CONSUMMATION OF CONTRACT

To Build Branch Road From Helena. New York, March 4, 1886.

LOCAL BREVITIES.

See notice of St. Patrick's Ball, at Pioneer, on the 17th.

Go and see Winslow's new Regulator and set your watch.

White Fish for Lent, at Kleinschmidt & Co.

Lost—A bunch of small keys, on fat, steel ring. Finder please leave at this office.

The use of "Gospel Hymns" in the Bunte schools has been forbidden by order of the school trustees.

Subscriptions taken for all American publications at publishers' prices, at the Post-office.

A fine assortment of spectacles, eye glasses and smoked and blue Colored, just received at A. P. Winslow's, and for sale at low prices.

The contract for building the second story of the new court house was awarded to McConnell & McDevitt for \$13,000, work to commence on the 15th of May.

A car load of machinery on the way to our warehouse, consisting of Plows, Harrows, Cultivators, Pulverizers, etc.

The new bridge across the Hell Gate at Drummond is finished, but as it is rather light in good timber it will be a matter of considerable expense to fill in the approaches.

When you buy roasted coffee of us we will grind it for you free of charge, as we now have a large coffee mill—a perfect beauty, and works like a charm. A. Kleinschmidt & Co.

We are glad to learn that the Grand Jury of Silver Bow county found no evidence to sustain the charge of embezzlement against Daniel J. Welch, and that he was discharged and his bail exonerated.

If you happen to come near our place of business, drop in and see our new stock. We will take pleasure in showing you whatever you buy or not. A. Kleinschmidt & Co.

Sup. John W. Plummer, of the Granite mine at Philipsburg, in a note to us dated Feb. 23, says: "The mine looks fine. Our output for February will touch 135,000 lbs. of silver, and a good deal of gold—a large output for thirty days."

No farmer should sow his grain by hand when he can get a Hoe Seeder, which will pulverize the soil and sow grain at the same time and do the work to perfection. They are to be had cheaper than ever. Call and get prices. 866 17 BENNETT BROS.

Frank Conley, the well known deputy sheriff of Carbon county, has been appointed guard of the Penitentiary, vice J. H. Blenker, resigned. Mr. Conley entered upon his duties the first of March. It is a good acquisition to the guard force.

The weather in this valley, reported last week "beautiful as June," changed on Friday to reasonable winter, the thermometers marked 10° below zero on Friday and Saturday nights, but on Sunday there was a "let-up," and overcasts have been superstitious ever since.

Our enterprising watchmaker, A. P. Winslow, has received, and has running in his store, a fine French Regulator, gravity escapement, three-barrel mercurial pendulum—one of the best and most accurate clocks in the Territory. It stands nine feet six inches from the floor and is "a dandy" in its line.

The County Treasurer's office has been enlarged by cutting a door into the old County Clerk and Recorder's office, and putting a "ticket window" into the partition between the two rooms. Tax-payers, warrant-holders and license men will now have ample elbow room and a plenty of fresh air when they call on the Treasurer.

Probate Judge Emerson moved into his new "temple of justice" in the addition to the court house last Saturday. It is a beautiful room, furnished with a bar-calling, judge's rostrum and desk. The County Assessor will occupy the old Probate Judge's office, and expect to move in today.

Deputy Sheriff Wm. B. Logan, of Elliston, brought over on Wednesday a man by the name of Gallagher, who was convicted on charge of petty larceny by Justice Jeffries of Elliston, and sentenced to thirty days in the county jail. The rascal has been exercising his "high-fingered" practice on different parties in that locality for some time.

From the report of the grand jury of Silver Bow county we are pleased to learn that the firm of McConnell & McDevitt were exonerated from any complicity or desire to defraud in their transactions with the county commissioners while building the Silver Bow county court house. Their record as contractors is all that could be desired.

The County Commissioners have been in regular session this week, but no business of special interest was transacted except letting the contract for putting on the upper story of the new court house, and appointing H. R. Davis to examine the construction of the new bridge over the river at Drummond. Mr. Davis returned from that mission yesterday, and his verbal report is that the bridge is a substantial piece of work, the best in the county.

