Drinking and Smoking in Korea.
The Koreans are inveterate smokers of green tobacco, which they use in pipes with tiny bowls and stems two or three feet long. They stick their pipes down the back of the neck when not using them.

There is a deal of drinking, too, though they have many proverbs against it—"Heaven and earth are too small for a drunken man," "White whisky makes a red face," "There is no bottom to the appetite for drink."

Blood Money
"One day," said Mrs. Lappling, "I saw a man thrash a big, brutal teamster for beating his horses. If I had my way about it he should have a share of the Carnegie fund."

The observed rate for the sound of "a" in "great" is 430, and for the sound of "a" in "mat" 770 waves a second.

TO CURE A COLIC IN ONE DAY.
Take LAXATIVE BROMO GUININE TABLETS. Druggists refund money if it fails to cure. Dr. W. GROVE'S signature is on each box, 25c.

Heads of Philadelphia's police department are looking for a pocket electric searchlight.

WHEN YOUR JOINTS ARE STIFF
SLOAN'S LINIMENT FOR RHEUMATISM, BRUISES AND SORE THROAT.

The Australian State of Victoria spends nearly \$500,000 a year in its warfare against the destructive rabbit.

Mrs. Winslow's Green-Sand Soap for Children softens the skin, keeps the complexion clear, and is the best for the face.

The annual growth of the forests of the United States is not more than twelve cubic feet an acre.

For Sprains

Sloan's Liniment is the best remedy for sprains and bruises. It quiets the pain at once, and can be applied to the tenderest part without hurting because it doesn't need to be rubbed all over you to do it is to lay it on lightly. It is a powerful preparation and penetrates instantly—relieves any inflammation and congestion, and reduces the swelling.

Here's the Proof.
Mr. L. K. K. of Scranton, Pa., says: "On the 7th of this present month, as I was leaving the building at noon for lunch, I slipped and fell, spraining my right wrist. I returned in the afternoon, and at four o'clock I could not hold a pencil in my hand. I returned home later and purchased a bottle of Sloan's Liniment."

Sloan's Liniment is an excellent anesthetic and a great healer—helps cure burns, wounds and contusions, and will draw the poison from stings of poisonous insects.

25c., 50c. and \$1.00

Sloan's book on horse, cattle, sheep and pig diseases. Great opportunity. Write for free copy.

Dr. J. C. Sloan, Boston, Mass., U.S.A.

Sloan's Liniment

and used five or six times before I went to bed, and the next day I was able to go to work and use my hand as usual.

Sloan's Liniment is an excellent anesthetic and a great healer—helps cure burns, wounds and contusions, and will draw the poison from stings of poisonous insects.

Wireless Appeal Haves Crew.

Operator on Sinking Steamer Kentucky Off Hatteras Brings Aid.

Thanks to wireless telegraphy and the international distress signal, "S. O. S.," which has superseded the famous "C. Q. D.," Capt. Moore and his crew of forty-six men are safe on board the Mallory line steamer Alamo, bound for Key West while their vessel, the steamer Kentucky, lies at the bottom of the sea off Cape Hatteras. The Kentucky, a wooden vessel of 396 gross tonnage and 203 feet long, was bound from New York to the Pacific for passengers between Tacoma and Alaska ports for the Alaska Pacific Steamship Company.

First news of the Kentucky's distress was received at the wireless station at Cape Hatteras at 11:30 a. m. There the operator heard the "S. O. S.," quickly followed by this message: "We are sinking. Our latitude is 32.10, longitude 76.30." Almost simultaneously the operator heard the steamer Alamo respond to the Kentucky's call for help, informing Capt. Moore that the Alamo was making all speed to the sinking vessel's assistance.

The Navy Department at Washington in the meantime sent out distress messages along the Atlantic coast, dispatching the battleship Louisiana and two revenue cutters to the scene, but later word came from the Alamo that it had arrived safely. This is the message received in New York from the Cape Hatteras station: "The Alamo has just taken Capt. Moore and crew of forty-six men from sinking steamer Kentucky. Water already had reached fireroom and steamer will sink before midnight. The Alamo is now proceeding to Key West."

Eleven Die in Mine Blast.

Gas Explodes in Pennsylvania Coal Workings—110 Held Prisoners.

