

NEW NORTH-WEST.

DEER LODGE CITY, FRIDAY, AUG. 20.

THE NEW NORTH-WEST ALMANAC.

Table with columns for Sun, Moon, and other celestial data for August 1902.

CHRONOLOGICAL.

August 21, 1862—Battle of Bowling Green, Mo. August 22, 1864—Prof. Dinwiddie opened the first school in Montana at Virginia.

METEOROLOGICAL RECORD.

Table with columns for Date, Time, and various weather measurements.

LOCAL NEWS.

Episcopal Services. Divine service, Rev. Bishop Daniel S. Tuttle, officiating, will be held in the Court House, Deer Lodge City, Sunday August 25, 1892, at 11 a. m.

Moose Creek Mines.—From Mr. H. J. Stackhouse, of Deer Lodge, who, in company with Charlie Donnet, returned from Moose Creek mines a few days since, we have obtained the following concerning the diggings.

The Hot Springs.—Mr. Granville Stuart, who was with the railroad party on their trip up the Valley, informs us that the thermometer test of the warm springs, showed the temperature of the largest to be 113° Fahr.; a smaller one, 122° Fahr., and that of the hottest 201° Fahr.

KAN-KAN. ZIMMERMAN & ROBINSON. THE MOST POPULAR RESTAURANT IN MONTANA.

Falling.—The dry weather is telling fearfully even upon the best supplied of the 200 miles of ditches in Deer Lodge county.

Mr. A. S. TESSON, in another column, requests that Roger S. Lee should communicate with him.

Personal.—Bishop Daniel S. Tuttle arrived on Thursday's coach and will hold services on Sabbath morning and evening at the Court House.

"I Wish I Were a Little Flower."—Not many evenings ago, a party of amateur Troubadours, big with anticipations of the Orphean delights they were to twitter in the ear of night under the windows of beauty and by the habitations of the great, started on their nocturnal perambulations through Deer Lodge.

To Wagon It MAY COME.—Having been thought to a large amount of money by hope running in my enclosed papers and boy grounds, and having a good lawful and sufficient fence around the same, not, however, proof against him, I hereby give public notice, that from and after this date, I will dispose of all dogs found within the premises as may suit my convenience.

On Wednesday a Chinook gale in the Valley; heavy rains in Gold Creek, Montana; rain, sleet, and sleet snow in Boulder, Montana, and a chill, piercing pungency in the air everywhere.

Raid in Jefferson Gulch.—From Mr. Bradbury, of Huntley's stage line, we learn that a band of Blackfeet made a raid on Jefferson gulch in the beginning of the week, and captured all the stock.

Trotting.—A party of six gentlemen, Messrs. James H. and Phil. M. Brown, Henry and Zeno, Bill Hardbrook and Bob Harris, Esq., (the Hoodoo Chief) were on a driving and hunting excursion to Lost Creek on last Saturday and Sunday.

Is an exhausted in Deer Lodge. There is not an hundred weight left in all the four or five job houses that were filled last winter.

Theatericals.—Among the arrivals in Helena this week were Jack Langrishe, of happy memory, Mr. Mathias, the second-lippist artist, Mr. Geo. B. Waldron, one of the very best actors that we ever had in the Northwest, and his estimable wife, Mr. and Mrs. Shields, well and favorably known Montanaers, are expected to-morrow.

The other members of the company, including, we hope, "Jimmy" Martin, who, as Simon Slade, Melton Moss and two or three other characters, has no superior that we have seen, on the American stage, left Corinne on the 4th, under the Jesuitical care of Billy Wilson, and are expected soon. The theatre on Main street is unfinished, but the company will doubtless appear in the Wood street Theatre for a time, as it has been cleared. The season is not encouraging for theatricals, but Helena will support Langrishe to the best of its ability.

Nat.—A party of prospectors, Frank Gogler, H. B. Kenniston and William Leopold, left Confederate gulch some six weeks since, and have been prospecting in the vicinity of Lincoln and Jefferson gulches.

Yester day when mounting in Galena gulch, Leopold's horse became fractious and in "bucking," discharged the dragoon pistol buckled on Leopold's side. The shot struck him on the inside of the leg above the knee and passing down lodged in the limb. The wound is very painful. Mr. L., who was shot twice before while serving in the Union army, believes the bones are fractured. He was placed in a wagon and conveyed to Blackfoot—twelve miles—last evening. Dr. Mitchell was summoned from Deer Lodge, and left to-day to take charge of him.

STRANGERS VISITING THE METROPOLIS either on business or pleasure, will find the MAGNOLIA HOTEL, a pleasant place to stop during their sojourn in the City.

And there are our Native neighbors to the west. Feathering up to them from Deer Lodge, abated with timber and berry bushes; alive with trout, skinned and dried fish; drink beer in the evening, and antelope, are West Track, Lost, and Warm spring creeks, fifteen or twenty miles from town, the sporting excursion ground of Deer Lodge.

