MATT. W. ALDERSON, Editor.

THURSDAY, NOVEMBER 21, 1878.

THANKSGIVING PROCLAMATION.

In the name and by the authority of the Territory of Montana.

Another harvest season has returned, with the people of Montana...

In witness whereof I have hereunto set my hand and caused the seal of the Territory to be hereunto affixed...

Witness my hand and the seal of the Territory at Helena, this 21st day of November, 1878.

JAS. H. MILLS, Secretary.

News of the Week.

The cholera is raging to a fearful extent in Africa.

Two weeks from Monday we shall have some more Congress.

The Grand bodies of the L. O. O. F. of America, are out \$7,500,000 by the failure of their Grand Treasurer.

The fidelity of New Orleans is represented by the press of that city as a standing invitation to pestilence in every form.

Gold from Europe is now arriving at New York at the rate of about a million dollars per week.

Wm. H. Vanderbilt has just paid \$21,000 for the island of St. Vincent, in the West Indies.

—Owing to the famine in China, a large demand for breadstuffs from the Pacific has been developed.

A general in the Scientific American says that the electric light shall come into general use.

—It is predicted that the Sacramento valley will some day be the world's tea garden.

—The New York Tribune publishes evidence that the safe man that Tilden sent to meet West in Baltimore was Wm. T. P. Tilton.

PROSPERITY VS. RAILROADS.

The large increase in our population during the past two or three years, as indicated by the returns of the general election...

It is worthy of remark that our increase of population, of flocks and herds, of farms and stock ranches, and above all, the wonderful progress made within the past two years in the development of our gold and silver mines...

—The White House at Washington is to be conducted on temperance principles the coming winter, as it was last, and no wine will be furnished except at the annual diplomatic dinner.

—An establishment in St. Louis dries eggs by the hundred thousand. The eggs are broken, the yolk and white separated from the shell, the liquid dried by a patent process, and the dried article, which resembles brown sugar, is put in barrels for transportation.

—The officers of the Engineer Corps, to whom was entrusted the supervision of the work of river improvements in the West, have reported for submission to Congress their recommendations for appropriations to continue the work during the next fiscal year.

IS THERE A REMEDY?

The present indolence and financial embarrassment of Gallatin county is due, mainly, to the fact that we have been peculiarly unfortunate in having a large number of criminal cases to be tried at almost every term of the District Court...

Now, as we appear to be getting along so well, perhaps it will be admitted that our case can exist a few years more without railroads, or until such time as our local business will appear to justify Eastern capitalists to build one or more into our Territory as a regular business enterprise.

In our opinion, the less fuss and anxiety we manifest in regard to the matter and the better will be our chances and prospects for securing a railroad at an early day.

No company will be likely to build a railroad into our Territory without a subsidy or some other special advantage, or exclusive privilege, so long as the idea of a subsidy or other bonus is entertained as a possibility.

The idea of a direct subsidy having been generally ignored by the people, we now notice, with regret, that some of our Territorial exchanges are, in advance of the meeting of the next Legislature, more than hinting at a proposition to exempt the Utah Northern, when built into the Territory, from the payment of taxes for a term of years.

We trust that no such proposition will be advanced or advocated, but if it shall be, we hope, for the benefit interest of the Territory and its people, that the Territorial Legislature will meet it fairly and squarely in the face, "rip it in the bud," and allow no such questionable or dangerous precedent to be established in Montana.

Sentence of death has been pronounced by the assessor of King Alfonso.

GENERAL SHERIDAN'S REPORT.

The Causes Which Have Led to the Recent Indian Wars in the West, &c.

The report of General Sheridan to General Sherman on the operations of the Military Division of the Missouri, during the past year, contains so many matters of interest, facts and practical suggestions, especially in regard to the Indian situation, that we regret our inability, for want of space, to publish the report entire.

Repeating the removal of the Agencies of these Indians from the Missouri river, the General says: "There does not seem to be now, and there never has been, much steadiness in the management of the Indians, and if it were not for the results, which so severely involve the military, this would be none of my business and would not be mentioned here."

WHY WE SHOULD HAVE INDIAN WARS.

and again the remark is made that the English Government has been better than that of our own country.