One American and ten Hungarians furnished the death toll of a gas explosion the other day in No. 2 slope of the Ernest mine of the Jefferson and Clearfield Coal Company, five miles north of Indiana, Pa. The explosion occurred in a heading where twelve workmen were located, and one of these, Andrew Kracer, escaped by crawling a quarter of a mile on his stomach to evade the noxious gases. His inability to speak English prevented a lucid explanation of the cause of the explosion. Some of the dead were found near the entrance to the heading, others lay along the track at short distances from each other, almost at the face of the coal. Two bodies nearest the face were burned slightly about the face and arms. The position of the bodies showed the men had made desperate efforts to crawl away from the heading. One hundred and ten men working in the same slope escaped through other headings of the mine, although they were held back for about ten hours by the black damp until a party of twelve mine bosses reached them.

Unions Hard Hit by Court.

Verdict for \$222,000 Against Hat-makers Sequel to Boycott.

The United Hatters of North America, which eight years ago declared war on members of the union, for damages because of the boycott. Judge J. P. Platt instructed the jury to render a verdict for the plaintiff, leaving to the jurors the fixing of the amount of damages. The jury gave \$222,000.

Loewe brought suit against Martin Lower and about 200 other defendants, members of the union, for damages because of the boycott. Judge J. P. Platt instructed the jury to render a verdict for the plaintiff, leaving to the jurors the fixing of the amount of damages. The jury gave \$222,000.

Money in Circulation Now is Less Per Capita than Year Ago.

On the basis of an equal distribution of the money in circulation in the United States Feb. 1, each person would have 13 cents less than he had a year ago. The circulation per capita Feb. 1 was \$34.82. Population and money in circulation had increased during the year. Feb. 1, 1909, the circulation aggregated \$3,091,312,546; three days ago it amounted to \$3,125,586,720. More than \$300,000,000 of the general stock of money in circulation in the United States, which amounts to \$4,428,135,968, is held in the treasury as assets of the government.

Death Taxin Bomb Suspect.

Prof. Martin Ekenburg the Swedish scientist, who, on being taken to London last fall charged with complicity in several bomb outrages in Sweden, became temporarily insane but was later committed for extradition to Sweden, died suddenly in Brixton jail. The cause of his death is officially attributed to apoplexy.

Merchant Prince Ends Life.
Blood dripping through the ceiling led to the discovery of the suicide of Henry H. Schwabacher, 55 years old, president of the wholesale grocery firm of J. and M. Schwabacher, Ltd., at his store in New Orleans. Mr. Schwabacher, who was a millionaire, had suffered from stomach ailments for some time.

Indianapolis Newspaper Sold.

The Week in Congress

The Senate devoted the greater part of Thursday to consideration of the postal savings bank bill, agreeing to several amendments. The Lodge price of food investigation resolution was reported and amended. The Senate also considered the resolution of Senator Elkins on the same subject was interpreted by the West Virginia Senator as a discrimination against him. He made a speech emphasizing seriously of the treatment of Senator Elkins. It was intended to protect the trusts and the tariff against the inquiry. The House passed the agricultural appropriation bill, carrying appropriations aggregating nearly \$12,500,000, a net increase of \$400,000 over last year. This increase being chiefly for the forest service, made necessary by the addition to the national forests of 26,522,439 acres. Consideration of the diplomatic and consular appropriation bill was begun.

In the Senate Friday Mr. McComber of North Dakota delivered a prepared argument to prove that the farmer does not obtain his due share of the prices paid for food products. Mr. Heyburn of Idaho concluded his speech in opposition to the postal savings bank bill. On account of the death of Representative Lovering of Massachusetts the Senate adjourned earlier than usual. For the first time this session failed to adjourn on Saturday. Practically no business was transacted in the House and an early adjournment was taken because of the death of Mr. Lovering.

The Senate gave the greater part of the day Saturday to the question of constitutionalism of the extradition of criminals from one State to another in cases in which the prosecution is carried to the process of "information." No action was taken. The postal savings bank bill was also up for a time. The only important action taken was on a bill opening to settlement the unallotted lands in the Pine Ridge Indian reservation in South Dakota. The bill was reported by the committee on Public Expenditures a bill creating a permanent commission for the regulation of methods of government expenditure. He failed to obtain the unanimous consent asked to have the measure passed, Senator Elkins objecting. The House was not in session.

