DEER LODGE, MONTANA, FRIDAY, MARCH 13, 1896.

WHOLE NO. 1191.

Three Cheers

FOR THE

Red, White and Blue

THE BROAD STREETS AND BRIGHT SPACES of our national flag always bring forth an expression of true patriotism that nothing else can, and the colors, Red, White and Blue, are always beautiful to an American eye. But these are only a few of the many beautiful colors that are found in the Sherwin & Williams paints, which have made beautiful so many homes, and are always the pride of a true housewife. But beauty and fragrance go hand in hand. This was shown by the great rush of last week for these free samples of Palmer's perfume which we were giving away, and the great sale of perfumes that followed the giving away of these samples. We carry the largest line of Wright's Palmers' and Pinaud's popular odors of any house in Anaconda, and our prices are lower than ever.

Take Dr. McHenry's Vegetable Sarsaparilla for the blood.

Standard Drug Company.

The Rustling Druggists.

212 E. Park Ave., Anaconda.

OPEN DAY AND NIGHT Telephone No. 37.

Hallahan & MacCallum

ANACONDA, MONTANA.

Wholesalers of—

Wines, Liquors & Cigars.

We carry the largest stock of these goods in Deer Lodge county. We buy our Wines and Liquors in car-load lots direct from the producers and we can sell at the lowest market figures.

Agents for—

H. McKenna Hand Made Sour Mash Whiskey,
Anheuser-Busch Budweiser Beer,
The Carmenita Cigar.

Hallahan & MacCallum.

IN THE COPPER CITY.

A Resume of the Most Notable Events Transpiring During the Week—Notes and Personals.

By a Special Correspondent of The New Northwest.

ANACONDA, March 11.—Annie Singlaub of this city is suing Caspar Singlaub, her husband, for a divorce. The suit has been instituted in Deer Lodge. The complaint which Annie has filed, through her attorney J. H. Duffy, goes on to tell how they were married in the city of Anaconda in 1889, and how for the past two or three years at their home in this city her husband has continually subjected her to the most scandalous cruelties. She says Caspar is a nasty, mean thing; that upon repeated occasions he has called her vile names and accused her of having sustained improper relations with one John Nicholson, and also with several other men. All these accusations are positively denied by Mrs. Singlaub. She says they are false and unjust, and that they have caused her intense mental suffering and great anguish and more than her share of pain. She asks the court to cut the knot that ties her to Caspar. John Nicholson, the man whose name has appeared in connection with this case, is on the warpath too. He says Singlaub lies and is an infernal rascal. He says that he never had anything to do with the woman; that he knows her, having worked in the neighborhood where the Singlaubs reside, but that he has never been on intimate terms with the woman. Nicholson says that if Singlaub does not walk in a straighter course hereafter, and if he persists in making accusations of a serious character against parties who are innocent, that something is liable to happen which will dissolve the bonds of matrimony between Mr. and Mrs. Singlaub before the district court has a chance to act upon the matter.

The news first announced in these columns that Con Hayes, the lessee of Gregson springs, intends to erect a splendid hotel and bathorium at that popular resort this summer is received with a good deal of approval in this city. Architect Lane has drawn the plans for the proposed improvements at the springs, and the work of construction will commence early in the spring. The plan is to erect a hotel with 50 rooms and a plunge bath, 50 by 100 feet. All the buildings will be heated by hot water from the springs and will contain every modern convenience. People in this part of the country have long wished to see something done towards making Gregson springs more attractive as a health resort. The water is unquestionably the best in this part of the world. It is a delightful place for persons to recuperate and rest, and under Mr. Hayes' management it promises to become very popular with Anaconda people. Mr. Hayes has a lease, running for ten years, with a bond upon the property. The probability is that he will purchase the entire property before the lease expires. In the meantime Anaconda is glad to learn of the contemplated improvements.

John Cuffe, the police officer who was charged with assault in the second degree upon the person of C. J. Walsh, attorney, has been bound over to answer to the district court. This is a case which has attracted a good deal of attention in this city, and it has been dragging along for some weeks. The witness Smith, or Comroy, who testified that he was in the cell in the city jail at the time that Cuffe made the assault upon the attorney, has also been bound over to appear as a witness in the case. Being unable to give bonds for his appearance at the trial he was committed to the custody of the sheriff.