We are now prepared to show you the most complete stock of Dry Goods, Groceries, Boots and Shoes, and Gents' Furnishings and Hosiery, that we ever had, and the prices cut 20 per cent. cheaper than ever. A. KLEINSCHMIDT & CO. 869 17

A MILLIONAIRE'S MARRIAGE.

The Brilliant Event Which Transpired at Helena Tuesday Morning.

Special to Inter-Mountain.

HELENA, March 2.—Montana has seldom witnessed a more interesting social event than the marriage of Thomas Gray, the mining millionaire, to Miss Margaret C. Moore, of Helena. The ceremony took place this morning at 9 o'clock at the Roman Catholic cathedral, which was crowded to its utmost capacity.

Bishop Broderick, in a deeply impressive manner, read the happy union in the holy bonds of matrimony. A reception was held at the Cosmopolitan Hotel, beginning a hour later. The parlor and spacious dining room were decorated tastefully and elaborately decorated.

The first two floors of the hotel were almost entirely devoted to the reception of congratulating friends. The parlor, lobbies and banquet hall were thronged by the elite of Helena society. The reception has proved a genuine ovation which testifies the high regard in which the contracting parties are held.

The merry fringe of the festivity being to the bride from the hotel gives to the streets an unusual air of life and animation. "The District Court sanctioned little or no business, the presiding Judge and attorneys in attendance all being present at the marriage ceremony and reception.

At 8 o'clock this evening the dining hall of the Cosmopolitan will be opened and a grand ball will be given to all guests invited to the reception.

The Bishop Comedy Company.

This popular Comedy Company will appear at O'Neill's Theatre this (Friday) evening, March 5, in the brilliant comedy, "Widow Bedott," as played with unanimous success throughout the States.

The press along the route over which they have traveled speak in the highest terms of Mr. C. Bishop as a comedian, and the excellent support that is with him. Among the company are Messrs. W. Stannous, Wm. Lansing, C. J. Bishop, Parker and other finished performers. Reserved seats are now on sale at Coleman's store.

THE LYCEUM.

The Most Interesting Meeting of the Season. FEBRUARY 26, 1886.—Lecture met pursuant to adjournment. Both President and Vice President being absent, the house was called to order by the Secretary, and Rev. E. J. Greenwood was elected President pro tem.

Rev. Galen Wood was appointed critic. Dr. Owens read a poem entitled the "Irish Flag." H. B. Davis recited a short selection of poetry from Tennyson.

Mr. O'Bannon, who had been assigned for duty on this evening, and had been announced to read an original composition entitled "Immiscinences," appeared and delivered an interesting account of the experience of a night had and seen in crossing the plains in an early day. The composition being too lengthy for one reading, Mr. O'Bannon read only half of his manuscript, and will read the remaining half next week, 22d inst.

A number of interesting and amusing responses were given to roll-call, but as they were not collected, they cannot now be given. A number of interesting queries were asked.

The following is a list of queries assigned, to be answered at next meeting: What bill of Congress that afterward actually became a law, was at the time popularly known as the "Booby Bill"?—H. B. Davis.

In United States politics, who were the "Quids" and who were their leaders?—Miss Sallie Batterson.

In the early history of politics of the United States, a judicial law was passed and the judges appointed under it called "midnight judges"—What courtroom suggested the name?—L. Woolcott.

In the political history of the United States, give the facts in connection with the so-called "X. Y. Z. Commission"?—Rev. G. Wood.

Whom did the so-called "Copperheads" nominate for the Presidency?—Shelby Irvine.

Is the distinction between wisdom and knowledge?—H. H. Hunter.

In politics how did the term "Donaghe" originate, and to whom was it first applied?—Miss Aggie Irvine.

At one time, when the Senate was voting on the President's nomination for minister to England, the vote was actually arranged so as to make a tie, in order that the Vice President might have the deciding vote, to give him the opportunity of "reversing" one of the men whose name was under consideration. Give all the circumstances.—O'Bannon.

