Oneda School Notes
Attendance and punctuality good. Trees are growing. All pupils are interested in their studies; the school room to have their work on the wall well done and well arranged; the library; the yard, to have it transformed into a park; the school property, to have it well preserved and presentable; and all else pertaining to school life including the birds and fields and flowers about us.

Mrs. J. U. Rector has the unanimous thanks of the school for some eggs of the silk worm which according to instructions were placed in a cracker box which seemed like

very large nest for such very tiny eggs. It is needless to say the children are eager to have them hatch out and begin their industry of spinning silk.

Howard Boardman is better after his recent severe illness and is able to be in school again.

Harry Hoag will soon depart for St. Louis to make his home. We dislike to part with him both as pupil and playmate.

Ellen Haight was on the sick list part of the last week.

We'll there, I think we have done well to add a dozen more trees to the school yard. This is the list during the past two years, prior to which there was nothing but grass: 7 box-elder, 9 scotch-pine, 10 arbutus, 7 willow, 3 poplar, 4 cherry, 1 wild crab, 1 soft maple, 1 basswood, 3 cotton wood, 7 catalpa, 3 white ash and 2 mulberry. The pupils have set all except the evergreens.

We have also raked the yard and tidied up in general outside.

Inside the same arrangement of each grade having a separate wall space upon which to arrange their work prevails.

Our reading table consists of four or five books screwed in the wainscoting just beneath the moulding upon which are hung various periodicals, papers and magazines.

Rosa Volker was on the sick list last week.

The happy birds, the tuneful birds, How pleasant 'tis to hear them sing! No cap can be a cheerless slave, Where'er their presence be.

At Oneda at Mrs. A. L. Kensing's Friday, May 17, 1907, the Kensington Club of Oneda will serve a chicken pie dinner, also supper, as well as serve ice-cream and home made candy; beside all of which there will be numerous well made, tasty and serviceable articles for sale. Keep Your Good Mare Colts.

There are some strange things about the horse market these days. One is the number of mares that is being sent to the wholesale markets and the second is the number of colts and fillies under what formerly was considered a selling age.

We noticed in the Chicago market last week a string of three-year-old grade Clydesdales disposed of at auction. The youngsters were not fat, but they had been broken and they sold up to \$235 a head and from that down to \$100. The colts had weight and rugged character in their favor and evidently bought to go into the leather in some city.

In the same crowd of buyers were men taking mares to ship out to the country to resell to farmers. This is a peculiar condition. The filly to which reference is made as selling for \$235, would in all probability if kept another year and fed out that realized around \$400, granting prices remain on the same level as that on which they now rest. Surely the difference between these two prices would have paid the man who sold her very handsomely to have kept her twelve months longer. We can detect no plentiful supply of horses in this country of any age.

Prices are away higher this spring than they were last and yet the reports do not indicate a prospect of the supply of colts in being bitten into deeply and there appears to be no promise of a cessation in the call for heavy workers. It would seem to be folly to part with three-year-olds and especially with three-year-old mares.

ASSASSINATION IS HEADED OFF

Most Elaborate Plot for Years, the Object Being to Murder the Czar of Russia.

London, May 13.—The Daily Telegraph's St. Petersburg correspondent reports the accidental discovery and foiling of the greatest terrorist plot since the great Decembrist conspiracy eighty-two years ago. The correspondent says he has the sensational story from two reliable sources. According to these versions no fewer than eighty conspirators resolved a couple of months ago to assassinate Emperor Nicholas, and plans were finally fixed for carrying out the deed during Easter.

The plotters included reserve officers and other officials and civilians whose loyalty hitherto had been undoubted. They planned the correspondent says, to approach Tsarsko-Selo in groups, and then execute a sudden and daring attack on the palace. The first group, consisting of thirty-four men, arrived here, but for some means unknown suspicions against them were aroused and the whole thirty-four of them were arrested at Tsarsko-Selo and documents found in their possession led to the apprehension of the other members of the band in St. Petersburg.

Madrid Goes Mild and Spain Is Celebrating the Event.

"One Touch of Nature Makes the World Kin," and We Take Our First Kiss.

Madrid, May 11.—The news that the direct male succession to the throne of Spain had been assured by the birth of a son to Queen Victoria sent a thrill of rejoicing throughout the country, and the happy event is being celebrated from one end of the peninsula to the other.

Our reading table consists of four or five books screwed in the wainscoting just beneath the moulding upon which are hung various periodicals, papers and magazines.

LITTLE HONOR IN THE WIM

Eurus Runs a Foot Race with O'Brien, but Seldom Can Catch Him—By a Fan.

Los Angeles, Cal., May 9.—Tommy Burns, of Los Angeles, won the heavy-weight championship of the world from "Philadelphia Jack" O'Brien before the Pacific Athletic club here after twenty rounds of fighting that was for the most part a foot race.

O'Brien ran away from Burns from the first round to the finish, and only occasionally was the latter able to overtake him. Then O'Brien invariably clinched with Burns and held on until the referee pried them apart.

The crowd hooted and jeered O'Brien and hurled all sorts of raillery at him as he raced about the ring. But very few blows of any vigor were landed by either man, and only one suffered any apparent damage. Both of O'Brien's eyes were damaged and his lips were cut open, but Burns had scarcely a scratch. O'Brien landed many light blows at long range on Burns' head and face during his capers about the inclosure, but they were absolutely without effect.

At the beginning of the fight Referee Byron declared all bets off under instructions from Manager A. C. Carey, of the Pacific Athletic club. Byron said he was unable to give the reasons for this action.

In a sensational statement the champion says that in order to get a fight with O'Brien he had to agree to "take" the fight to "lay down" before his Philadelphia friends and permit the latter to be called the winner. But when the gong sounded to begin he decided to break his promise and go in to "trim O'Brien." Burns says he did not wish to trick the public, and succeeded in getting all bets declared off, losing a wager of \$8,500 of his own money.

RIOTERS RESPECT SUNDAY

Although Fifty Cars Carrying Passengers Are Run at Frisco There Is Little Disorder.

San Francisco, May 12.—Fifty street cars were operated from 10 a. m. until 5 p. m. over two of the twenty odd miles comprising the United States street cars. For the first time since the commencement of the strike cars were run to the ferries. About 20,000 passengers, a majority of them women, patronized the service.

The strike disorder during the day in comparison with the five days previous. Thousands of persons evidently regarded the published injunctions and private warnings and remained indoors, for the Sunday crowds were much smaller than usual. Unquestionably the firm stand taken by Governor Gillet when he announced through the morning press that he would judge the San Francisco situation by the acts of the people, and would not hesitate at a moment to call out the militia if rioting should be continued, had a sobering effect.
