**COLESBURG.**  
What is the matter with this summer weather.  
A party of our young people enjoyed a hallowe'en party at the pleasant country home of Mr. and Mrs. Amos Livingston last Monday evening. From the looks of things Tuesday morning those who did not go to the party enjoyed themselves at home, piling back gates and other movable property in unseemly places. Main street presented anything but a holiday appearance. No property was destroyed however and the boys had a good time, so what's the "dip"? There are some of them, well warrant, that would object to working so hard in the day time.

Most all diseases are caused by poisonous secretions, which clog the wheels of NATURE.

The name and the symptoms may be different, but the cause of disease can usually be traced to the imperfect action of the millions of pores of the human body. A bath in accordance with scientific requirements is the best preventative and remedy known. The methods employed by me are the most scientific ever invented or discovered for dispelling disease. Results tell the story. Give me a trial. This is the constant system of baths. A competent lady attendant in charge of the ladies department.
