DR. JOHN BULL'S

COMPOUND

CEDRON BITTERS,

The Latest and Most Important Discovery of the 19th Century

NO man's name is more intimately connected with the history of Materia Medica in the United States, or more favorably known as a practical medical discovery, than that of Dr. JOHN BULL, of Louisville, Ky., his inimitable preparation of Sarsaparilla, and long stood at the head of the various compounds of that valuable drug. His Compound Extract of Wild Cherry has become a household word throughout the west and south, and has a world-wide reputation. But the crowning glory of a long life spent in the study of medicine, and in the search after remedies for the various diseases to which flesh is heir, was the discovery of the CEDRON BITTERS, which is now offered to the public as the best remedy ever discovered for the cure of Dyspepsia, Liver Complaint, Fever and Ague, and all diseases arising from a disordered state of the Stomach, Liver or Blood. In truth, it is a remedy for all diseases originating in a vitiated condition of the blood, or a disordered state of the digestive organs. Being purely vegetable, it contains no mineral poison, and may be taken with perfect safety by the most delicate female or infant. In fact, it is a medicine for the whole family, and should be kept in every house. Being a sure cure for Dyspepsia, it will prevent Fever and Ague, Bilious Fever, Dysentery, Diarrhœa, Headache, Piles, Jaundice, Sick Headache, Loss of Appetite, Nausea, Heartburn, Disgust for Food, Fullness or Blood to the Head, Acidity of the Stomach
