With one eye to a crack in the political fence, we easily see that the Republicans of this township intend giving Mr. Baker, who aspires to represent (5) this county in the next General Assembly, all the care to do to get even one delegate to the county convention, Saturday. Since the article in last week's "Press" entitled "The Facts in the Case" have been read and circulated, those who might have been friendly to Baker seem to have had their eyes opened to the fact that a vote for Baker was for Dan Young's benefit. If you have not read the "Press" article, you should. About the thinnest claim to the nomination Baker has made yet is that the "Dunham family has held office in the county, and the Bakers have not." Even those who know much less than Mr. Baker, know that Geo. W. Dunham is in no way related to the other Dunham's.