What magazine had Margaret Fuller and R. W. Emerson for its editors?—Mr. J. Y. O'Brien.

Give the tradition of the Gordon Knot?—Miss Phoebe Stuart.

Who was the first newspaper printed?—Willie Coleman.

What are the ingredients of "Grape Root Bitters"?—Dr. J. Owens.

Who was the originator of the Erie Canal?—Dr. Owens.

In what one of the States is the governor elected by the legislature?—L. Woolcott.

Who wrote the "Star Spangled Banner," and on what occasion was it written?—Mrs. O'Bannon.

Persons on duty for to-night are: J. Y. Batterson, Willie Coleman, Phoebe Stuart, Miss Anna Bies, Rev. Galen Wood and O. B. O'Bannon.

The last was one of the most interesting meetings of the winter, and the meeting to-night will be a good one.

Gentlemen, we can show you the handsomest line of Furnishing Goods, consisting of Norfolk and Newcastle, and real Lisle Thread and Ballingray Underwear and Socks, and Silk Suspenders. Novelties in Fanned Shirts, and Night Dresses, Parasol Shirts (collars attached, cuffs detached). Also Clothing for Gentlemen, Boys and Children in various styles, and we guarantee the prices all through. A. KLEINSCHMIDT & CO. 869 17

Montana Climate. The Union Star (Dows) says: The weather is not out in Montana. The lovers of base ball are allowed to get out on Sunday at Helena and play the first game of the season taking place last Sabbath. We should judge from daily reading the Helena Independent that Montana's crop of oranges, bananas and other tropical fruits will this year be unusually great. But joking aside, Montana, climatically speaking, is a great country, and when the Government makes up its mind that a land, a good section of land in India does not quite meet the needs of the nation to train his pony on, and throws the Crow and other reservations open to settlement, Montana will astonish the natives of the East in an agricultural sense.

New Goods at Deer Lodge Drug Co's. Some of the best makes of all brands, Solid Hair Brushes, Toilet Soap, Perfumery, Dressing Combs, etc. offered by us. A large assortment of Lullin's Genuine Handkerchiefs, Extracts, Colton's and others. 866 42

He may be rich yet.

Our new Spring stock is now nearly all in; our counters are loaded with new styles of Dress Fabrics, beautiful Carpets, new Hosiery, new Spring Wares, and the prices even lower than formerly. A. KLEINSCHMIDT & CO. 869 17

A THIRD RAIL TO BUTTE.

A Syndicate to Build Other Roads Discredited.

The St. Paul Pioneer Press of the 27th inst. contains the following dispatch, dated New York, Feb. 26:

"A dispatch to the Pioneer Press from Butte, Mont., on Feb. 21, stated that information had been received in that city that the Northern Pacific railroad would build the Butte branch this season. The dispatch also contained the statement that a syndicate of wealthy capitalists had been formed to build various roads in Montana. President Harris of the Northern Pacific railroad, when shown the dispatch to-day, said:—

"That portion relating to the Butte extension is correct. The Northern Pacific has made an arrangement with the Union Pacific by which we will run over the Utah & Northern railroad from Garrison to Butte. The Utah & Northern is a narrow-gauge road, but the section between these two points will be made standard gauge as before."

"This, of course, will be done by laying a third rail. Mr. Harris knew nothing about the syndicate part of the story, and was inclined to discredit it."

A Large Contract.

Helena Independent.

Upon a recent visit to the Ours d'Alcove mine, A. M. Eder consummated a deal with the owners of the Sullivan and Bonker Hill mines to concentrate the immense amount of fifty thousand tons of ore at \$8 per ton; in addition to which he is to handle and ship ten thousand tons of ore from the same mines which will be suitable for shipment without concentration. Works for dressing this ore will be completed at the mines by the first of June of a daily capacity of fifty tons. Mr. Eder says he expects to pay the owners of these mines over one million dollars as their share of the proceeds. The ore will be shipped from Butte to the Northern Pacific Railroad.
