NEW POSTAL CARD TO BE PRACTICED.

The postoffice department in recent years has changed the size and shape of the postal cards in general use, each time to conform more nearly to business ideas if possible. Recently it has discontinued issuing cards in the "A" and "K" sizes and replaced them with a new card which will be designated as the "No. 5" card. The new card will be slightly smaller and of different shape than the old ones and will be resplendent in red ink. Lincoln's portrait will continue to adorn the stamp.

Referring to the new postal card the Postal Guide says that "It is designed for brevity and index purposes. The size, 2 1/2 inches makes it available for filing in most standard cabinets and patent files. The card can be secured in sheets of eighteen by persons or firms who desire to have them printed. Incidentally, the postoffice department would be obliged if people in general would remember that the official card supplied by the department is a postal card and not a post card. The post card is any card issued by private concerns and requires a stamp to carry it through the mails. The word has been used so indiscriminately that many people have lost the significance of the term as distinguished from postal card."

Children Cry FOR FLETCHER'S CASTORIA

Muscular Christianity. Birmingham, England, was the home of prize fighting when the ring was patronized by literature and royalty. There was Bendigo, who became an enemy to all upright notions, "Wot's a theif?" he asked, care on being told that a gathering of men he saw were of that persuasion. He was told, "Don't believe in no God, don't they?" he shouted, "Here, hold my coat. I'll soon show 'em wot's wot!"

Lower Down on the List. Having just had her child baptized in church she waited in the vestry till service was over to have the registrar's certificate indorsed in the usual manner. The vicar, not being sure of the date, remarked in an interrogative tone, "This is the tenth, is it not?" "Indeed, no, sir!" replied the worthy matron indignantly, "she's only the sixteenth, the week laub."

A Gentleman. A man that's clean inside and out; who neither looks up to the rich nor down on the poor; who can lose without sneezing and who can win without bragging; who is considerate of women, children and old people; who is too brave to lie, too generous to cheat, and who takes his share of the world and lets other people have theirs.—New York Sun.

Woman Author at Home. Home-made jam is gradually disappearing from the twentieth century European household. And yet our average George Sand, who treated most of her domestic duties somewhat lightly, was discovered by a visitor wearing a cotton dress and a big apron, and skimming a panful of fruit destined for the jam-pot. "It is not easy work," she remarked. "I find it harder to make good jam than to write Valentine's or Mauprat; but there are some tasks one cannot leave to others."

Perfect Coating for Mans. "Mraslin" is the name of a substance that is used in Bohemia to coat hats and harness, and keeps the harness clean, soft, and perfectly fresh almost indefinitely. The mraslin can be peeled from the lam almost as easily as the skin from a banana.

WARNING TO RAILROAD MEN. Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroad. Geo. E. Bell, 639, Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroad left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured I have recommended Foley Kidney Pills to many of my railroad friends."—Anders & Phillips.

FOLEY KIDNEY PILLS.

Neutralize and remove the poisons that cause backache, rheumatism, nervousness and all kidney and bladder irregularities. They build up and restore the natural action of these vital organs.—Anders & Phillips.

Origin of "Yonkers." Patron Van de Donck, in the years after 1642, lived such a serene and robust life on his Hudson river estate that the Dutch villagers called his honor farm, "De Jonkheer's land"—the gentleman's land; later compressed by the frugal English into "Yonkers."

Division of Salary. "What?" exclaimed Mrs. Flatloch. "You don't mean to tell me you pay a girl \$10 a week for cooking?" "Oh, no," replied Mrs. Urbandale. "We only pay her \$2 a week for cooking. The other \$8 is for staying."—Chicago Daily News.
