

The New Northwest.

VOL. 27, NO. 37.

DEER LODGE, MONTANA, FRIDAY, MARCH 27, 1896.

WHOLE NO. 1193.

IN THE COPPER CITY.

A Resume of the Most Notable Events Transpiring During the Week—Notes and Personals.

By a Special Correspondent of The New Northwest.

ANACONDA, March 26.—The politicians are beginning to stir. The democrats will hold ward caucuses tomorrow evening in all the wards of the city to name delegates to the democratic convention which meets in Standard hall on Saturday afternoon to name candidates for aldermen. There are no avowed candidates for aldermanic honors upon the democratic ticket, although good men, it is understood, can be induced to accept the nomination. In the First ward Tom Murray, who is a sterling democrat, a good citizen, and a popular man will probably be the democratic standard bearer. Peter Cox, at present alderman from the Second ward, will accept a re-nomination. He has the respect of every resident of the city independent of politics. In the Third ward the democrats have no avowed candidate. The delegates will find no trouble in picking a good man; the names of half a dozen prominent property holders and staunch democrats have been mentioned as democratic nominees. The Fourth ward democrats will probably place in nomination J. V. Collins, a bright and popular young business man, who couldn't be beaten with a club in that ward. The republicans haven't yet decided whether or not they will take a hand in this aldermanic contest. They would like to, but what's the use? All other things being equal the democrats can elect any good, respectable man whom they nominate in this town. The populists don't appear to be making much of a rattle for their candidates, but they may be working hard just the same on the quiet. The main consideration with the citizens of Anaconda at this time is to get a representative and sensible lot of men in the city council. This will be an important year in the city's history, and business-like and progressive management is essential in civic affairs.

The fishermen who went to Butte from this city on the 17th say that the parade in that city in honor of St. Patrick was one of the most imposing demonstrations ever witnessed in this state. The Sons of Erin in the Silver City turned out several thousand strong and the day's ceremonies were marked by many impressive incidents.

The many Anaconda friends of Pete Hale, of the Hale house in Butte, were pained to hear last Saturday that he had been somewhat seriously injured by a fall from a scaffold at the rear of his house early that morning. He stepped upon a loose board and fell about 15 feet, striking upon his shoulder. Mr. Hale was here today and while he is able to be around he still suffers a good deal with a lame shoulder. One of his arms is almost powerless as a result of his fall.

A twenty thousand dollar hydraulic riveting plant is now in course of erection at the Tuttle Manufacturing company's works and will be ready for operation within a week or 10 days. It is one of the best plants of the kind ever erected west of the Mississippi river. The rumors are to the effect that when Marcus Daly returns from the east, which will be inside of two weeks, that the matter of the machinery for the proposed new smelter will be disposed of. It is said the Tuttle company will do most of the work upon the new plant. The construction of the new railroad on the south side of the canyon will not begin until the spring is pretty well advanced. Such are the indications at present at least.

The subscriptions to the stock in the new opera house have been liberal beyond expectations. It is almost an assured fact now that Anaconda will have a modern playhouse before this time next year.

The venerable Dr. Mussigbrod of Warm Springs is in Anaconda today on business. Next Tuesday Dr. Mussigbrod and his wife will leave for Germany where the doctor will undergo a surgical operation. Ten thousand people in this community will rejoice to hear the news if the operation is successful.

There are many small buildings now in course of erection in Anaconda and the outlook for the building trade this season is very bright. Among the many new buildings contemplated is one to be built by A. M. Walker upon his property on the corner of Park and Oak. It will be a handsome two-story brick business block. On the corner of Park and Cherry T. O. Davidson intends to put up a fine two-story brick business building. Hon. J. R. Walkup has the plans drawn for a magnificent residence which he intends to build on his property on the corner of Maple and Sixth. The exterior will be

pressed brick and cut stone and when completed this will be one of the finest residences in Anaconda. Tom Butler of the Standard is going to build a fine lodging house and business building combined. The school trustees contemplate building a new school house on Fourth street in the Eastern addition. Anaconda is doing quite well, thank you.

ON THE SIDE.

Little Fellows From Anaconda That Should Have a Head Put On 'Em.

Daly & Maron have a good trade because they keep good goods.

The celebrated "Minn-haha" Flour, Tripp & Dragstedt, Agents, 303 E. Park Ave., Anaconda.

For stylish teams and good single roadsters go to the Warm Springs Livery Stable, D. D. Twiby, proprietor.

If you are going to take your best girl out for a drive, call at Twiby's livery stable and get a nice horse and buggy.

Frank Kennedy keeps a fine variety of cigars and tobaccos. Fresh mangled always on hand. A full line of stationery, knives, razors and smokers' articles.

WASHAKIE'S MURDERERS.

They Are Brought Before the United States Court at Helena.

