

# HOG REMEDY

For Worms and Thumps has been used with good results by farmers in this county. Hogs are especially liable to be troubled with worms at this time of the year, on account of being fed on new corn. Hogs in this condition will not do well, but if you will use our Hog Remedy it will remove the worms and the hogs will do much better.

## B. W. GREMS.

Phone 119.

### Take "THE RIGHT ROAD"

To Chicago, St. Paul, Minneapolis, Kansas City, Omaha and Council Bluffs

CHICAGO GREAT WESTERN RAILWAY

Unequaled equipment on all trains. Finest Dining Car service. Comfortable Club Cars, Pullman Sleeping Cars and Free Reclining Chair Cars on night trains. Parlor cars with Dining Room on day trains. For information and tickets apply to any Great Western Agent, or

J. P. Elmer, General Passenger Agent, St. Paul, Minn.

## Main Street Laundry.

Lace Curtains and all kinds of Fancy Work carefully cleaned and ironed. Family washing and general laundry work done. Telephone 311

I. W. LAMPMAN, Prop.

## SOLID SILVER AND PLATED WARE

If you contemplate purchasing silverware of any description, it will pay you to examine my new line of up-to-date patterns, suitable for presents for any occasion. I also carry a fine line of DIAMONDS, WATCHES, CHAINS, CHARMS AND RINGS.

In fact, anything in the jewelry line that fancy can desire. Call and see our new goods, whether you wish to purchase or not. Engraving done when desired.

W. N. BOYNTON, Main Street

### Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes.—Anders & Philipp.

## Local and Neighborhood News

Not long since a school boy was taken to task because he could not work a seemingly easy lesson in algebra. The professor took him to task and said: "At your age George Washington was a surveyor." "Yes," replied the boy looking him squarely in the eye, "and at your age he was President of the United States."

The county home will probably come up for consideration by the voter this fall. If ever a county needed a new one, Buchanan county is it. The voter ought to go and visit the farm and while he looks, ask himself the question, "Is this a fit place for me should I want to take me later on?" This place is a disgrace to an such a county as Buchanan. The farm is good but the old buildings are a disgrace.—Winthrop News.

It becomes our painful duty to chronicle the effort of self destruction. One of our most respected young women, Hattie Stillinger, on Sunday afternoon yielded to an insane impulse and swallowed a dose of strychnine and but for the prompt action of the other members of the family and quick work of Dr. Willson, would have succeeded in her terrible purpose. At this writing her condition is much improved. No motive for the act is known.—Colesburg Cor. in Earlville Phoenix.

The remains of Nettie Morehouse were brought from Manchester to Winthrop, Tuesday, for interment. Nettie was the daughter of H. C. Morehouse and wife, both well known in this vicinity having once resided here. She was seven years and eleven months of age at the time of her death, which occurred in Manchester April 15th, 1906. The funeral services were conducted in the Whitney church Tuesday, April 17 and the little one laid to rest in the Fleming cemetery, Rev. Wagner, of Manchester performing the last sad rites.—Winthrop News

About three o'clock Wednesday morning the family of Jake Rieff were aroused from their slumber by a noise in the house. One of the smaller boys saw a burglar in the adjoining room up stairs and attempted to call Mr. Rieff but was too frightened and slammed his door. This made the burglar take his departure. The boy describes the man masked and had a small lantern. He came in, or rather went out of the front door, which was opened with a skeleton key. The burglar obtained nothing, evidently was frightened away too soon. A peculiar part of the affair was that the cow in the stable had been milked. No clue.—Byersville News Letter.

Mrs. W. F. Garvin and her mother, Mrs. Susan Keith, were victims of a bonfire accident Tuesday, which might easily have had a fatal termination. Mrs. Keith went to the yard where the children had started a small fire. Her clothing became ignited and only the presence of mind of Mrs. Garvin, who came to the rescue, avoided a fatal ending. Failing to extinguish the flames with her hands, she threw Mrs. Keith to the ground and smothered the fire by throwing sand over it. As it was, Mrs. Keith was badly burned on one of her limbs and about the body, while Mrs. Garvin was severely burned on the hands. Both ladies are recovering from the shock and painful burns, and congratulating themselves that the outcome is no worse.—Hopkinton Leader.

Walker News: S. W. Laird, whose fame as a maker of fine butters has spread over many states, will retire from the Walker creamery within a few weeks to accept an appointment as deputy state dairy commissioner of Iowa. Mr. Laird was tendered a similar appointment a number of weeks ago, but at that time declined. A second vacancy occurring the position was again offered him, and on Tuesday State Commissioner Wright visited this place and had a personal interview with Mr. Laird, resulting in the latter accepting the appointment. Mr. Laird will assume his new duties as soon as a man can be secured to succeed him in the local creamery. It will be necessary for him to move to Des Moines, and this he expects to do within a few weeks. Mr. Laird began work in the local creamery a little more than sixteen years ago, and in all the time since has lost scarcely two weeks from his work. He has been faithful, accommodating and efficient, enjoying the esteem of both employees and patrons, and has steadily advanced in his profession until he is now recognized as one of the very best buttermakers in the West. The appointment he has just received comes to him solely through merit, and will open to him a field for further advancement.

The busy season is at hand on the farms of Delaware county, and the question of paramount importance is how our fertile soil can be made, by the most approved methods of cultivation, most productive of crops. This is the latitude. The farmer nowadays fertilizes his fields with the same ingredients that the painter said he mixed his colors, "with brains, sir." He reads the best agricultural literature and follows the scientific and practical experiments as to soils, seeds, manures, tillage, etc., which are revolutionizing the business (for it is a business) of farming. One of the best means of getting this knowledge is by being a subscriber to The Iowa Homestead, of Des Moines, Iowa, which publishes at each time of the year just the matters the farmer and breeder need to know at that season. We have made arrangements for a very reasonable clubbing rate for The Iowa Homestead, and many of our subscribers have availed themselves of it. Come in and let us order it for you the next time you are in town. You will never regret it. 17-1
