LOCAL NEWS.

"Gene, A-lack like the Many."—Mrs. Brewster—seventh daughter of a seventh daughter by her natural father—

Mrs. Brewster's daughter, a seventh daughter by her natural father—An Egyptian (from Southern Illinois) born and "educated" with a gift to read the stars and (N. Y.) Sun, (without spelling a word), at the astonishingly low rate of \$5 for ladies and \$10 for gentlemen—

MRS. BREWSTER. The Seventh Daughter of the Seventh, wishes to inform the public that she was born with the gift to see a gentleman of Lady's past, present and future.

You who groan under the ills that flesh is heir to, who suffer in agony rather than incur doctor's bills, reflect upon what an opportunity—(a five-dollar opportunity) has passed never to be recalled—unless she comes back from Pike's Peak.

From the West.—Mr. Warren Whitaker of Spokane Bridge, W. T., came in from the West a few days ago and sojourns at the Scott House.

Walla Walla is flourishing and business lively. A large number of permanent settlers are coming in and taking up lands in the vicinity.

County Commissioners.—The County Commissioners met as a Board of Equalization, Aug. 2d.

There are twenty one farms of 100 acres each now occupied—principally taken up within the past year—and 2,600 acres are under fence.

Another Road Project.—We are informed by Mr. Meade, who has recently sold his old road, that it is his intention, in two weeks, to begin a graded road where his present one intersects the old on Little Blackfoot, and continuing down that stream and along the hills opposite his old station to the top of the divide this side, thereby shortening up the distance 1 1/2 miles and making a much superior road.

Justice's Blanks. Blank Summons and Subpoena for Justice Courts, for any territory or county in Montana, furnished in quantities to suit, at reasonable rates.

P. O. at Pike's Peak.—Mr. J. H. Meyer of Pike's Peak, has been notified of the location of a post office at that place and his appointment as postmaster.

German Gals.—From Mr. Fletcher of German, we learn that there are 125 to 150 men now at work in the camp, and the bed-rock some companies, of which there are 18 in the gulch, got fairly to work, cleaning up bedrock about July 15th, and are doing well.

Personals.—There was such a host of acquaintances in town last week, our columns were so overcrowded, and the hour of getting to press so late that the "Personals" were unavoidably pinched out.

—The slide in Upper Race Track ditch has been fully repaired.

—Dick Riddle drove Gilmer & Scully's coach in from Meade's today, in 1 1/2 minutes.

—The coach travel to Deer Lodge is much larger this month than was ever known before.

—Mr. E. D. Johns, J. P. elect for Louisville, is expected in this evening in charge of a prisoner.

—Dr. A. H. Mitchell, who has been in attendance on Mr. C. A. Huntley, at mouth of Cedar, reports his condition yet critical.

—Valliton & Co., contemplate adding to their lively stables to-morrow, the handsome buggy ever brought to the country.

—Messrs. J. B. Wilcox and G. McBirney have contracted for tin roofs to be put on their fire proof buildings which will soon be built on the corners of Main and Third streets.

—These are the Dog Days, and Sirius is the dog star. The Sirius results of the hot weather can be accounted for by this explanation.

—Mr. Wm. Wilson publishes the receipts and expenditures of the Parse Races, to-day, and like a faithful steward renders his accounts correctly.

—Mr. N. P. Langford called this evening—just in from the States and Helena. We were pleased to greet him, and to learn he will remain several days.

—W. A. Norton of Loon Creek—formerly of Blackfoot—and who was recently reported "missing," gave us a call this week. He has returned to Oro Grande.

—Messrs. Strang & Richardson have covered Pemberton & Kelley's fire proof building with a tin roof, and have the tin prepared for the roof of the Penitentiary.

—Mr. J. H. Brown will leave in the early part of the week to meet his daughter at Ryan's Station. She has been at school in the East, and this is, we believe, her first visit to Montana.

—Mr. Henry De Witt has purchased the most desirable lot in Deer Lodge—the Higgins lot, opposite Higgins & Bowles' drug store. We are informed it is his intention to erect a hotel upon it for \$100,000.

—The notices of the Excelsior Bowling Alley "for sale" merits notice. It is splendid property, in a desirable location, and rapidly increasing in value. A paying investment can be made by a good business man.

—Quite a number of excursion parties have been out at the head of Lost and Warm Spring creeks during the week, berrying. We understand goose-berryes are most plentiful now, the gatherers having become rather numerous.

—Messrs. Barry & Murphy, builders and contractors, yesterday raised a 20x30 frame, two stories of 11 and 10 feet respectively, for Michael's new Hotel on Main street, south of Valliton's brewery. The other portion of the frame, 42x50 feet—2 stories—will be put up in a day or two. It will be a fine building.

—There are 110 Chisamen at and in the vicinity of Blackfoot. They have also been buying ground rapidly in the Silver Bow country, in the past ten days, having acquired it more rapidly than ever before. There is no danger. Sit still and supinely everybody, all Yellow Jack has infected to the death the placer camps of Montana.

—Judge D. P. Newcomer, and our journalistic cotemporary, Mr. Addison Smith, yesterday purchased the interest of E. S. Newman, esq., in the celebrated Oro Fino mines and ditch, near Silver Bow, paying a good round price, but getting one of the best mines in the country.

—Two good runs of billiards—four ball carrom game—were made on Lane & Emerson's tables the other day, one by Thomas Stuart, of 502 points, and one by Mr. Harry Richmond, of 518 points. Poor players will be pleased to know the same cues, balls and tables are at their service for the usual price.

—We notice by advertisement in the Gazette that Mr. J. Gules Germain's cattle—the finest breeds ever brought to Montana—are to be sold under execution, August 18. There are 100 5-year old cows, and 30 calves, stoned by "Diamond," the celebrated short horn. As this sale is positive, it affords our stock raisers the best opportunity they have ever had of improving their stock, and we advise attendance on the sale.

—Schools.—Silver Bow, inquires if there is at present a Superintendent of Public Instruction of Deer Lodge county, and, if so, who is he?

—Mr. Robert Wilson is Superintendent, having been appointed after the resignation of Mr. David L. Irvine. He is at present in Missoula county. Mr. D. P. Newcomer is elected and will qualify Nov. 1.

—ROCKY MOUNTAIN DISPATCH, North-west Transportation Company, proprietors, THROUGH SLEEPS OF LINDSAY & BECKETT, runs over this line from all points West to the Pacific Railroad and RAIL TRAILERS to any point in Montana. For rates and particulars inquire of WATSON BROS., Agents, 21 Main St., Helena, 62-2

—MARRIED. Harry Cooley, in St. Paul, Virginia City, July 24, 1878, by Rev. E. N. Goddard, Virginia City, by Mrs. Mary Cooley.
