clark Wright, Church extension, Hugh Duncan, Sunday schools, Van Orsdel and Woodman. Temperance, Clark Wright and Duncan. Bible cause, W. W. Alderson. Observance of Sabbath, F. A. Riggis. Board of stewards, H. Duncan, Clark Wright and Van Orsdel. Indian affairs, W. C. Shippen, H. Duncan, F. A. Riggis, Freedman, W. W. Alderson. Public worship, W. C. Shippen and F. A. Riggis. Education, Clark Wright and W. W. Alderson. Book accounts, L. W. B. Long. Episcopal fund, F. A. Riggis and L. W. B. Long.

On the remaining days of the session the following business was transacted: The characters of Revs. Messrs. Riggis, Wright, Long, Shippen and Duncan were passed upon—Mr. Van Orsdel was recommended for Deacon's orders—the sending of children to Roman Catholic schools was condemned, and the Bishop advised establishment of Methodist schools—Mr. Alderson was added to the Committee on Church Extension, and Rev. Clark Wright to that on Indian affairs—the Conference raised \$300 towards payment of the Missoula Church debt—Indian affairs received vigorous attention. It was resolved that Montana needs a school of higher grade, and the following committee was appointed to consider the matter and select the location: Hon. B. F. Potts and Revs. Messrs. Riggis, Wright, Alderson, and Van Orsdel. On motion of Rev. Clark Wright, \$1000 were requested as yearly salary of an Indian missionary. Resolutions of respect for Bishop Bowman, and of thanks for local hospitality and liberality of the stage companies, were adopted, and Virginia City was selected for the next Conference. The following appointments were made:

Helena District—L. W. B. Long, Presiding Elder.

Helena Circuit—including Helena, Jefferson and Sun River—Rev. Clark Wright, Diamond City—To be supplied.

Bozeman—Rev. L. W. B. Long, Virginia City—Rev. W. C. Shippen. Blackfoot Agency, Fort Peck Agency, Crow Agency, Fort Benton, Yellowstone, to be supplied.

Butte District—Rev. F. A. Riggis, Presiding Elder.

Butte and Fish Creek Circuit—Rev. F. A. Riggis.

Deer Lodge—To be supplied.

Missoula—Rev. W. W. Van Orsdel. Bitter Root—Rev. W. W. Van Orsdel. Bannack, Beaverhead, Lombl Agency and Fort Hall—To be supplied.

On Sunday over \$1400 were raised, which, with the aid contributed by the Church Extension Society, will entirely relieve the Church of debt. The Bishop made a decidedly favorable impression here, both socially and officially, and his visit will be long remembered. He expressed himself as greatly and agreeably surprised, not only at the beauty and wealth of the Territory, but with the culture of its people, whom he had not supposed so superior to the general Eastern ideas of the pioneers of the frontier. He proceeded on Monday to meet the Columbia River and Oregon Conferences, and on Monday and Tuesday the members of the Conference departed for their homes.

All persons indebted to me are requested to call and settle as soon as possible. I need the money in my business. T. BRUNETT. 12-12.

Fort Custer.—The Big Horn.

We have information to the 29th ult. from the Post. The wood and hay contractors had arrived, the latter having 11 tons underfoot, the hay contract, which is understood, was let at \$26, and the wood at \$3.00—the hay contractor offering \$3 for hay stacked in the field. Some 30 horse teams were on the ground, and it would seem no more transportation is needed. Hay in the vicinity of the Post about a half ton to the acre, but up to the Little Horn coarse grass will cut 2 to 3 tons of poor quality.

The steamer Sherman is employed carrying freight up the river from where it is unloaded at mouth of the Big Horn—600 tons having been left there by the time our informant left, and another steamer for like service being on the way. The river is not so easily navigated as stated by a late Bismarck Tribune—a different class of boats is needed, small capacity and great power being requisite.

A party from Big Horn City had visited old Fort O. F. Smith to obtain spikes, &c., from the ruins for boat building purposes at the former point, returning by rail.

Diligent enquiry on our part elicits nothing in support of the story sent the Bismarck Tribune regarding arrival at Fort Custer of successful Big Horn gold hunters. On the contrary, we are assured that most of the prospectors reaching there are destitute, reporting no discoveries, and scattering to different points between that Post and the Yellowstone stations.

