Methodist Church, A severe epidemic, "measles," has been prevailing for several weeks in town and county, confined principally to children and youth.

Methodist Church, Closing Out. Having decided to close out all my goods with the exception of liquors and tobacco, parties will find it to their advantage to examine my stock of goods before purchasing elsewhere.

Methodist Church, "One who was clothed upon another's heels, so fast they followed," is what more than one person thought this week, as one after the other, the log cabin and little brick on Babcock street, and the Pease mansion, were rented, thus dashing their hopes to the ground.

Mrs. Wilkinson, mother and Mrs. C. B. Vaughan, sister of Henry Wilkinson, one of the publishers of the Times, arrived in town on Saturday's coach, having been called here from Helena by the serious illness of Mr. Wilkinson. Money is very scarce and tight, most of it being locked up in the safe of the First National Bank and the combination lock. Messrs. Cooper and Brawner, two of the greatest lock experts in town, were using their strongest persuasive powers on the inside door of the safe yesterday. We trust they will "get away with it"—not the funds of the bank, but the door. Our Contributions. We publish this week the first of a series of articles from the pen of J. V. Bogert, entitled "The Yellowstone Struggle." The articles will be completed in three issues of the COURIER, and will be found intensely interesting, the two yet to follow especially so. Our next week's issue will contain an article from Mr. Chas. Ancey, in reply to Mr. C. Edwards' recent articles in this journal. An Intelligent Dog. They have a very intelligent dog in the Photograph gallery. Last week, when all the folks were out, he pulled a number of books off the shelf, took the tobacco box to the middle of the floor, opened it and took a chew, and even found the denouement and drank the cork out. We didn't hear whether he drank the contents or not, but we presume if the boys had left any in it, he'd left for it was found empty. He then gathered a lot of views together that were lying on the screen, and the boys saw he was just about adjusting the chair in front of the camera, preparatory to taking his own picture, when he was discovered. He will be put through a course of training, and when he becomes a little more proficient, will likely be set up in business, and started down the valley on a business trip. He won't need to be advertised. If he keeps up his present lick, the noise he makes will attract customers enough. Bozeman Mining Company. The annual meeting of the Bozeman Mining Co. was held at Norwegian Gulch on the 27th ult. Horace Annis was re-elected President, J. V. Bogert, Secretary and Treasurer, and C. O. Dorr and J. Matthews, Trustees. Important business was transacted of interest to the company, and the important conclusion unanimously reached to open the canyon this season and to prospect for prospecting various parts of the property. An offer to purchase the entire property was not long since made, but the company wisely decides to make further development before considering any such proposition. Reliable parties appeared during the meeting with a proposal covering a lease of two years of a part of the claim—int considered at all it will be conditionally only. The splendid ditch is now running a full head of water, and both the company and adjacent claims are already panning out good gold. So favorable are the reports, and so encouraged the owners, that a gratifying result may be anticipated from the season's work. Gene, Has not Forgotten. Captain Todd has gone, and we presume, without entertaining very favorable opinions of some of the Bozemanites, for he had his own way about it, his wagons and harness might have remained strung out on Main street all summer, as they were the past winter; but of two evils he was wise enough to choose the least, and rather than have his wagons run over by a two-story building traveling along the street, he hired some man, who, unfortunately for the captain, had some "get up" to him, and when the wagons were started the man wanted to go on, and the Captain being too tired to say No, let him go, and has had to bid Bozeman farewell, and we are sorry that his rest has been disturbed. We know he needs it. A man who has performed the herculean task of traveling five miles a day in the summer time from Utah to Bozeman ought to be allowed to rest several years, that he might recuperate force and energy enough to perform the feat again; but as it is now, having his rest, what for as could be in store? He is making more than about three miles a day on an average, unless he has some one along with him who is in more of a hurry than he is. Goodbye, Captain; our sympathy goes with you, knowing that we may not see you again for months to come, for should you ever get a few hundred miles from here, it would take you about as many days to get back. The Delinquent Subscriber. One day last week, while sad and dreary, As we wended, weak and weary, Across the snowed floor; We heard, at first, a gentle tapping, Then it became an earnest rapping, At our sanctum door. "Come in!" we said; while yet he pondered, And in silence we still wondered, "What for as could be in store? Then, the door-bolt gently turned, In he walked. Our cheek was burning! Thoughts of crimson gore. "Are you the man who does the writing?" (What word will rhyme with this but fighting?) Quickly thought we, "Yes and no." "Sir, we are," we gently told him, Nodding to the boys to hold him, If he tried to beat us sore. "Then you'll please give me a credit Opposite that little debt, For two dollars more. I like your paper, and will take it As long as you will strive to make it As good as it has been before." We jumped! He dodged! Thus we missed him, Or we surely would have kissed him, No matter if the boys did roar; So when he read in this manner, We felt inclined to sing hosanna! Only this and nothing more. —Printer's Circular. A match game was played yesterday at Fort Ellis between the Bozeman Baseball Club and the Stars, of Fort Ellis. The game still goes on, as we go to press, so we cannot say which nine wins.