In the Senate Monday Senator Heyburn bitterly opposed a loan of tents by the government for use at the annual encampment of Confederate veterans at Mobile, Ala., next April and strongly condemned the acceptance by Congress of a statue of Robert E. Lee as a contribution from Virginia to the Statuary Hall in the capitol. The bill was passed unanimously except for Mr. Heyburn's vote. Mr. Rayner in a speech attacked the constitutionality of the proposed postal savings banks law. The Senate passed a dozen bills for the establishment of fish hatchery stations in various parts of the country. The President's federal incorporation bill was introduced in the House and was opposed by Representative Garrett, of Tennessee, on the ground of unconstitutionality. The House devoted two and a half hours to a discussion of one of its rules regarding the suspension of the writ of habeas corpus for the purpose of facilitating business.

The postal savings bank bill and the bureau of forestry were under discussion in the Senate Tuesday. The public expenditures committee was also taken up in debate, some Senators seeking a possible interference with the regular committees because of the comprehensive powers given the public expenditures committee. "Joy ride" wine and other personal extravagances of living were charged against the immigration committee in the House by Mr. Macon, of Arkansas, in discussing the expenses contracted by the commission on its trip to Europe last summer. The high and low prices were debated by Mr. Henry, of Texas, and Mr. Boutwell, of Illinois.

An investigation of the causes of the high prices of the necessities of life was provided Wednesday by the passage of a resolution for that purpose by the Senate. The Senate also passed a bill conferring the rank of rear admiral upon Commander Peary and retiring him with the highest salary paid to an admiral. This was "calendar day" in the House, and several bills were passed, including one for the creation of an art commission to pass upon various works of art erected by Congress in the District of Columbia.

FROM FAR AND NEAR.
Earthquakes were felt at Imperial Valley points in California. No damage is reported.

Five destroyed the First Church of Christ, Scientist, at Ft. Worth. The loss is estimated at \$75,000.

Informed by the "Answers to Correspondents" department of a psychic magazine that he was due to die on Thursday at midnight, John W. Wages, aged 35, of Cleveland, vanished at that time in his night clothes and has not since been seen.

John A. Carlington and J. Stobe Young, officials of the Senate, were found guilty of breach of trust with fraudulent intent.

Resignation of the president, broken in health, started a run on the United States Banking Company in Mexico City, which is officially declared solvent.

Augustus Nash, secretary of the Cleveland (Ohio) Y. M. C. A., started the ministers of Pittsburgh by declaring that "if Rockefeller had been elected by our Baptist friends to consecrate himself to the great work of the evangelization of New York City the joy would have been done."

Harry Hilden of Biloxi, Miss., 14 years old, rescued Theodore Ryan, aged 12, from drowning. It was the fifth rescue of the kind by the boy.

Possibility of saving the sight of Thomas Taggart's right eye, he having been hit by a charge of bird shot while hunting near Natchez, Miss., was established by an X-ray examination.

The Ohio River Valley Association is planning for a celebration next year similar to the recent Hudson-Fulton celebration in New York. A relative of President Roosevelt built the first steamer launched on the Ohio in 1811 and the ex-President is expected to take part in the program.

Stevenson's Cup of Misery.

R. L. Stevenson, writing in 1893 to George Meredith, in an epistle quoted in his "Letters," says, with heart touching pathos:

"For fourteen years I have not had a day's real health. I have awakened sick and gone to bed weary, and I have done my work unflinchingly. I have written in bed and written out of it, written in hemorrhages, written in sickness, written torn by coughing, written when my head swam for weakness, and for so long, it seems to me, I have won my wager and recovered my gloves. I am better now—have been, rightly speaking, since first I came to the Pacific—and still few are the days when I am not in some physical distress. And the battle goes on—ill or well is a trifle so that it goes. I was made for a contest, and it would seem that my battle should be this thing, in glorious one of the bed and the physic bottle. At least I have not failed, but I would have preferred a place of trumpeting and the open air over my head."

The Kentuckian Was Pleased.

