

LOCAL DEPARTMENT.

No successor has as yet been appointed to Jesse D. Bright.

Notwithstanding the condition of the roads and streets of our city, yesterday was a very brisk day.

We received quite a long letter from our Localist last evening, but owing to the length of it, and the late hour at which it came to hand, have to defer publishing until to-morrow.

It commenced snowing yesterday afternoon about 4 o'clock, and continued up to the hour of our going to press.

It is stated that damage to the amount of \$6,000 was sustained by the Wash & Erie Canal, by the late freshet in the vicinity of Shawnee, Fountain county. The damage is to be immediately repaired.

We acknowledge the receipt of quite a variety of garden seeds from the U. S. Patent Office. Friend Holloway will please accept our thanks.

Mem.—Within the memory of "the most ancient inhabitant," our streets were never in the liquid condition they are at present. We have heard of nobody "going through" yet, but yesterday a lady, recently arrived here, and not accustomed to the soil, while attempting to cross the street, stuck so far in the mud, she was only extricated by a passing omnibus. Her shoes, however, "went through."

The Lafayette Courier says, from indisputable authority, we learn that Gen. Buell's Grand Army, which for several months past has been lying upon its arms in front of Bowling Green, is at last on the forward move. The command of Gen. McCook has crossed Green river, and Gen. Sherman's Mitchell's and other divisions and brigades are following in the wake. Now comes the tug of war—Freedom's Ananias is drawing in upon the Rebellion, and before next Independence Day it will be crushed, wiped out, and hope forever obliterated. Bowling Green, Columbus, and Nashville are already spotted, and will soon be camps for our victorious army.

Private Zoeller, of Company F, 3rd Indiana, Colonel Willard, died in Camp at Green River very suddenly on Saturday last.

The Madison Courier says that on Monday night two host loads of troops passed down the river, and two additional ones on Tuesday, and that a steamboat agent of that city had received orders to charter all the available steamers at that point and send them up the river for the purpose of transporting troops.

The following resignations have been accepted: Capt. W. H. Beale, of the 31st regiment; Lieut. Jasper Segur and Thornbury Baldwin, of the 34th regiment; Lieut. H. C. Weimer, of the 47th regiment; and Lieut. Charles Ardelman, of the Morton battery.

The Missouri Democrat says that the decided course pursued by Gen. Hallack with the mutinous companies of the 4th Missouri Infantry, (late 3d U. S. Reserve Corps), in sending them to work on the fortifications of Cairo, has had a most beneficial effect. The men so sent to Cairo have unanimously confessed their error, offered to obey orders, and asked permission to serve in other regiments. Their request has been granted. They are released from arrest, and nearly every man has enlisted in some other regiment, and gone into the field. This has produced the greatest satisfaction.

The men say that the difficulty resulted from the inefficiency of the officers, and general neglect of discipline, and partly from inflammatory articles which have appeared lately in one of the papers of St. Louis, intending to incite them to disobedience of orders and mutiny.

The Provost Marshal General has been collecting evidence against the guilty parties, preparatory to bringing them to trial for encouraging mutiny. It certainly would not be just to punish the poor soldiers for mutinous conduct, and to allow their instigators to escape with impunity.

The Cincinnati Gazette of yesterday says the Seventy-eighth regiment, Colonel Leggett, arrived from Zanesville yesterday, and left last evening on the steamer Tecumseh and Neptune, for Fort Henry. The command numbers 945 men, and is thoroughly armed and equipped. The men are all strong and robust, and seem to be well cared for.

The Twenty-eighth regiment, Colonel Whiteley, left during Tuesday night on the steamer Dr. Kane and Emma Duncan for Paducah.

The steamer Poland and Champion No. 3, left yesterday for Portsmouth, to bring down the Fifty-sixth, Col. Kinney, destined for the same point. The Fortieth and Sixtieth moved to day.

Editor Express. By letters received from Mr. R. C. Barr of the 14th Regiment Indiana Volunteers, who is now acting as steward and one of the hospitals at Cumberland, Maryland, we learn that the sick there are much in want of shoes, pillow cases, towels, drier or canned fruit &c. These hospitals have been hastily made, and are crowded with sick, and this want can only be supplied by donations from our people at home. Mr. John H. Barr will pack and ship such articles as may be left for this purpose, at the Drug Store of T. H. Barr, during this week.

Agenda Debility.

As old age comes creeping on, it brings with it many attendant infirmities. Loss of appetite and weakness impair the health, and want of activity makes the mind disquieted and uneasy. In cases where old age adds its influence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed in BERRYMAN'S HOLLAND BITTERS were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become a great agent for this alone, and are used by many people who are suffering from loss of appetite and general debility. In cases of long standing chronic diseases, they act as a charm, invigorating the system, thus giving nature another opportunity to repair physical injuries. See advertisement in another column.