Final Organization. The adjourned meeting was held on Tuesday evening at 10 o'clock. The committee on location of track and grounds reported as follows: "We have examined the lands in the vicinity of Bozeman and find the most desirable location for a good track to be on the land of Mr. W. H. Tracy. About one-fourth of said land is railroad land, but claimed by Mr. Tracy, and that Mr. Tracy will sell the Association what land they want at ten dollars (\$10) per acre, including the railroad land. Said location is situated about one mile and a half from Bozeman." The committee on cost reported that they had estimated the cost of purchasing the land, grading and fencing a mile track and found the same to be about \$4,500. On motion, the reports were accepted and committees discharged. The report of Committee on By-Laws was then read and the By-Laws taken up by sections and adopted. The meeting then proceeded to election of trustees, the following board being chosen: J. H. Kennedy, S. H. Osborn, C. W. Hoffman, W. S. McKenzie, Geo. Ash, Geo. Herndon, Ira H. Pierce, J. M. Lindley and Thos. Lewis. On motion of Walter Coe, the following Soliciting Committee was appointed: C. L. Clark and J. D. Chesnut. It was decided that a levy of 25 per cent be immediately made upon all subscriptions, and the Secretary was instructed to procure a certificate of stock and record of the Constitution and By-Laws. Resolved, That the trustee secure 60 acres of the tract reported upon, with right of way of 60 feet; and that contracts for work and material be called for May 1st. Meeting then adjourned, subject to call of the President. NELSON STORY, President. J. V. BOGERT, Secretary.

