Latest from Miles City.

[From our Traveling Correspondent.] THE FOURTH AT MILES CITY. A Grand Celebration on the Frontier - Soldiers and Citizens Unite in the Festivities. - Gen. Miles, President of the Patriotic Gathering - The Program as Carried Out - Chase into "Timber." - Race Ball, Racing, Walking Match, &c.

Miles City enjoyed a grand gala day on the 4th inst. The festivities were held on the military reservation adjoining the town, which allowed Gen. Miles to comply with the military regulations and also unite with the patriots of this place and surrounding country in celebrating the day.

As the assembly gathered about the speaker's stand, in the cool shade of massive evergreen, overlooking cottonwood trees, we cast an eye over it and noted the presence of a number of ladies and children bearing evidence of refinement and culture, and we were truly amazed; for we are now gathered here less than three years ago the hostile savage had his tepee pitched, and where he put on his war paint and danced his war dance, and planned his depredations on the nearby frontiers in places far remote; here, where only a few short months ago there was not even a "shack" to denote the presence and indomitable pluck of the white man, we were assembled beautiful and accomplished ladies, intelligent and worthy men, for the purpose of renewing their pledges to give public evidence of, illal affection for their country.

We cannot help the reflection that the privileges we are enjoying have cost the lives of many gallant soldiers and brave citizens; from that of Gen. Custer, whose name and fame have been heralded in every village of the land and even across the seas, to that of the ranchman of whom we only hear that "A man was killed on the 4th inst. yesterday, or the day before," and then pass it off as a "nothing." But to the exercises. After a few well-timed remarks by Col. Warner, he nominated Gen. Miles for president of the exercises. And the hearty Aye of the audience showed that he of all men was the one desired for the honored position. And right here let me say that it must certainly be gratifying to the General to see what a hearty response he elicited in this respect, brings from the civilians of this place. He is a man of the people, kind and courteous, ever ready to grant a favor if in his power, and with none of the pompous airs of many military officials. He is truly a man. Who can be more?

After a few remarks on the fitness and propriety of observing the day at this time and the president introduced Judge Carmichael, who read the Declaration of Independence, after which the Post band struck up "America," and the ladies fired a company of light muskets, ranging from about six to ten years of age, sang "America" and "Tally Ho!" The "Flag" very beautifully, and were heartily applauded.

The following toasts and responses (there being no regular order of the day): "The Day we Celebrate," by J. H. Garlock. "The Patriots of '76." The Signers of the Declaration of Independence," by Mr. Blaine. "The Territory of Montana," by Chas. Walker. "The Federal Union, now and forever inviolable," by Mr. McBride. "The Army and Navy," by Captain O'Toole. "Our National Flag," by Colonel Warner. "To the Memory of Gen. Custer," by the president.

The General, during a beautiful tribute to the memory of the lamented Custer, said that in his opinion a full and fair investigation - as there never has been one - of the sad tragedy of the Little Big Horn, would remove all blame from the heroic Custer, and although he (Miles) might not know the full facts in the case, he should ever believe the fault of that memorable disaster was not Custer's.

The only jar noticeable in the program as laid out by the committee was that of the part designated to the chaplain, and this the committee can not be blamed for, as the necessary material for that part could not be found.

The pedestrian match created a great deal of excitement. It was a twenty-four hour walk, "go as you please," the winner to receive twenty-five dollars, and the second best man to save entrance fee, which was ten dollars. The entries were, John Cannon, alias "Thunder Bug," Jas. McKinzie, D. A. Boehme and Wm. S. D. Smith. After making 18 miles, Boehme left the track, satisfied that if the Ashby belt is ever to come to Miles City it will not be worn by him.

The walk commenced at 7 o'clock p. m., July 31, with Smith as the favorite, he having made a successful walk of sixty hours in Deadwood. But Thunder Bug had many admirers and backers. The first five miles were made by McKinzie, and Smith in forty-six minutes. The first twenty miles in three hours and thirty-seven minutes, and fifty miles in ten hours and thirty minutes.

The same distances were made by Thunder Bug, respectively in fifty-nine minutes, four hours and nine minutes, and eleven hours and nine minutes. Soon after this distance McKinzie left the track, and remained off for quite lengthy intervals. Sixty-five miles were made by Thunder Bug in fifteen hours and fourteen minutes, by Smith in fifteen hours and fifty-five minutes. Just after his sixty-eight mile had been made, Smith fainted and had to be carried from the track, but he showed good pluck by returning again. But again feeling the symptoms was compelled to abandon the "traip." McKinzie made sixty-nine and three-fourths miles and threw up the sponge, Thunder Bug then having made seventy-nine and a half miles in twenty hours and forty-five minutes, all fainted.

The parties all went on the track without any fitting. The track was bad and the day warm.

The record is that the boys may feel proud of Thunder Bug taking a square heel and toe walk, with a stride of about four feet, and with proper fitting can easily make his one hundred miles in 24 hours.

The day passed off very peacefully and quietly, with nothing to mar the fest. I have attended celebrations in the States where prohibition laws were enforced (?), or at least supposed to be in force, and have seen men drunken and quarreling and fighting; and here, where there is a score of more places where all kinds of liquors are sold without limit, it needed no one, save a couple of soldiers, who were at the under the influence of drink. They were so much so that they could not be peacable. Miles City may well be exultant over this first celebration of the National holiday.

I shall have something to say of Miles City and its present business men in my next. The Indian White Bear is to be executed to-morrow at half-past ten o'clock. Black Wolf has a reprieve for thirty days, and I hear that there is a scheme on foot to have a commutation of his sentence to that of imprisonment for a term of years.

This I believe to be entirely wrong. Simply because he did not fire the shot that killed Baden, or wounded Kennedy, is no reason why he is not equally as guilty as either of the two who committed the crime. There can be no question but each of the three took an active part in the tragedy, and that during the entire afternoon, while two of them were trying to shoot Kennedy, the third was on a bluff overlooking the scene and signaling where Mr. Kennedy was situated. I do not believe in this sickly sentimentality, ever for the "poor Indian." EVAN.

Miss Henrietta Monroe arrived in town on Thursday night last, and gave readings and recitations to a large and appreciative audience at the Episcopal church on Saturday evening. The young lady's personal appearance is no doubt much in her favor, if having a direct tendency to place the greater portion of her audience in full sympathy with her. But, apart from such feminine charms as would almost an unconscious influence over most minds, Miss Monroe's readings and impersonations are a long way above average. In comedy she really "exels." Her renditions of the "Charcoal man," "How we caught the mouse," "The reading class at school" and "Entertaining her big sister's beau," were, in our opinion, equal to anything of the kind we have heard. In fact, the performance was quite creditable to Miss Monroe unless our observation and judgement are greatly at fault.

A terrible explosion of the powder magazine, occurred at the mines near Bodie, Cal., on the 10th inst., blowing the works and every thing in the vicinity to atoms. Eight persons are known to be killed, and over forty wounded, many of whom will die from their injuries. The magazine contained about five tons of giant powder. The cause of the explosion is unknown. The scene at the Miner's Union hall, used as a temporary hospital, is of the most heartrending character. It is crowded with the killed and wounded, and hundreds are anxiously seeking friends and relatives.