Following the suggestion first made in the columns of the New Northwest some weeks ago, a number of business men of Anaconda will meet this week for the purpose of discussing the plan for a new opera house in the Copper City. Many of the business men here have become aroused to the necessity of taking an active interest in this important matter. In a general way it is well understood how necessary it is for this city to have a suitable opera house, and it is also very well understood that under present arrangements the city is the loser to the extent of a good deal of money from the fact of our not having accommodations for first class theatrical attractions. The old policy of a great

many prosperous men in this community permitting one man to take hold and push to completion all of these projects important for the general advancement of the city, is becoming mighty unpopular. It is now regarded in many quarters as being very unwise to permit the city to suffer for lack of interest on the part of men who are making their money within the corporate limits. This city has grown to such proportions that it is no longer possible or practicable for any one man, no matter how wealthy or ambitious-spirited, to provide every convenience which the city demands. The people who are sharing in the prosperity of the place are now called to put their shoulders to the wheel and help push these good works along. Men who have made fortunes here, while equally bright men have met with disasters in other sections of the state, are becoming aroused to the fact that Anaconda requires united effort on the part of all the citizens. An opera house is needed and the men with money must help to build it. There is not the slightest doubt but that the money invested in such an enterprise would pay at least a reasonable interest. It would be a safe investment for the persons putting their money into it, and it would be a splendid thing for Anaconda in a general way. The plan under discussion involves the construction of an opera house to cost about \$30,000. It is believed that very easy terms can be made with the townsite company for a suitable site in a central location, and it is also understood that if the business men of the city will take an interest in the matter and show their appreciation of the enterprise by contributing a part of the funds necessary for the erection of the building, that a liberal sum could be obtained from men who have always had the best interests of Anaconda at heart, and who have never been backward about putting up their full share or more. This opera house question should be taken care of immediately. It behooves the public spirited citizens of the Copper City to get it in a business way and take handsome care of it in the immediate future. We believe this will be done.

The different political parties hereabouts are on the move. Calls have been issued for a meeting of the democratic and populist city central committees. The meetings will be held Saturday evening when the question of nomination of the four aldermen to be elected in Anaconda this spring will be discussed. The republicans thus far have made no move. There have been suggestions that policies be eliminated from the contest this spring and that one good man in each ward be selected to run for alderman and that there be no contest. It would be a right good thing for the city if this could be done; but it very probably can't. At this period in Anaconda's history it is of supreme importance that good, sensible, substantial and progressive and public-spirited men be elected to the city council. But the partisans will probably want to get their fingers into the pie and the chances are that any attempt to elect good men upon a citizen's ticket would meet with failure.

The democratic county central committee has been called to meet at J. M. Kennedy's office in Anaconda on Saturday, March 31, at 1 o'clock. Business of considerable importance to the party organization will come up for consideration.

The Recorder last week published a ticket which it said the people of Deer Lodge were discussing for the fall election in this county. It was a mixture politically and was headed by A. M. Walker for sheriff. The New Northwest does not know that it is Mr. Walker's intention to be a candidate, but if it is, he will get strong support in this part of the county where he is well known and very highly esteemed for his many sterling qualities. He is a hard-headed, honest business man and public business is safe in his keeping. In one respect at least the Recorder's ticket is off. It names J. M. Kennedy as a candidate for clerk and recorder. Mr. Kennedy has stated positively he is not a candidate for any office and will not be.

On Monday evening, March 10, at Evans opera house Ex-Congressman John P. Finnerty of Chicago will deliver a lecture upon "The Story of Ireland." The lecture will be under the auspices of the

local branch of the Irish National Alliance. There are few more eloquent or entertaining speakers in America than Mr. Finnerty. A man of commanding personnel, deep learning and possessed of all the eloquence and fire of his race, he charms all who hear him talk. Those who miss hearing Mr. Finnerty's address next Monday evening will miss the best entertainment of the kind that has been presented in Evans opera house. A good musical programme has been prepared, and already tickets enough have been sold to insure a large audience.

ON THE SIDE.

Little fellows from Anaconda that should have a heat put on 'em. Marcella Daly will return from the east in a couple of weeks.

During the week a daughter was born to Mr. and Mrs. Hugh Early.

Daly & Maron have a good trade because they keep good goods.

The celebrated "Minnehaha" Flour, Tripp & Draegstedt, Agents, 308 E. Park Ave., Anaconda.

For stylish teams and good single roadsters go to the Warren Springs Livery Stable, D. D. Twigg, proprietor.

If you are going to take your best girl out for a drive, call at Twigg's Livery stable and get a nice horse and buggy.

Frank Kennedy keeps a fine variety of cigars and tobacco. Fresh candies always on hand. A full line of stationery, knives, razors and smokers' articles.

A daughter was born to Mr. and Mrs. Michael Cosgrove at their home in this city on West Park avenue last Sunday morning.

James Salebis is now in San Francisco and will return to this city in a short while. His health is said to have improved considerably during his sojourn in the south.

J. A. King, one of the most prosperous and popular merchants in the Copper City, returned from his business trip in the east last Wednesday. Mr. King was accompanied on his trip by Ruth, his bright little daughter.

Gilbert Barrett of Deer Lodge and James Coleman of Miles city have purchased the school building and business belonging to John Birson on Chestnut street, in this city, and the new firm will take possession about the first of the month.

A typographical error in the New Northwest last week put the A. P. Apes in the wrong hall. The state convention was held in the Mattie block hall, not in the hall over the Centennial. The full over Folger's is used for nobler purposes.

Bob Greig is doing an enormous business in bicycles this year. He has sold a great number of wheels this year already, and the prospects of future trade are very bright. He has secured the services of an expert bicycle repairer, and his repair shop is always doing a big business.