The second outbreak of Indian hostilities is caused in this way. After he has lost his country and finds himself compelled to remain on a reservation, his lands are crisscrossed, his opportunities of hunting are lost, his game disappearing, sickness in his lodge from change of life and food, and insufficiency of the latter, and this irregularly supplied, and the reflection coming to him of what he was, and what he now is, and pinched by hunger, creates a feeling of dissatisfaction.

Washington, November 15.—The Governor of Montana submits the question whether the United States government will permit the British government to afford an asylum for our hostile Indians, and furnish them a safe place where they may recruit and replenish their supply of ammunition and again raid upon peaceful citizens.

Gov. Posts Recommends a New Military Department, with General Miles as Commander.

Washington, November 15.—The Governor of Montana submits the question whether the United States government will permit the British government to afford an asylum for our hostile Indians, and furnish them a safe place where they may recruit and replenish their supply of ammunition and again raid upon peaceful citizens.

—A passenger train jumped the track near Florenceville, Maine, on the 14th inst. One car, containing twenty passengers, took fire and one man and a boy were killed and fifteen persons injured.

Montana in a Nut-Shell.

There are now twenty-eight persons in the penitentiary.

Butte will have to wait for a telegraph line until next spring.

The military telegraph line between Fort Keogh and Deadwood is now in operation.

Magnin's majority over Or in Deer Lodge county so far as reported is over 1,000.

Mr. Bradley Barlow, elected to Congress as a Greenbacker from Vermont, was a partner with the Huntleys in their north-western stage lines.

A pyramid of gold bars of the value of seventeen thousand dollars was on exhibition yesterday at the First National Bank.

Henry W. Jones, Captain and Brevet Lieutenant-Colonel, and Assistant Quartermaster, U. S. A., recently went insane and has been taken from Fort Shaw to the East.

The indefatigable Superintendent of Missions of the Presbyterian Church in the West, Rev. Sheldon Jackson, D. D., was expected in Helena on the 16th and 17th of this month.

T. E. Collins has just purchased 600 head of oxen from Butte to Keegan for Capt. Chief of the Montana Cavalry.

Mr. Cha. L. Dabier, the well-known banker of Virginia City, has retired from the banking business, and in the future will devote his time to the development of his valuable mining interests.

The Denver Assay Office, designated recently by the Secretary of the Treasury as a bullion purchasing agency, instead of issuing coin certificates for bullion, pays therefor in coin and greenbacks.

Our old friend, Ira Myers, who has been to the Black Hills for a couple years, and made his "pile," returned to-day to his old home, and will hereafter abide with us. Welcome back to Helena.—Herald.

Jim Whitlatch, the first Montanain to attain large success in quartz mining, after having made and lost several fortunes has again struck it rich, this time in California, and has obtained some 500 acres of the richest ground in the State.

The three horse thieves—Fort, Jackson and Armstrong—were tried in the District Court at Helena on Monday, and were sentenced to the Penitentiary for one year; Jackson, one year

ANOTHER PLACE

—IN BOZEMAN TO BUY—

Patent Medicines, TO-WIT: At the Store With the "BLUE FRONT."

Just received, an assortment of fresh Patent Medicines, embracing among many others, PIERCE'S DISCOVERY, AYER'S CHERRY PECTORAL, AYER'S SARSAPARILLA, BUCHU, KENNEDY'S DISCOVERY, LUNG BALSAM, VINEGAR BITTERS, LAUFANUM, PAREGORIC, SWEET OIL, CASTOR OIL, GLYCERINE, KILLER, AC.

At an examination of Bar-ly J. Smith, on a writ of habeas corpus, before Judge Wade, it was decided that the charges and evidence were not of such a character as to warrant his being committed to trial.

Mr. and Mrs. Henry Klein, of Helena, returned from a visit to the sheep ranch and the White Sulphur Springs last week. While at the ranch Mr. Klein sold 1,500 head of sheep to R. C. Cleland and 1,500 to J. H. Severance, and let 1,000 to him on the shares, also sold 1,000 to Berry & Bro., and let 1,000 on the shares.
