DUPLEX ELIPTIC!

teel Spring NETS! HOOP SEIRTS. THIS REMARKABLE INVEN-

THIS REMARKABLE INVENtiou it. Skirts will entirely obviate and silence
the only objection to the use of Hoop Skirts, vist the
annoyance to the wearer as well as the public, especially in crowded assemblies, stages, coaches, railread cars, arm chairs, or sitting down anywhere,
from the difficulty of contracting them and occupyling a small 'pace.

The invention of the 'DUPLEX ELIPTIC SPRING
entirely removes this difficulty, while giving the
Skirt the usual full and symetrical appearance, the
wearer is enabled to contract it with scarcely any
attention or effort into so small a compass that no
trouble will be experienced in the most crowded
coaches or cars, disponsing entirely with the old difficulty and enabling the wearer to derive all the
benefits which the use of this sairt has introduced.

The invention of this "Deplex Eliptic Spring,"
like all other valuable inventions, is fo the most
simple kind, consisting of Duplex for two] Eliptic
Steel Springs ingeniously braided together edge to
edge, being very flexible tough and elastic, enabling
the wearer to place and fold it when in use as easily
and with the same convertence as a silk or muslin
dress. Another important feature of the Duplex
Eliptic Spring is, the durability of the wires or
springs giving much greater strength to the Hoops
which prevents their breaking or bending out of
shape.

The Duplex Eliptic Skirt being much more The New Duplex E lptic Skirt being much more durable than the single wire, thus adding economy to the many other advantages. This Invention is destined to create an excitement among the fair sex as no lady will dispense with the New Patented Duplex Eliptic Spring Skirt, after once using it. All made of the new and alexant corded Tape.