A building and loan association has been started in Anaconda, and is meeting with a good deal of success. A great many homes will be erected in this city during the coming season, and the building and loan association will be of great assistance to many poor persons otherwise unable to secure the money to erect a home.

Tuesday was pay day at the upper works, converter, refinery and Standard Fire Brick company. The lower works and foundry paid on Wednesday. The amount of money paid on this pay day was even greater than it has been for the past three or four months, and the business men in every line of trade reaped a rich harvest.

GET YOUR \$5 READY.

The County Assessor will Soon be Abroad in the Land.

As Assessor Schwend will soon begin assessing the county, it behooves all good citizens to be in readiness for an interview. We are informed that, in addition to his assessment work, the law requires him to collect a road tax of \$3 from all citizens over the age of 21 years. This, in addition to the poll-tax of \$2, makes a total of \$5, which the assessor must collect from every one. Assessor Schwend will be assisted in his work by C. L. Emmons and D. H. Morgan, the latter doing the office work.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years with severe pains in the back and also that his bladder was affected. He tried many so-called kidney cures but without any good result. About a year ago he began to use Electric Bitters and found relief at once. Electric Bitters is especially adapted to the cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. H. Owings' City drug store. 15-1y

ALL OVER THE STATE

PASSING COMMENT UPON EVENTS OF SEVEN DAYS.

Good, Bad and Indifferent, all Classes of People Find Mention in These Columns If They Succeed in Doing Anything Really Worth Mentioning.

The Bitter Root Times says that Dr. Brown's meetings at Hamilton are "a howling success."

Ed. Simpson, the well known mining man, is able to be out again after having been seriously ill for several weeks.—Missoula Republican.

The city council of Billings has sold to Parson, Leach & Co., \$25,000 worth of refunding bonds, bearing 6 per cent. interest. The price paid was par.

What's the matter with Cuban bonds in exchange for Montana cavalry horses? The Montana mustang is just the animal for the Cuban guerrilla.—Madisonian.

If the recent photographic discovery makes it possible to see through one's hand, what is to become of the great American game of poker?—Silverite.

Supreme Court Clerk Webster, of Helena, will print your visiting cards cheap. He will also correct your spelling and grammar, free of charge.—Bozeman Chronicle.

A son was born to Mr. and Mrs. Cobb of Cascade, Mont., on February 29. If the little Cobb lives he can celebrate his first birthday on February 29, 1904. His little toes may be covered with corns by that time.

The report of State Treasurer Wright for the quarter ending February 29th, shows that the balance on hand Dec. 1st, 1895, was \$273,034.89; received during the quarter, \$114,359.96; paid out during the quarter, \$385,675.29; balance on hand, \$907,719.54.

Judge Buck of Lewis and Clark county has given the board of appraisers of that county an extension of 30 days in which to fix values of all real estate for purposes of taxation. Judge Buck holds that improvements are a part of the real estate and as such the appraisers must fix their valuation.

Gov. Botkin need expect nothing of his party. He is only a party convention. He is able, ready, earnest, but he isn't in the ring. He can be lieutenant-governor again, or fill some office that no one wants, but the plums are "ac for Alack." He may as well recognize his place and take it.—Helena News.

The supreme court of Montana has decided the arid land bill to be constitutional, sustaining the action of the board in every particular. This will likely insure a market for the state arid land warrants, in which case it will doubtless permit the arid land commissioners to prosecute the work of reclaiming arid lands of this state vigorously during the coming season.

Ex-Manager Conrad, of the Montana Coal & Coke company at Torr, is causing no end of trouble in that camp. He has incited a lot of lums to try and drive out the new superintendent and get himself established in that position. If the miners of Torr knew as much about Conrad as the Red Lodge people do, they will not have anything to do with him.—Red Lodge Picket.

Dr. W. A. Burleigh, who died at Yankton, S. D., on March 8, was one of the most noted pioneers of the west. He went to the territory of Dakota in the sixties with a commission signed by President Lincoln in his pocket, was a delegate in congress from that territory and repeatedly elected to the legislature. He came to Montana and settled in Custer county, being elected to the territorial legislature in 1881. He finally moved back to South Dakota to spend the remainder of his life among his first associates in the west. Dr. Burleigh was 75 years of age and was the father of A. F. Burleigh, Northern Pacific receiver.

Nine men came down from Mr. Harlow's railroad, on Sunday last, having quit. They had a fair supply of surplus shoes and clothing, which they were willing to sell cheap. One thousand dollars face representation of "certificates" was held by the nine men as their net earnings. For a pair of shoes they could get a few drinks, but for the whole batch of certificates they could not get a schooner of beer. These men are led to believe that they can get cash for these warrants somewhere in Helena at a slight discount. We have not been able to locate the speculator who will pay anything for them, and if such exists we will willingly advertise the same free, so these hard-working men can know what they are worth.—Townsend Messenger.