He Secured a Good Half-Section in Central Canada.

It is not only from Kentucky, but from thirty-five to forty different states that there comes the expression of satisfaction from those who have taken up lands in Central Canada as a free homestead or have purchased lands.

Mr. E. K. Bell, of Frankfort, Kentucky, writes to a Canadian government official, and says: "I have just returned from Alberta, overjoyed with my trip. Your literature was very flattering, but not half what I found it. I bought a half section between Calgary and Edmonton, one mile from railroad, near a good town. This is the best country I ever saw or ever expect to see. I will go in the spring and get to work on my place. I think it is the coming country of the world. Some of the papers describe the settling of the Canadian West as 'becoming a fever with a great many people. The lure of its golden promises is creeping into their hearts and many are they who are answering the call of that unsettled territory. This paper especially cautions its readers to exercise care and thought before moving to a distant country. This would be a wise precaution, and is exactly what the Canadian officials ask. The success of the settler who has made Canada his home for years is the best evidence that can be offered. And of the large number of Americans who have made their homes in Canada, very few have returned. All are satisfied."

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that a cure has been discovered for the disease that science has been able to cure in this country. The cure is the only one that is a constitutional disease, requires a constitutional treatment. It is the only one that cures the disease on the blood and mucous surfaces of the body. It is the only one that cures the disease on the blood and mucous surfaces of the body. It is the only one that cures the disease on the blood and mucous surfaces of the body.

Raw Ecceza on Hands.

"I had eczema on my hands for ten years. I had three good doctors but none of them did any good. I then used one box of Cuticura Ointment and three bottles of Cuticura Resolvent and was completely cured. My hands were raw all over, inside and out, and the eczema was spreading all over my body and limbs. Before I had used one bottle, together with the Cuticura Ointment, my sores were nearly healed. After the second bottle I was well. To the third bottle, I was entirely well. To the fourth bottle, I was cured. My hands were raw all over, inside and out, and the eczema was spreading all over my body and limbs. Before I had used one bottle, together with the Cuticura Ointment, my sores were nearly healed. After the second bottle I was well. To the third bottle, I was entirely well. To the fourth bottle, I was cured."

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that if it didn't matter what the cow ate as long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

"It's only a tenderfoot farmer that would try such an experiment with a cow. But many a farmer has done it. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows 'weak'—the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness."

"All my unpleasant symptoms, the heartburn, the inflated feeling which gave me so much pain disappeared. My weight gradually increased from 88 to 116 pounds, my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. Grape-Nuts did it."

A ten days' trial will show anyone some facts about food.

Look in page for the little book, "The Road to Wellville." There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Attention Sick Women

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."

—Mrs. Lena Carmocino, Hudson, Ohio, R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thank you to your medicine and good advice. You may use my letter for the good of others."

—Mrs. J. H. Breyer, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She will gladly address them to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

WESTERN CANADA

What Governor Densen, of Illinois, Says About It

One of the most important industries of the Bahama Islands is the gathering of pink pearls. It is the only place in the world where these pearls are found. They are not taken from the oyster shell, but from a shell resembling a large small shell, called a "conch." These pearls when perfect bring very high prices, it is said, ranging from \$50 to \$500.

Teaching Baby to Walk.

Never encourage a baby to try to walk if he seems unwilling to learn. The sockets of the joints are very shallow in tiny children and the bones so feebly connected that they are easily dislocated. Besides, bowed legs are very much easier to avoid than to cure, and standing before the legs are strong enough to bear the weight of the body may result in permanent deformity.

Bad Deeds.

The greatest of all horsemen, says: "With 40 years' experience with horses I have found Spohn's Dismemper Cure the most successful of all remedies for the horse. It is the greatest blood purifier. Bottle, 50c. and \$1.00. Druggists can supply, or manufacturers. Agents wanted. Send for Free Book. Spohn Medical Co., Spec. Contagious Diseases, Goshen, Ind."

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate the stomach, liver and bowels. Do not grip.

There is one mill in Indianapolis which turns out between 17,000 and 18,000 barrels of flour each day.

FILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles. It cures in 6 to 14 days. Write for Free Book. Pazo, Indianapolis, Ind. (Third Street, near 10th St.)