NEWS FROM SHERMAN. Died in a Snow Storm—A Law Suit—Judge Allen's First Case. We make the following extracts from a private letter received from Robert J. Guy, dated Sherman, April 19, 1878: "The mail has been unable to start out for several days on account of a severe snow storm. You cannot imagine how severe it was. Lieut. Huntington is camped here with a company of troops for the protection of the citizens of Pease Bottom. Having no shelter for their horses where they are camped, they were compelled to take them to Thomas Cotter's, a distance of not over one half mile. Three of the soldiers returning to camp got lost. They started from Cotter's about 11 a. m. One of them came to our place that evening about 8 o'clock, claiming that the two he had lost were dead. But as the man appeared to be under the influence of liquor, we did not search for the lost men that evening. Next morning at 8:30 one of the others came in almost dead. Search began immediately. Three of his started out in different directions. I had gone but three or four hundred yards when I found him dead and almost covered up with snow. "During the storm we had quite a law suit, Judge Allen's first case. Two men were on trial, one for stealing and selling a sack of sugar belonging to Frank M. Murray. The other for hiding said sugar. Both were found guilty, and the one who stole the sugar, Chas. Davenport, was sentenced to be confined in the county jail three months. The one who hid the sugar, Mr. Thornton, was fined five dollars and costs. The costs were twenty dollars. "We are just finishing a new house (log of course), with shingled roof. COURT DOCKET. A new post-office has been established on Lower Smith river. It is called Chestnut. Wm. Rowe, of Fort Belton, has been appointed Deputy U. S. Marshal for Chouteau county. On the 15th, 16th and 18th inst. the First National Bank of Helena received 19,000 ounces of silver. James C. Orton sustained a severe fracture of the collar bone by a fall in Virginia city on the 29th ult. The contract has been awarded to Geo. A. Baker for furnishing grain to the troops at Ft. Shaw and Benton. The machinery necessary to start a wool grading and packing house in Helena has been shipped from San Francisco. Con. Kohrs, of Deer Lodge, has been making large purchases of cattle in Missouri. He will drive them to Laramie. Mr. S. E. Laramie, of Deer Lodge, met with a severe loss lately in the death of his fine thoroughbred brood mare, Widow McMeekin. Five bars of silver of the value of \$6,500 were received yesterday at the First National Bank from Grutte and Phillipsburg, Independent, 27th. H. M. Jacobs ("Grasshopper"), recently "jumped" Butte, victimizing his employer, Charles P. Warren, to the tune of \$125.00, just before leaving. From announcements published in the Salt Lake papers, it appears that the weekly shipments of silver bullion received from their Butte mine by Walker Bros. averages \$15,000. Twenty-eight hundred ounces of silver from Virginia City received from that district was delivered at the U. S. Assay Office Thursday. More bullion from that direction is to follow. Lieutenant Chase left St. Paul on the 6th of April with 212 recruits for Fort Shaw. They have since been ordered to wait at Bismarck for further orders, the 7th Infantry in Montana having been ordered to Dakota. T. C. Power & Bro. are shipping to Benton on the steamer Helena a corrugated iron warehouse, to be put at the head of navigation. The building is to have a length of 90 feet, a width of 25 feet, and is to be two stories in height. The lundy-house at Butte has been closed. Mrs. Mitchell, the proprietress, was indicted by the Grand Jury of Deer Lodge county at its late session. When the case was brought before the District Court, Mrs. Mitchell pled guilty, and was fined \$100. Surveyor-General Mason leaves Helena this week under orders from Washington, on an inspection tour of public surveys in Montana, and will be absent on that duty for five or six weeks. W. T. McFarland, chief clerk, will be in charge of the office for the time the Surveyor-General remains in the field. Custer county on March 1st, 1878, was out of debt and had a cash balance on hand, over and above all liabilities, of \$1,015.31. This is the only county in the Territory out of debt, and its county commissioners and other officers are entitled to a great amount of credit for the excellent manner in which they have conducted the business of the county. Last night Cole Saunders brought in from the Montana Company's works 2,673 ounces of silver. The same company last week sent in to the First National Bank 2,700 ounces. It is believed that when the company has its new 10-stamp battery and pans completed, their shipments will be equal to those of the best silver-producing camp in the Territory.—Herald, 3d ult. Last week George Gohn purchased of Sedman & McGregory, of Home Park Ranch, 120 head of graded steers. They are a fine looking lot of cattle and are a fair sample of the graded stock which these graziers are raising upon their ranch. Messrs. Sedman & McGregory are among the foremost of Montana cattle-raisers, and the excellent condition of their herds is a good indication that they thoroughly understand their business.—Madisonian. Messrs. Alex. McKay and Abe Thurgood went over to their mines on Biven's gulch this week, and will commence operations there for the season in a few days. Their works are among the most extensive on the gulch, and they anticipate better returns this year than for several years past. Other miners on Biven's are getting ready for ground sluicing, and the indications are that the yield from that place will far exceed that of several years past.—Madisonian. The quartz interests in and about Silver Star and Iron Rod have highly encouraging prospects. The mills of Dahler & Largey, at Iron Rod, W. W. Morris & Co., at Silver Star, and Charley Hineman, are all running day and night on first-class ore. Jas. Slaven is starting up his reduction works, and all the assays are or will be running in a few days. The Silver Star district will contribute plenty of money to the world's wealth this year.—Madisonian. At Twin Bridges, an individual named John Watkins, lately attempted suicide by throat cutting. The gash was made with the best intentions but it missed the jugular vein, and with proper care he will recover. He is now under close guard, this precaution being necessary to prevent the unfortunate from laying violent hands upon himself. As might be inferred, his mind is unsettled; but we were not informed as to the cause of his dementia.—Butte Miner. Yesterday Wm. Whetstone, of Jefferson, when returning to his home, had the misfortune to break his stirrup, which frightened the horse, who, making several jumps, succeeded in unseating his rider, who was thrown violently to the ground, resulting in his receiving some contusions on the head. A carriage was sent out one and a half miles to the scene of the accident, and Mr. Whetstone brought to the city and treated by a surgeon. The injuries received are not serious, but quite painful.—Herald, 30th ult. Quite a throng of people were yesterday in attendance in the Probate Court room, to listen to the proceedings of the trial of one charged with assault. The examination revealed the following: A lady who trips the light fantastic toe, in a Helena nudly establishment, had her best bet the other evening to demolish a person of the other sex with a chair. This article of furniture was thrown from her hands while the case of his gait fell somewhat below her shoulders with a startling velocity. She had him arrested and after it was shown that the female portion of the community was the attacking party, His Honor then released the defendant.—Herald. C. W. Cook & Bro. have just completed a large wool barn. It is seventy-five feet in length, thirty in width, and two stories high. These gentlemen have one of the finest locations for wool-growing in Montana and are improving it in a most substantial manner.—Meagher county's representative sheep