Marshal McDermott, of Wyoming, arrived last night from the north with Jack Lamoreaux and Calvin O'Dell, the murderers of Washakie Jim, the Shoshone chief, who were captured a few days ago in Idaho. The prisoners were brought into court before Judge Knowles at 2 o'clock this afternoon for order of removal, in order that they could be taken to Wyoming for trial, says the Helena Herald of last Monday.

The men are an interesting looking pair. They can hardly be called men, for O'Dell, the white man, is a little more than 18 years of age. He is dressed in a loose fitting suit of gray, with strips of burlap around the bottoms. He also wears a flaming red necktie and a black slouch hat. The other prisoner is a Shoshone half-breed, and a typical one at that. His teeth are about three inches high and he wears a white handkerchief around his neck very jauntily. He is the more talkative of the two, but neither of the men say much about their crime, the murder of the best-hearted Indian that ever walked. They came down Main street, attracting no little attention, being ironed together and carrying themselves as if they were the best men in town. The order of removal was issued, and the men will be taken back to Cheyenne tonight.

GRANITE COUNTY NOTES.

From the Phillipsburg Mail.

Kronitz and McLeod have secured a contract from the Bullion Gold Mining company to drive the tunnel an additional 300 feet. The Bullion lies east of the Royal on the Rock creek watershed.

Two of the trial jurors who appeared before the court for duty Monday afternoon were decidedly under the influence of liquor and Judge Brantly, after giving them a fatherly talk, sent them to the county jail for 24 hours each.

A young son of Mr. and Mrs. Nelson Robins, who reside near New Chicago, died last Saturday of diphtheria. Another child of Mr. and Mrs. Robins is afflicted with the dread disease and there is little hope for his recovery. The county physician and health officers are doing all they can to prevent the spreading of the disease.

Rev. H. S. Taft has been appointed superintendent of the Navajo Indian mission in Arizona. He has been relieved from the New Chicago circuit by Presiding Elder Stull and expects to start for his field of labor April 1st. The members have not been informed who will take up the work in this place.

The End of the World.

Mr. Jas. Johnson of this city who, three years ago, sold his farm in order to await the coming of the end of the world, which, according to his interpretation of the bible, will occur this year, has fitted himself out with provisions and is preparing to go to the mountains where he believes he will be secure. Mr. Johnson's family will accompany him and he is at present preparing a large supply of provisions for the trip. It is said that he has selected some place in Washington or Oregon as a point of safety. Mr. Johnson is a deep bible student, and it is

said he knows every line in that book. For awhile he was a Methodist, and built a church in this valley; but he has since become a Seventh Day Adventist and during the years he has been waiting the end of the world, he has spent a considerable amount of money for literature.—Bozeman Chronicle.

A Convict Wants His Children.

Frank Conley of Deer Lodge was in Butte yesterday on a mission for William Knox, a convict at the penitentiary, who has been sued by his wife for divorce, says the Butte correspondent of the Standard of Wednesday morning. Knox was sent up from Missoula for man slaughter for 10 years and will be out in about two years more. The couple have three children, who are at present in the custody of Mrs. Knox, but the man's mother, who lives at Logan, Utah, is anxious to take them. Knox sent Mr. Conley to Mrs. Knox to urge the proposition upon her. She will probably consent to let the children go, and has taken the matter under consideration.

IN ZOSEL DISTRICT.

The Lively Little Camp is All Right—New Locations, More Locations, Etc.

W. B. Matheson, who is working some properties in Zosel, came down from that camp the first of this week and remained until yesterday, when he returned in company with J. C. Shaubar. "Ped" says the camp must be seen to be appreciated. New locations are being made every day, while good progress is being made in development work on the older claims of the district. Aside from the Emery, which is fast coming to the front as one of the noted producers of the state, without exception all of the properties on which work is being prosecuted are showing up in a manner entirely satisfactory to all parties interested.

During the past week a force of men have been put to work on the Wake-Up-Jim, a claim owned by Jacob Hitz, and several other properties in the district have been leased. The lessees of the Argus are now taking out ore and expect to make a shipment soon. Joseph Peterson and others, who have been working on the Hidden Hand, are also getting in shape to make a shipment.

There seems to be a "hitch" somewhere in the leasing of the Carbonate Extension. It was reported yesterday that the lessees were having some trouble among themselves and that they had concluded to throw up the lease. Should the report prove true, it will be a disappointment to the owners of that property, notwithstanding other parties stand ready to take hold of it in case the lease is forfeited.

The recent establishment of a daily stage line between this city and the camp is proving a great convenience to visitors and those having interests in the district. The stage leaves Deer Lodge soon after the arrival of the 10 a. m. train from Butte and arrives at the Emery about noon. Returning, leaves Emery about 2 o'clock and arrives in Deer Lodge about 4 o'clock.

Beware of Counterfeiters.