AYER'S AMERICAN ALMANAC is now ready for delivery, gratis, at P. M. Donnelly's, and J. R. Cunningham's, who are happy to supply all that call for them. Every family should have and keep this book. It is worth having—comprising much general information of great value. It gives the best instruction for the cure of prevalent complaints, that we can get anywhere. Its anecdotes alone are worth a bushel of wheat, and its medical advice is sometimes worth to the sick the wheat's weight in gold. Many of the Medical Almanacs are trash, but this is solid metal. Its calculations are made purposely for this latitude and are therefore correct. Call and get an Ayer's Almanac, and when got, keep it.

A CARD.—I will issue the Spring fashions of Silk and Cashmere Hats, on the first Saturday in March. I will then reduce the price of my five dollar Silk Hats to four dollars and fifty cents, and my four dollar Silk Hats to three dollars and fifty cents. All Hats made by me, warranted to fit, and give satisfaction.

FROM WASHINGTON.

WASHINGTON, Feb. 12.—The Tribune's Washington correspondent says of General Stone, that he used to have stolen interviews with the rebels, and that a package was, on at least one occasion, seen to pass from him to them.

He with, early words, refused a pass to the widow of a volunteer who wished to seek for the body of her husband within the enemy's lines, but in the case of the rebel ladies who, on frivolous pretexts desired to go and come, he was all liberality, and freely gave passes, even to such covered trucks, not to be examined.

The Senate Military Committee will report at their next meeting, a reorganization of the Medical Department of the army, in creating the number of Surgeons and other members of the service and make it a separate department.

Gen. Montgomery, Military Governor of Alexandria is abusing his office, by releasing rebels accused by his subordinates, not content with allowing the Rev. Mr. Stewart to omit the graves for the President in the service. He set him at liberty after his arrest on account of that reasonable omission.

The Alexandria Chronicle says, much excitement has been occasioned by the arrest of Mr. Stewart, who, in spite of re-monstrances and promises, is persisting in his rebel proclivities in the pulp.

WORLD'S DISPATCH.

A well known citizen here named Magruder, shoe dealer, was arrested to-day on charge of treason, he having communicated with the enemy. The charges against him are alleged to be very serious in this respect.

The Sergeant-at-Arms, pursuant to an order of the House of Representatives, has placed Henry Wyckoff in close confinement, selecting the Guard House in the Capitol for purpose. Mr. Wyckoff said to-day, that this was a kind of capital punishment that he had not anticipated.

FROM PORT MONROE.

FR. MONROE, Feb. 12.—No flag of truce to-day.

No arrival from Hatteras.

As the express was coming down from Newport News this morning, on her regular trip, a man was picked up in a small boat who left Norfolk yesterday morning, and made his escape from Sewall's Point in a small boat. He confirms all previous reports and adds that Norfolk has been placed under martial law, and that volunteers to defend the city are called for in vain.

The work on the Merrimack was stopped on Saturday last, and she is now at the Navy Yard drawing so much water that she could not get out, even if she was ready for sea.

The greatest alarm prevails at Norfolk, and an attack is momentarily expected.

There are said to be only about two hundred troops at Sewall's Point.

A rumor is current at Norfolk, that the defeat at Roanoke Island was owing to the treachery of the North Carolina troops.

The Sawyer gun at Newport News burst yesterday afternoon while being fired. Privates Joseph Jones, of Co. D, and James Shepard, of Co. B, were killed.

Four or five others who were in the vicinity, were injured, but none seriously.

FROM ST. LOUIS.

ST. LOUIS, Feb. 12.—The Democrat learns that Col. Foote, with the Gunboats, St. Louis, Louisville and Pittsburgh, left Cairo for the Cumberland river at 1 o'clock on Tuesday night. The Cumberland was expected to join them at Paducah.

FROM WHEELING.

WHEELING, Feb. 12.—The Constitutional Convention, this morning, adopted the following as a section of the article on the fundamental principle of the Constitution of the proposed new State of Western Virginia, with the understanding that this action should be a settlement of a vexed question.

No slave shall be brought, or free person of color come into this State, for permanent residence, after this Constitution goes into operation. This will ensure a large majority for the Constitution.

FROM NEW YORK.

NEW YORK, Feb. 13.

The steamship supply brings Ship Island dated the 24th inst. has on board the capt. Ann and Lewis and the schooner A. S. Pier, taken by the New London off Florida.