And there are our Native neighbors to the west. Feathering up to them from Deer Lodge, abated with timber and berry bushes; alive with trout, skinned and dried fish; drink beer in the evening, and antelope, are West Track, Lost, and Warm spring creeks, fifteen or twenty miles from town, the sporting excursion ground of Deer Lodge.

"Clever" Lion van from a Professional Note Book.

A dozen miles away, west, south by west, from Deer Lodge, is the eastern base of the Gold Creek Mountains. In many respects they are of Mesozoic strata—granite, sandstone, and limestone. In fact, they are a distinct and independent group of heavy foot-hills and grand peaks, nearly circular and having a base diameter of about thirty miles. It has its own system of mountain lakes and outlets radiating to every point of the compass.

It is a very interesting geological feature, and is situated, and the lofty granite crags holding up their old, gray hands to the heavens, lend imposingly with the lower precipitous slopes in their peculiar foliage, deepened to a sombre shade in the distance. Near the eastern edge of the cluster, towers, high above its fellows, Fox's Peak, its summit 3200 feet above the level of the sea and 4000 feet above the timber line. The highest mountain in Montana. From its summit, destined of old, where the stratified granite and sandstone, in lumpy shape and blocks, bear distinctly the stippled marks of ocean waves, there is a view 120 miles north, 100 west, 150 south and 300 east, giving the observer, at one view, a glimpse of the Atlantic and Pacific oceans, the Rocky Mountains, the distance across the continent. Layer upon its rounded sides, are yet lying snow banks thirty feet in depth. Nestled among the smaller peaks are eighteen lakes—seven 1000 feet in diameter, the highest at an altitude of 11,000 feet—having areas varying from four to nearly seven hundred acres, clear as crystal, cold as steel, and perfectly still. About twenty of their shores, and the lofty granite crags holding up their old, gray hands to the heavens, lend imposingly with the lower precipitous slopes in their peculiar foliage, deepened to a sombre shade in the distance.

And there are our Native neighbors to the west. Feathering up to them from Deer Lodge, abated with timber and berry bushes; alive with trout, skinned and dried fish; drink beer in the evening, and antelope, are West Track, Lost, and Warm spring creeks, fifteen or twenty miles from town, the sporting excursion ground of Deer Lodge.

French Gulch.—The boys had a little mining excitement at French gulch on Monday, Allen & Co.'s stores on their bar on the West side, was the immediate cause, and a stampede was made for 14 buildings in the recording of some forty claims. The bar is about 30 feet deep, 100 yards all the way. Mr. R. B. Campbell is now building a 700 inch ditch which will be completed this winter and carry water over that portion of the bar taken up. Allen & Co., are taking out good pay, using 100 inches of water. The Spanish claims are paying well. Some 50 men are at work on them, but water can only be had about three hours per day.

In the Sierra.—Mr. S. A. Willey, kindly remembered by hosts of Helena friends, to whom he dispensed educated lightning for a year or two, with grace, dignity and good nature, has turned up at Virginia, Nevada, still in the W. U. T. Company's employ. He is just trimming over with joyful appreciation of the West side. He writes us under date Aug. 11th, "Colfax and party had a grand reception here yesterday—fifteen four-in-hands, that would make your heart dance to see, and an army corps—length of other vehicles, under the guidance of humanity, were in the procession that met them at Elko and escorted them here. They have gone to Lake Tahoe and thence to the Bay."

As Reveil.—We are in receipt to-day of a note from Mr. E. S. Blackpole, of Highland, with the following: "Send The New North-West to my address—Napa City, California—where I expect to locate for the coming winter. May all good people and guardian angels take and continue a liking to you and The New North-West. Good bye." We substitute "as reveil," and give the parting hand to one of our best citizens. If good wishes could be transformed to flowers, E. S., your pathway would be ever amid roses.

That well dressed, happy, shrewd looking gentleman, who drove the handsome turnout up street to-day, had just been at Helena. He stalled his horses at Travis', boarded at the Kan-Kan, slept at the Oriental Lodging House, took his drinks alternately at "Mac's Brown Jug" and the "Klyus," bought his clothes at Hirschman's, insured his life with Carpenter, bought a new gown for the wife at Tontel, Leach & Co.'s and is prosperous, contented and square with the world.

In Justice's Court, Deer Lodge City, August 19th, before Justices Irvine and Newcomer—John Quinn, charged with assault with intent to kill Augustus Bantle. Held to bond in \$500 to answer at District Court, September term. Augusta Bantle, charged with assault with intent to murder John Quinn, discharged.

We are pleased to know the McKinstry House, on Friday evening, the 13th, was a splendid success. About seventy-five persons were in attendance, and "all went merry, etc." Mr. McKinstry purposes removing to Deer Lodge shortly, to remain during the winter, and that is good too.

The James Stuart mill at Phillipsburgh, started up on last Monday, after having laid idle several months. It is crushing hops once, of which there is enough mined to keep it employed several weeks.

Look out for the Iron Horse. It will be a beauty.

WINE, LIQUORS, TOBACCO, CIGARS

WINE, LIQUORS, TOBACCO, CIGARS
