TARIFF MEASURE BEFORE CONGRESS

Claim Necessities Have Been Revised Downward.

PAYNE MAKES A SPEECH

Act Sends Rate on Rough Lumber Down from \$2 to \$1.25 a Thousand Feet—Wool Schedule Undergoes No Change—Rates on Cotton Hosiery Generally Increased—Silk Schedule Is Reconstructed—Oil Cloths and Linoleum Are Heavily Cut.

The conference report on the tariff bill has been presented to Congress. When Representative Swayne E. Payne, majority leader and head of the house conferees, arose to submit the document the measure had been in conference for just three weeks.

Contending that the bill marks a general downward tendency from present rates of duty, Payne presented an exhaustive analysis of its provisions. He undertook to show that there had been a marked decrease in the rates on the necessities of life, while additions that there had been an increase on some of the luxuries.

Probably the most marked reductions throughout any schedule in the bill as a result of the action of the two houses and of the conference committee are found in the metal schedule. Beginning with a decrease in the rate of iron ore from 10 to 15 cents a ton, there is a general reduction throughout that part of the bill, pig iron going down from \$4 to \$2.50 a ton, and scrap iron from \$4 to \$1.

Rough lumber goes down from \$2 to \$1.25 a thousand feet, with corresponding reduction in the differentials on dressed lumber.

The wool schedule underwent no change of consequence but the entire cotton schedule was reconstructed and the phraseology greatly changed in the hope of preventing reductions through decisions by the courts such as have characterized the administration of the Dingley law during latter years.

In the much-contested matter of the rate on gloves the high protectionists fail to score. They sought, through an amendment of the tariff, to raise the duty materially above the Dingley figures, but were antagonized by the senate, and the senate vote, the only change made in the entire schedule being one slight reduction.

Advance in Silk Rates.

The silk schedule was reconstructed with a view to imposing specific rather than ad valorem duties, with the result that the average duty will be somewhat higher under the new law than under the present statute.

Oil cloths and linoleum are heavily cut, but otherwise the changes in the tariff are of minor importance and material. A slightly increased duty is provided for hemp, both crude and hulled, and also on certain highgrade laces. On linen yarns and mattings there is a reduction.

Sugar and tobacco duties remain substantially the same as they are under the Dingley law. The free importation of considerable quantities of both of these articles from the Philippines is permitted, and a material change was made in the internal revenue law by an amendment taking the tax off of the sale of tobacco in the hand.

Common window glass of the lower sizes, in which the imports are heavy, is given a reduction.

The publishers win their fight for lower wood pulp and print paper, the rate on the ordinary newspaper print paper being fixed at \$3.75 a ton instead of \$6 as under the present law and on the higher grades of print paper at \$3.75 instead of \$5.

Coal Rate 45 Cents.

Mechanically ground wood pulp is to come in free of duty instead of paying 1-12th of a cent a pound as under the Dingley law, but provision is made for a surcharge to protect the country against Canada's prohibitions upon the exportation of woods to the United States.

Hides of cattle come in free, and there is a corresponding reduction on leather and leather goods. The house rates are practically retained on sole leather, leather for uppers, boots and shoes and harness, but the free hide provision is based on the condition that on and after Oct. 1, 1905, leather from the hides that are to be admitted free will pay a duty of 5 per cent; grain, buff and split leather 7 1/2 per cent; boots and shoes, the upper leather of which is made from such hides, 10 per cent, and harness and saddlery 20 per cent.

Bituminous coal is reduced from 67 cents a ton to 45 cents, and there is also a reduction on gunpowder, matches and cartridges.

Amateur instruments go off from 20 per cent ad valorem to 15 per cent, and the older works of art are placed upon the free list.

Petroleum, which received much attention in both houses, slips through without any duty, either ad valorem or otherwise, and most of its products come in under the same terms.

In the agricultural schedule hops are increased from 12 to 16 cents a bushel, and there is also an increase on lemons, figs, almonds and pineapples.

Nebraska Has Snow in July.

The spectacle of snow falling in July occurred at Omaha during an electrical storm which followed an extremely hot day. The flakes fell intermittently for nearly ten minutes.

Kermit Roosevelt as a Jockey.

Theodore Roosevelt and son attended a race meeting of the East African Turf club at Nairobi, British East Africa. Kermit Roosevelt had a mount in five of the races.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

REBELS DECLARE SPAIN A REPUBLIC

Fighting Renewed In Barcelona and Vicinity.

MONKS TREATED CRUELLY

The latest news from Barcelona is that fighting between the troops and the revolutionists continues fiercely.

It is reported that forty revolutionists have been shot without trial. The fortress is firing constantly upon the district occupied by those who have renounced the authority of Alfonso.

The situation in Palamos, the center of the cork industry, is reported to be alarming and fears are expressed for the safety of foreigners there.

One dispatch states that the revolutionaries have proclaimed a republic and that the fortress Montjuich is constantly firing upon the district occupied by Alfonso.

At Palamos the monastery of the Marists is in ruins. Women sacked the place while the men pursued and subjected to cruel indignities.

Rumors are afloat that a general strike will be launched today at Madrid. All persons subject to military duty are forbidden to leave Spain. Official denial is given to the report that the temper of the Madrid garrison is hostile. Frontier reports declare that the killed or wounded in Barcelona will aggregate 3,000.

FORTUNE FOUND IN A BUSTLE

\$100,000 Discovered in Home of Spinster After Her Death.

At Fort Plain, N. Y., more than \$100,000 in bonds, bank notes, and gold has been found hidden in the home of Elizabeth Diefendorf, an eccentric maiden reclus, who died leaving an estate estimated to be worth \$1,000,000.

The real estate is to be plowed and the house torn down if further search promises returns.

Some of the wealth was found hidden in old bustles, bonnets, and dresses that were worn before the civil war.

CUPID HELPED BY TOBACCO

Note in Package of "Smoking" Brings Revolver to Virginia.

"I found Cupid through the use of a cork pipe and I am on my way to Virginia in answer to a note found in a package of tobacco saying 'I am very lonely,'" said Charles E. Worthington of Alaska, who passed through Chicago.

The name, "Mrs. Corinne Raleigh, Richmond, Va.," was mentioned. A subsequent correspondence and exchange of photographs brought about an engagement of marriage and the present journey.