Who infest the market and are the means of robbing sick people of their money, and what is of still greater consequence of not unfrequently aggravating the complaints under which they labor. It is an act of duty we owe to society to warn the people against these dangerous frauds. A little care on the part of the purchaser will protect them from imposition by bearing in mind these facts: Never buy where it is offered in bulk, (in kegs or jugs) as the genuine Hostetter's Stomach Bitters are sold only in bottles having the handsome steel plate label displaying the combat between St. George and the Dragon, and having at the bottom a miniature note of hand for one cent, bearing a facsimile of the signature of the president of the company. Over the cork is a metallic cap, on which is impressed the name of the article, together with a medallion head in the center. Any person selling the counterfeit Hostetter's Stomach Bitters we shall not hesitate to bring to justice, as we never fail to convict.

Cure for Headache.

As a remedy for all forms of headache, Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it at once. Only 50c at J. H. Owings & Co.'s drug store. 11-1y

Hood's pills are purely vegetable and do not purge, pain or grip. Sold by all druggists. 11

ALL OVER THE STATE.

PASSING COMMENT UPON EVENTS OF SEVEN DAYS.

Good, Bad and Indifferent, all Classes of People Find Mention in These Columns If They Succeed in Doing Anything Really Worth Mentioning.

The Helena Transcript, an independent Sunday paper published at Helena by A. H. Hersey, has ceased publication.

The Red Lodge Picket says the ranchmen have contracted their oats to the Shoshone Ditch company for \$1.50 per cwt., delivered.

Senator Ramsdell of Kalispell, a populist member of the last legislature, has started a newspaper in that city and christened it The Call.

D. E. Sanders, president of the Kansas Normal school at Fort Scott, Kansas, has applied for the position of principal of the State Normal school at Dillon.

The shortage of the Cuban sugar crop this year promises to reach the enormous figure of 900,000 tons. Where is Montana's sugar beet crop? Echo answers where.—Independent.

A provision has been discovered in the new codes which says it shall be the duty of the school board to visit every school in their district at least once each term and to examine carefully into its management, condition and wants. This clause applies to each of the trustees.

Like Jack in a storm, who pried the poor folks ashore, we, who are wading in sunshine up to our necks and wiping the perspiration from our more or less noble brows, extend sympathy to the people of the East who have to trudge through snow a foot deep and wear ear muffs.—Missoulian.

The Helena Herald has also been sued for libel. Alderman Edwards thinks \$10,000 would prove a balm for his lacerated feelings. Which goes to prove that a good paper cannot avoid treading on somebody's toes occasionally. Will the proprietors of the Herald join us in No Man's Land?—Fergus County Argus.

It has been suggested that three of the Montana Delegation to St. Louis be Senators Carter and Mantle and Congressman Hartman. The presence of these valiant advocates of silver on the delegation would not only prove that Montana is proud of their action, but would do much to strengthen the cause of silver in the convention.—Missoula Republican.

A practical joker played a mean trick on the Fergus county officials a few days ago by reporting the discovery of a dead man some distance from Lewiston. The sheriff, coroner and other officials went out to the scene of the alleged tragedy, and found a dummy stuffed with hay lying in a pool of red paint. The seal was intended for an April fool joke, but its perpetrators could not hold themselves down after "concocting the idea."—River Press.

The state supreme court on Monday confirmed the judgment of death that has been passed upon William Gay. The court views the points of the exceptions of the defense and the evidence as a whole, and says that it has been unable to find any error in the proceedings. The sentence of death will be passed again as soon as the writ of certiorari has come down from the upper court. That may be in about a week. At any rate there will not be a double hanging in the county jail. The sentence of Biggerstaff will have been executed before the date of the prospective execution of Gay.

Articles of incorporation of the Florence Crittenton mission of Butte were filed with the county recorder, says the Inter Mountain. The object of the mission, as set forth in the incorporation articles, are to "uplift and reclaim fallen men and women and the establishment and maintenance of a home for the purpose of caring for and reclaiming fallen girls and women." There are seven trustees and those for the first three months are A. L. Barrett, George Stevenson, H. M. Patterson, E. J. Groenwald, James H. Spencer, James Davidson, and Octavius Hight. The annual election is to take place in October. The term of existence of the mission is given at 20 years.

The Discovery Saved His Life.

Mr. C. Caillonette, druggist, Beaver-ville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with la grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store, I sent for a bottle and began its use, and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Got a free trial bottle at J. H. Owings & Co.'s drug store. 11-1y

BRUSH

BRUSH
BRUSHES

Kentucky has had a political Brush
Italy had a Brush to a finish
Spain wants an all-round Brush
Montana has got sagebrush
But the Standard Drug Co. has got all kinds of Brushes—

HAIR BRUSHES
CLOTHES BRUSHES
TOOTH BRUSHES
HAND BRUSHES
NAIL BRUSHES
HAT BRUSHES
BATH BRUSHES
PAINT BRUSHES
WHITWASH BRUSHES

In fact, anything you want in the shape of a Brush we have; and if you want your system brushed and cleansed, then take Dr. McHenry's Pure Vegetable Sarsaparilla.

Standard Drug Company,
The Rustling Druggists,
212 E. Park Ave., Anaconda.
OPEN: DAYS AND NIGHT
Telephone No. 37.