One party had attempted to raft itself down the river, but after losing both raft and supplies, had, in part, accepted work at the Post, and in part moved on to the Yellowstone. We thus refer to this matter that a useless stampede may not result from Montana.

The Post was progressing; has been splendidly located upon a fine plateau, strategically and practically considered, and the mill is at the Post, and not 20 miles up stream, as reported.

Volunteers. The result of the interview with Gen. Sherman is shown by the following, which was sent upon its conclusion:

BOZEMAN, August 2d, 1877. To Gov. Potts, Helena or Deer Lodge: I arrived yesterday. The escort of one company will get in to-day. The riots in the East have ceased and I am authorized to go on as first planned. I shall therefore take four men and start for the Geyser the day after to-morrow by the Mammoth Hot Springs, aiming to get back to Ellis in fifteen days. Howard has orders to follow up the Nez Perce. I will leave subject to General Gibbon's orders the escort company, and have instructed Gen. Terry to send up the other three companies. This is about all we can do. Those Indians should not be allowed to traverse Montana for the buffalo country, but should be captured or forced back on Howard. I approve of what you are doing, and if your volunteers act under regular officers I am sure Congress will pay for the necessary stores for their maintenance, and also pay them in time. I have no authority to issue stores, unless the citizens act immediately with the regular troops. In such cases, arms and ammunition could be loaned, and bills for forage and provisions could be certified. I now it is the office of the General Government to defend and protect its citizens, but you know the extent of our territory, the great diversity of local dangers and the fewness of soldiers allowed by law.

W. T. SHERMAN.

Fort Ellis. Bishop Tuttle and Revs. Messrs. Toy and Dickey will hold service at the Post on Sunday at 3:30 p. m.

Maj. Benham has gone to the Agency to inspect Crow supplies.

It is now stated the entire regiment 2d Cavalry will be divided this winter between the Tongue River, Little Horn and Missoula Posts and Fort Ellis.

Montana Notes. Helena is to have a theatre.

The Assay Office handled in July: Gold, \$66,480.50; silver, \$33,900.00.

If the Herald would read the Covarian more carefully, it would not have recorded the presence at Fort Ellis of Gen's Terry, Miles and Card.

The Benton Record says Fort Peck will probably be soon removed to Poplar Creek, 140 miles below its present site.

At the Montpellier, Vt., Convocation of the American Institute of Instruction, Wm. J. Marshall, late of Montana, exhibited his Wonderful Stereopticon and introduced the following resolution, which was adopted:

That, in the opinion of this Institute, it is highly desirable that a scientific commission should be located at the National Park, for the continuous and thorough study of its present and future physical conditions; and that we respectfully recommend the establishment of such a commission by the National Government; and to this end would specially commend the subject to the careful consideration of the Senators and Representatives in Congress from the New England States.

The Record says: The engineers at Dauphin Rapids have their boat built and derrick up, and have been experimenting with their dynamite by blowing up the boiler of the Peter Balon, a steamer that was burned near the rapids in 1868. The work of clearing away the boulders cannot be accomplished until the river falls considerably below its present stage, but the experiments already made have satisfied the engineers that there will be no difficulty in removing all the rocks that obstruct the channel at this point. After the rapids have been cleared the party will work on down the river, and expect, before the winter sets in, to have the river above Cow Island sufficiently improved to enable boats to come to Benton at least one month later in the season.

Madisonian: We had a convincing evidence that all the gold had not yet been cleaned from the bed-rock in Alder gulch. A pan of dirt which we got from the claim of L. A. Fennar, at Nevada, yielded a little over five dollars, and the miners engaged there say that it is not an unusual occurrence for them to get single pans full of bed-rock "grit" that will give two or three times that amount.

Buy two and a half yards of cloth and have your pants made to fit, by THOMAS COUDY, the Tailor, next door to Strasburg & Spring. 23-4.

Pony Gold.

Mr. John Donaldson reports extraordinary clean-ups at Pony. The Willow Creek lode has lately had a two weeks run at the Malloy mill of 15 tons per day, resulting in 100 pounds of extra return. Thirty-two pounds of return are reported from 70 tons Strawberry lode rock, and from other claims come equally good returns. We are assured the season's development at this camp has been most favorable and encouraging in every respect.
