

COUNTY CORRESPONDENCE.

HOPKINTON.

F. B. Dickey returned last Monday morning from an extended visit with friends and relatives in the east.

Fred Loop has the contract to build a new house for E. Dufoe of Union. Fred is just putting the finishing touches on E. R. Files new house.

The marshal is to now shoot all dogs found without a muzzle without further notice. The council has put its foot down and makes the demand. There are too many mad dogs for the matter to be neglected further.

The writer while in Manchester last week called at the home of Rev. Harnish, pastor of the U. B. church, and his estimable wife. Mrs. Harnish will be remembered as Bessie Hodge, formerly of this place. They are nicely settled in the parsonage on the west side. The Hopkinton people will find it a pleasant place to call when in Manchester.

Hopkinton is not feeling toward the Jones county Fair as they have in the past years. The band management here claims that a bargain was made unsolicited by them, to play at the Fair three days. The bargain was disregarded, however, the secretary claiming afterward that he had no authority to hire the band. This has alienated the band and sentiment has been worked up which will probably result in a decreased attendance from here.

On June 27th occurred the marriage of Mrs. Julia Miller Ricketts, daughter of Daniel Miller, of Ann Arbor, Michigan, to C. H. Ricketts of this place. The ceremony took place at the home of the bride at 8 o'clock in the evening in the presence of a number of friends and relatives. Rev. McElroy, of the M. E. church of that place officiated. The bride is from a family of excellent standing and she, herself is a woman of worth and well fitted to enter upon the duties of home making. Mr. Ricketts needs no introduction to the people of this place standing as he does among the leading citizens of the community. The affair was a complete surprise to the host of friends and acquaintances, and it was not known until his arrival here last week. Mr. and Mrs. Ricketts have the best wishes of a large circle of friends with whom the leader joins in congratulations. They will be at home after August first.—Leader.

The team got rattled and Dan thought to hold them by the bits while John got a safe hold of the reins, but just as Dan grabbed them they made a lunge and threw him under the rake, also throwing John under the rake. The team ran for some distance and the boys were severely jabbed with the rake teeth, besides John got his hand badly crushed, it is so badly swollen the doctor can't tell whether any bones are broken. Dan is recovering quite rapidly and is able to be around. The team ran through three wire fences and is badly used up.

Two fellows came through here yesterday on bicycles, and claimed they were weary and offered their wheels for sale very cheap. Ernest Sawyer and Chas. Schneider invested and would feel cheap if some other men would come along and establish their claim to the wheels.

There might have been harmony in the county convention Saturday, but if there was, it was in chunks so small that they were not discernible. There was organization and perfect organization from the very first, and that same organization won for Manchester where nothing else could. * * * The cause for throwing out the Baker delegates was that democrats had participated in the caucus and voted for Baker's delegation. We could not see why those fellows were so bad this year, for last year those same men helped give the delegation to a Manchester candidate and no how went up. But then democrats get worse as they get older we presume. If this delegation had not been thrown out, Baker's name would have went before the convention, but after he had been robbed he could do nothing but let the gang have their way.—Home Press

A daring robbery was committed in Dyersville between one and two o'clock early Friday morning, when two men with their faces covered entered the Illinois Central depot, where Ed Cooper the night operator was at work. Mr. Cooper heard a noise behind him, and looking back discovered a man with a club over his face and revolver in hand climbing through the ticket office window and threatening to shoot him unless he heard still. Mr. Cooper however grabbed the man but before he could get control of him, another robber appeared and struck Mr. Cooper on the head when Mr. Cooper felt senseless. They went through his pockets and then carried him into a refrigerator car and locked him in, after which they returned and blew open the safe. They got about \$200 from the safe besides about \$40 from the agent's pocket. During all this time Tony Hense, a boy about 15 years old, was a silent witness of the transaction. He was sleeping under the counter when the snuff began and naturally awakened but was afraid to stir, being in the dark the robbers did not discover him. After the robbers were gone young Hense ran to the Great Western depot and gave the alarm, and also a number of others were awakened so that about seven men were ready for action. Just at this time the train on the Great Western came in which was considerably late. The men made for the train and to their surprise they saw two fellows of suspicious demeanor getting on the train. The men arrested them and sent for Marshal Banning who soon arrived and locked them in jail. While two of the men were gone after the marshal search was made for Mr. Cooper who answered to the call from a refrigerator car. The car was unlocked and Cooper was released, he was consider-