Nothing new at Ship Island—the troops are progressing, and the works progressing rapidly.

The Frigate Niagara, Gunboats New London, Hatteras, Itasca, Coon, and Pampas, Ship Ball Prince, and Brig J. P. Wetherell were anchored off the island.

The supply landed off Florida on the 30th the British schooner Samuel Hart, of Liverpool, whose captain said he was bound from Liverpool to Cardenas, but having no papers and being on the route to rebellion was taken by the Supply's crew put aboard, and brought to this port—her cargo supposed to be arms and ammunition.

The steamer Baltic has arrived and brings 700 bales of cotton, and the crews of the stone fleet. Eight rebel prisoners were also brought and placed in Fort Lafayette, who were captured near Ship Island.

The weather was getting disagreeably warm and heavy rains falling. Contributions were still piling cotton, and their labors increasing.

Gen. Sherman has succeeded in including all reports from his line.

Several regiments have been removed from Hilton Head to the foot of Pamlico, to land the nearest point to Fort Pulaski, can be occupied excepting Tybee.

Several gunboats, a small schooner, and a number of boats with Parrot guns, howitzers and mortars accompanied the expedition.

Tannall's gunboats soon after made their appearance, and three ran the gauntlet to Fort Pulaski.

Street bridge was prevented from forming a junction on account of the obstructions in the river.

Fort Pulaski is said to be in a bad situation as winter was. Our engineers are driving piles to a marshy island, for a road, and for a foundation for batteries.

Our forces make advances every day, and our gunboats had shelled out a post on Pine Island, and made an advance toward Flinn Island, where there is a large force.

Fort Jackson is to be taken and Savannah will soon be captured.

Another account says the expedition left on Monday, including the gunboats and transports collected for the movement of 19,000 troops, which will go through Calooga Sound into Savannah river, without coming within range of Pulaski's guns.

VERY STAMPEL, AND CONSTRUCTED SO AS TO BE REMOVED SHOT PROOF, BY COMPRESSED BATES OF COTTON AND IRON PLATE.

The steamer Illinois brought down a quantity of tobacco, yesterday, from Paris. A large quantity of pig iron near there will be removed at once as possible.

The Nashville American of the 25th inst., says that Generals Beauregard, Pillow and Johnston were there, and also contain Beauregard's plan of battle at Manassas, and prodigious speculations as to what he will do at Columbus.

Numerous articles are copied from the Southern papers, asking the government to take some measure to keep the soldiers in the service, as their term of enlistment is expiring, and they are fast becoming demoralized. The papers also say that a large amount of Confederate stores are lying on the banks of the Cumberland river.

CONGRESSIONAL.

XXXVIII CONGRESS—FIRST SESSION.

WASHINGTON, Feb. 12.

SENATE.—Mr. Sherman objected to the Amendment to the Treasury Note Bill, providing for deposit on it as it would tend to prevent exchange into bonds and do great harm.

Mr. King moved to reduce the per centage to one per cent. Rejected.

The amendment providing for a deposit of five per cent was rejected.

The amendment setting apart the proceeds of the public lands and confiscated property and duties on imports for the interest of the debt in bonds and notes for a sinking fund was adopted. Several other verbal amendments of the Committee were adopted.

Mr. Vandenberg moved to amend the first section so as to make the bonds redeemable at pleasure in five years instead of twenty, and payable in twenty years.

Mr. Sherman opposed the amendment as tending to depreciate the character of the bonds.

Mr. Fessenden said the amendment was to prevent paying too high interest for a long number of years.

Mr. Chandler said there was no time since the first of November that the war could have been closed in sixty days. Only one obstacle stood in the way for four months, which Congress could remove to-morrow. He believed the order forward would be given, and the war closed by the first day of May. Adjourned.

SENATE.—A message was received from the House, saying that it disagreed with the Senate's amendments to the civil and military appropriation bill.

The question was on Mr. Fessenden's amendment to make the bonds redeemable after five years at the pleasure of the United States, which amendment was withdrawn.

Mr. Collamer moved to strike out that portion of the bill which makes the notes a legal tender for private debts.

Mr. Wilson was opposed to the amendment, and if it was adopted he should vote against the bill. He considered that it would be "wickedly unjust to place all this money in the hands of soldiers and employees of the government, forcing them to take it, and then not protect it after it was in their hands."

HOUSE.—The House proceeded to the consideration of the joint resolution reported by Mr. Holman from the Committee on government contracts, authorizing the Secretary of War to pay the Hamilton and St. Joseph and Pacific railroad companies for the transportation of troops, munitions of war, &c., but at no time greater than those received from private individuals.
